GIRL TESTIFIES OF THREAT BY LUFF

Much-Sought-After Young Woman of Marquette Testifies of Threat to Kill Her.

MANY STORIES REPUATED

AURORA, Neb., Nov. 11.—(Special Telegram.)—At the preliminary trial of Fred Luff today before County Judge Jeffers for the assault on Nels Nelson all evidence as to the action of the bloodhounds in tralling from the Nelson home to the Luff home was excluded. The county judge stated that he believed he was bound by the decision of the supreme court, which excludes such evidence.

Miss Mary Peterson was the principal witness for the state today. She testified that she had formerly kept company with Fred Luff. She stated she had refused to marry him and started to keeping company with Nels Nelson on October 9. She said she saw Luff on the streets of Marquette and he told her he would shoot her in two weeks. This was the only threat she had ever heard Luff make. She repudiated the story that had been circulated in this county that Luff had threatened to do violence to Nelson.

Fifteen Other Admirers. Miss Peterson stated that she told Nelson of this threat on October 9, that being the date on which she first went out with Nelson. She declared that she told this threat to but one other person prior to the assault on Nelson. Cross-examination developed that she had had about fifteen other young men of Marquette as admirers during the last year. It seemed to be the theory of the defense that some one of these admirers had been guilty of the assault on Nelson, the shooting of Luff and the burning of Nelson's shed.

Chris Pederson, sr.; Chris Pederson, jr.; Peter Thomson, Vito Thomson, Oscar Larson, Chris Anderson and C. A. Stewart were the other witnesses examined today, not one of whom gave any damaging evidence against Luff. So far the evidence of the state that connects Luff with the assault on Nelson is not sufficient to permit his being bound over.

The state announced tonight that it would call Sheriff John Powell, Deputy Sheriff Steve Powell and R. M. Fulton of Beatrice tomorrow. The latter is the owner of the bloodhounds which were used here.

The testimony of the sheriff and his deputy will be as to the finding of a boot mark in the road. The state will attempt to show that this boot mark was made by the rubber boot of Luff which is in evidence.

NORTH PLATTE, Neb., Nov. 11.—(Special.)—The plea of intoxication as an excuse for burglary failed to save Ashton Manning here today. Later Manning was arrested in Grand Island and fillings found in his possession. At his hearing this morning Manning pleaded guilty, but asked for clemency because of ill health and the fact that he was drunk when the robbery was committed. Clemency was refused by the court.

AUTOMOBILE UPSETS WEST OF CORTLAND

BEATRICE, Neb., Nov. 11.—(Special.)—Earl Meyer, Will Rathbun, Lelia and Lola Bailey, all residents of De Witt, came near losing their lives Monday morning about 1 o'clock when an automobile in which they were riding turned turtle five miles west of Cortland. Meyer, who was driving the car, had several ribs broken and was badly cut about the head. Miss Lelia Bailey, who was in the seat with him, was cut and bruised about the body. They were caught under the car as it turned over and were rescued by young Rathbun and Lola Bailey, who escaped injury. The injured were taken to a farm house and later removed to their home at De Witt. The car was badly smashed.

The barn on the farm of Mrs. Bynow was struck by lightning Tuesday night and burned to the ground. Several heads of horses and mules belonging to J. B. West, who occupies the farm, together with a lot of hay and grain, were burned. The loss is placed at \$1,000, partially covered by insurance.

Jundas Makes First Visit in Ten Years To Capital of State

(From a Staff Correspondent.)

LINCOLN, Nov. 11.—(Special.)—Editor J. H. Dundas of the Auburn Grazer was in the city today and called at the state house for the first time in ten years. Mr. Dundas served his district in the legislature in 1875 as a senator, being elected on the populist ticket. He still claims to be an independent, but does not approve of the president's preparedness program. He thinks Bryan was entirely in the right in leaving the cabinet and would vote for him for United States senator in preference to the present incumbent, Senator Hitchcock.

Senator Dundas came very near not being senator, according to his story. After the populist convention of his district had nominated him, a delegate asked him if he would stick strictly to the party if elected. He replied that he would not, but would vote the way he thought best. The delegate then moved that the nomination of Mr. Dundas be reconsidered, but it failed to carry.

DEM PARSIMONY ENDANGERS HEALTH OF NEBRASKA CITY

(From a Staff Correspondent.)

LINCOLN, Nov. 11.—(Special Telegram.)—The democratic economy legislature has scored another triumph, this time at the expense of Nebraska City, where because of the refusal of the legislature to give the state bacteriologist funds to retain help in his office, the city water has gone back to its former unsanitary condition.

About a year ago the water at Nebraska City became very impure and the matter was taken up with the State Board of Health. Becoming tired of waiting for the secretaries of the board to act, State Bacteriologist Wild, on instructions of the governor, made several trips to that city and was able to get the conditions in pretty good shape. Later he was compelled to cut out all his help in the office for want of funds, and the result has been that he could not follow up the work started at the Otoe county town, and the water is now again in bad shape, according to Dr. Evans, head of the Burlington's sanitary service, who called today on the health inspector J. D. Case and lodged a complaint.

