Attaches of the sheriff's office brought the man suspected of the crime to Kearney, Wednesday, but no complaint was filed, the theory being that the evidence was not strong erough against him.

NORTH PLATTE CHRISTIAN CHURCH WRECKED BY FIRE

NORTH PLATTE, Neb., Jan. 13 .- (Spe cial Telegram.)-Fire from a defective flue last night damaged the local Chris tian church. The loss will be about \$45.0 Insurance of the church was \$4,000.

The fire was first noticed by O. E. Elder, who was passing the church at 11:30 o'clock last night and immediately gave the alarm. The intense cold caused the water thrown on the fire to freeze almost as soon as it left the hose, making the fight of the blaze difficult.

The building was practically destroyed A \$600 plane in the building was ruined by smoke and water, as was also the church furniture.

METER NIGHTMARE SPECTER TO BOARD

Water Manager Just Settling Down to Another Campaign When

it Bobs Up. REAL ESTATE MEN ARE PEEVED

The Water board is starting the new year with one hard nut to crack. Hevelone: "Our Husiness Interests," lieves the time has come to dispose o' the meter situation which has been city took over the plant.

When the city bought the plant is essigned as the reason. there were about 2,500 householders who had meters installed without these meters being included in the evened invoice and considered property of the city.

When the new regime began to install meters the policy adopted was to charke the householder an arbitrary amount for the meter, which would become his property, or give him the option of paying a monthly rental of 10 cents.

Problem Presented.

Now comes the situation of 2,700 house holders using meters installed by the old company, but not paying the city either a purchase price or rental for them.

Chairman Wead believes this is mantfestly unfair to charge the new patrons and let the others go without charge. The board is rather up against it. To make the 2,300 pay at this late date will arouse quite a howl, which Manager Howe! wished to avoid.

From the very first of municipal own rship of the water plant there has been a vigorous kick against the system of Installing new meters. Some contended byfore the board that the price asked by Manager Howe I for maters was excessive. Now the time has come Chairman W. Wead believes, to thrash this matter out, and if there are any inequalities to adjust them so that the board will not continually be sought by disgruntled patrons

May Come to Terms, At the next meeting of the board a proposition will be made to place the 2,503 water users mentloped on the same basis as those who have had meters installed
