Stop the Cold **And Avoid Grip**

Coughe and Colds Should Not Be Magleoted,

The lack of resisting power that precedes all kinds of ill-health causes coughs and colds. The theory of some people to "let a cold run its course" should be upplanted by the safe rule to "never neglect a cold," because it is from coughs and colds that grippe, pneumonia and other serious allments usually develop. So it behooves all who are prone to 'take cold" to find a remedy to forestall it. In this connection Duffy's Pure Malt Whiskey will prove one of the most effective remedies you have ever tried, if taken in tablespoon doses in equal amounts of water or milk before meals and on retiring. Because Duffy's Pure Malt Whiskey is an absolutely pure tonic-stimulant, it assist in building up the weakened and run down system by source of most ills. If the system is in write us. ACUTE AND CHRONIC RHEUMATISM

The exact cause of rheumatism is unknown, though it is generally believed to be due to an excess of uric acid in the blood. It may be also said with equal truth that no remedy has been found which is a specific in all cases. In fact the literature of rheumatism shows that there are but few drugs which have not been given a trial. In the hands of one observer we find that a certain drug has been used with the utmost satisfaction; others have found the same remedy to be a great disappointment. All physicians however agree that every method of tensiment is aided by the administration of some remiedy to relieve the pain and quiet in merrous system and Dr. W. 8. Schulitze expresses the opinion of thousands of practitoers; when he says that anti-kammin tablets should be given preference over all ciles remedies for the relief of the pain in the part of rheumatism. These tablets can be purchased in any quantity. They are also concurpased in bencher, neuralized and alt pain. Ask for A-K Tablets.
