Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO. Nov. 29.—The wholesale commandeering by the Canadian government resulted in a broad demand here today for wheat. Notwithstanding sharply ditergent views regarding the ultimate effect on prices in the United States the action on the market clearly indicated that a majority of traders here construed developments in Canada as favoring for, at least the time being, a higher level of values. Quotations closed firm with December \$1.06%, and May \$1.06%, an adtance of 2% to 2%.67% above Saturday's finish. Corn gained 1 to 1%.06%, and an oats, 2% to 2%.07% above Saturday's finish. Corn gained 1 to 1%.06%, an adtance of 12% cents.

Excited buying of wheat at the opening carried the market up with a rush, but when the upturn amounted to 2% cents a bushel and was beginning to appear sensational, offerings which at first had bene scarce became quickly abundant. The result was a moderate recalling slightly under the initial range. Subsequently, however, word of export sales of 500,000 bushels to be shipped by way of the Gulf of Mexico tended to cause a rally, which left the market in the end with %c of the topmost level of the day.

Apparently the most popular opinion on by the rank and file of dealers in wheat was that the huge seizure in Canada showed the urgency of the European need for breadstuffs from America and that the United States would sooner or later be called on to furnish a liberal share of the requisite total supply.

Leading exporters though declared that the British government was evidently determined to minimize the price of wheat and that the preference given to the imense surplus in Canada would surely reduce export business from the United States.

Outs took the lead in coarse grains being stipulated by an active demand by houses that usually act for the seaboard.

Corn responded to the bulge in other cereals but advanceds were checked by the fact that prices Grain: Wheat-No. 2 red. \$1.114.00.114; No. 3 red. \$1.06.000.000.000.000.00 Prices on Board of Trade.

Range beef commanded about steady
prices; there being a good demand for
cattle of that description. Cornfeds
which were for the most part very common and ordinary, with practically nothing choice in sight, were very slow and
dull, it being hard work to find buyers
for some of the common and less desirable kinds.

and generally commanded steady prices. Buyers seemed to want a few choice light stockers and feeders and cattle of that description were fully steady and in spots possibly strong, but the general market was slow and dull, common grades being weak and hard to move.

The market on cornfed beef continued a drag throughout the day, a good many still being unsold at a late hour. Prices were in the neighborhood of 10glife lower than last week.

Fat lambs were in pretty fair request, and started moving early at prices that were generally steady with last week's close. Prices paid for the most of the offerings were strong and in many cases logate higher than the extreme low spot on Friday's close, but on the other hand looked as much as 102/15c lower than the good time on first round Friday. Best fed westerns brought \$5.50, while the bulk of both corn fed and rang, offerings was bought at \$5.50, with a sprinkling of the less desirable stuff on down. Movement, was fairly active all through, and nearly all the fat lambs had been started towards the scale by shortly after 10 o'clock.

Feeder trade was pretty much the same fix as on hist weeks close. Light lambs are still wanted and a fair sort sold today at \$8.3025.25.

The market was very dull, however, demand being uncertain and of a limited character. Up to noon nothing had sold over \$8.35, a good kind bringing that figure. At midday no sort of a clearance had been made, several bunches of Mexicans and a number of small lots of rangers were still in first hands. On the basis of the sales made values were weak to in most cases limited lower Four cars of Wyoming feeding ewes, which were of full quality, brought \$4.50, and a small lot of breeders landed at \$5.25.

Refuses Additional Fee of \$50,000, Says Mellen Upon Stand Next and Ne

NEW YORK, Nov. 29 .- John L. Billard, the Meriden coal dealer, was such a good friend to the New York, New Haven & Hartford railroad, Charles S. Mellen testified today, that if "my directors had asked me to take a pound of flesh out of him, he would have willingly gone off studebaker Company. bleeding." This characterization of the man who

eld the New Haven's shares of Boston & Maine stock came during testimony at the trial of the eleven former New Haven directors to the effect that Billard willingly gave up a nominal profit of \$2,750,000 for an actual profit of \$150,000. The New Haven settled with him for \$450,000, but he gave up \$300,000 of it to Frank Brown, a Connecticut lawyer who had helped to get the charter of the Billard company. The witness added that Billard wanted to give him \$50,000, but he

ON CANADA'S MOVE

Local Dealers at Sea as to What Effect Will Be on the General

LITTLE NEW WHEAT MOVED The commandeering of 20,000,000 bushels of Canadian wheat by the Canadian government had an effect upon the Omaha grain market, giving it a bullish upturn for a short

time. It sold wheat up 3 cents, but

later in the session prices dropped

there was about a cent net advance for the day. With 149 carloads on the market, the sales ranged between 88 and 99 % cents per bushel. Corn felt the advance that come to the wheat and went up a couple of cents, the forig-th ce cars of new selling at 60 to \$15 ients, the top price attained by the new crop since it became a marketable

corr to make a market. Cats gained from one-half to a cent, colling at 25 to 36 cents, with offerings of thirty-three carloads,

Opinions Differ. The effect the commandeering of wheat by the Canadian government will

have upon prices in the United States in problematic, so far as local grain dealers are concerned. There are about as many opinions as there are dealers, and all of them assert that whatever they may say is a guess, one man putting it this way: 'It is simply a guess, and if you will give me the correct dope I will buy you a mighty nice Christmas present, for if you can guess right there is \$1,000,000 in

it in short order." Said President Swearingen of the Omah Grain exchange:

"The whole problem is a guess and one man is in just as good a position to guess as the next one. There may be men who ere lucky, but none are experts in the guessing business."

W. J. Hynes, former president of the exchange: "It looks as if the seizing of this wheat would create a bullish market. but you can't tell."

Takes Wheat from Market. Eimer Cope-'I think this means higher prices for wheat, for the seigure of 20,000,-400 bushels of wheat takes just that much off the market."

Nathan Merriman-"My judgment is that the advance in wheat prices today is due to fluctuation and that prices after the first excitement is over, will get back in line. Still, I don't know and I don't think there is anybody who does." John Cavers-"My guess is that wheat will be higher, but I don't pretend to

know. I have an idea that the commandered wheat will be shipped at once and will be converted into flour to be made into breau for the southers at the front." E. P. Peck-"The man don't live who can tell what the advance in wheat prices means. It may be a justifiable advance and it may mean fluctuation of the market. Then, too, it may mean that Canadian dealers hedged in Chicago and that when they came to can tor their wheat at the prices at which it was bought, the big advance came. Omahgrain dealers assert that there is still unsold and in the hands of producers the major portion of Nebraka's crop. There is more of the grain in storage in Umaha elevators than a week ago when account was taken, but the quantity is more than 1,000,000 bushels less than on the corresponding date last year.
