HOW CAN THESE FACTS BE DOUBTED

Many People Becoming More Interested Each Day.

How can these facts be doubted? People in your own town, many of whom you no doubt know, and many of Lincoln and other cities in Nebraska, as well as thousands of others throughout the United States are telling of the marvelous results obtained through the use of Tanlac. Mr. John E. Himoe, the well known shirt manufacturer, whose office is at 620 Paxton Block, this city, and who has been in business in Omaha for 25 years, tells an interesting story regarding his health and the use of Tanlac.

"For the past few years I have been exceedingly nervous, and at times the least little excitement would completely upset my nerves. I could not sleep soundly at night, was irritable and my stomach troubled me a great deal. When I ate or drank anything cold I would suffer for sometime afterward with severe pains in my stomach, and it would always leave me in a very nervous condition. I had heard so much of this Tanlac that I decided to give it a trial. It has done everything claimed for it, and I can gladly tell anyone of the improvement in my condition. I now sleep better, have a ravenous appetite, and my nerves are in better shape than they have been in years past. Above all, I can surely enjoy a good meal."