The water from Nebraska City is taken from the Missouri river, and as it is below Omaha, it needs considerable attention, and, according to Dr. Wild, state bacteriologist, at times is very bad.

It is supposed that Mrs. Anderson committed suicide. Coroner Maloney left this afternoon for the Anderson home.

HALL COUNTY BOARD ORDERS SANITARY CHANGE IN DEPOT

GRAND ISLAND, Neb., Nov. 11.—(Special Telegram.)—On motion of Supervisor McDowell and unanimous vote of the county board, the county clerk was instructed to notify the agent of the Union Pacific Railroad company "to have the unsanitary conditions of the interior of the depot remedied at once." The fact that the county authorities were finally required to make such an order is causing some comment.

A new depot proposition has been up in Grand Island for four years, but as far as the Commercial club, the only other body to touch upon the matter, received nothing but promises and has finally given it up as a bad job. The board members claim that as a board of health they have power to have the conditions of the depot remedied if the city did not act.

STATE AUDITOR REGISTERS RED CLOUD SCHOOL BONDS

(From a Staff Correspondent.)

LINCOLN, Nov. 11.—(Special.)—State Auditor Smith has registered school bonds of the Red Cloud school district in the amount of \$5,000. Approval was made to the registration of the bonds on the grounds that the law is alleged to prohibit the issuance of bonds of this kind for more than 12 per cent of the assessed valuation of the district.

The assessed valuation of the district would permit the issuance of but \$3,500 in bonds, \$2 less than the amount voted. The district officers claimed that the bonds were issued on the valuation of the district in 1914, which was high enough to permit of the issue of that amount. Assistant Attorney General Ayers rules that there is no limit to the amount of bonds for municipal districts of more than 1,500 population.

FORMER FLORENCE WOMAN WITNESS IN WILL CONTEST

FAIRBURY, Neb., Nov. 11.—(Special Telegram.)—Mrs. D. D. McLoughlin of Republic, Wash., daughter of Mrs. Maria Blauser, who was awarded just \$100 in the latter's will, was put on the stand in the contest for the Blauser estate today. Mrs. McLoughlin testified that she was a resident of Florence when she instituted proceedings in 1908 to bring specific performance of a contract purported to have been made by her father, wherein he sold her a quarter section of land at \$33 an acre. Mrs. McLoughlin won the suit and it is said the bitter feeling engendered in this caused her mother to slight her in the will.

However, she said, pleasant relations had always existed between herself and her mother, asserting they had exchanged letters and visited frequently. Contestants are endeavoring to establish the fact that Mrs. Blauser did not have sufficient capacity to make a will distributing \$30,000 worth of property, due to infirmities of old age and that undue influence was exercised by her son.

SMALL TWISTER DOES DAMAGE AT LOUP CITY

LOUP CITY, Neb., Nov. 11.—(Special.)—A tornado which formed west of town did considerable damage here this afternoon. The residence of W. L. Prt-han was unroofed and the upper story to the house was badly wrecked, everything below, however, remained intact. W. J. Conger's ice house was literally torn to pieces, and the large water tank on the Burlington track was partly unroofed. A heavy rain and hailstorm followed the twister.

The supervisors have just finished a three days' session. Among other things considered was the need of repairing some of the county bridges. Sheriff L. W. Williams arrested a man today by the name of Andrew Bukath and will hold him until authorities from the police force at Chicago come to see if he is the man wanted. FLYNN VISITS LEAVENWORTH Tells of Seeing Fifteen Hundred Prisoners Eat with Orchestra Accompaniment.

MARCH IN TO BAND MUSIC

United States Marshal Thomas J. Flynn has returned from Leavenworth, Kan., whither he escorted some prisoners who will sojourn for a year or eighteen months in the federal prison.

"It was my first visit to the prison," said Mr. Flynn, "and I was amazed at the splendid buildings and grounds and the efficient manner in which everything is done."

"I saw 1,500 prisoners at one time in the dining room, and they were served in just a jiffy and everything went with the precision of clockwork. They all came marching in while the brass band played an inspiring marching tune and took their places at the tables. Why, it wouldn't sound until the man in charge gave a single stroke with a gavel, and then as one man their hands went to their tin plates, and from one end of the room came a force of men carrying sparkling cans. These cans I found contained coffee, and they went swiftly about pouring the Java. Others came along with big, clean, bright kettles from which they dished out meats and vegetables to the tin plates."

"It was a cosmopolitan gathering. Some men were pointed out to me who in the outside world were bankers, high public officials, principally from Terre Haute, and others who were loaded with honors and wealth.

"Oh, yes, I must mention the orchestra. These prisoners have music with their meals. An orchestra of twelve pieces played while they ate. Why, it wouldn't be much better at a swell chafe. I understand now why most prisoners would rather get a year in the federal prison than six months in some county jail.
