That most horoscopes were worthless rested upon the understanding of the esoteric, as well as the exoteric, side, and few can understand the deeper truths underlying it, Mr. Miller asserted. He said, however, that to the scientific astrologer, when he had the date, place and hour of birth of an individual, he could give the history of that individual from the cradle to the grave, show all the events of his life and know his inner nature better than the man himself.

This, Mr. Miller remarked, he had proven many times, and gave some examples to substantiate his claim. He said that the National Astrological society was endeavoring to drive out of practice all of the cheap, ignorant, so-called astrologers and to bring the science again into general use in the every-day life of

#### Satisfaction Guaranteed or Your Money Back

We are sore that you will be well entisfied and we promise to return the first payment of one dollar and anything else you have paid us on the Britannics account, and anything you pay for shipping charges on the books, if for any reason within three weeks you send the set back.

It is a wise way to spend a dollar. Spending \$1.00 does not mean very much to you. You probably don't often ponder a long time over such a small expenditure. Perhaps you often spend a dollar and have little to show for it afterwards. This time think over the expenditure carefully. Because you will have a good deal to show for it afterwards.

# Our Unparalleled Offer

We specialize in bargains. But this is the biggest bargain we ever offered and we think it's not likely that we'll ever again be able to offer anything so attractive, such wonderful value.

For \$1.00 down you have the Britannica in your home. Use it and test it at your leisure. Any time in three weeks send it back if it does not prove to be what you expected it to be, and you shall have back the dollar and everything else you paid for the set (shipping charges included).

have the same experience with the Britannica that most people have, you will get back every cent you pay, in satisfaction, instruction, realized ambition, intellectual and material remuneration. If you don't feel you've got your dollar's worth one of the first few times you've used the Britannica—if you feel that it's not going to be worth what you will pay, or if for any reason you're not satisfied and return the set, we'll let you have the dollar back.

You get all the Britannica for \$1.00 down. The whole 29 volumes are shipped at one time. The complete set comes altogether. None of its usefulness is lacking. ## The Britannica Is a Utility

at a popular price

like light, water and the telephone. It will do for you efficiently what you cannot do for yourself It is as useful as the other public utilities you depend on so much -and as indispensable. Perhaps you say that you have got along without it for a long time. That is just what your grandfather probably said about the telephone. Can you afford to do without it any longer? Who would want to do without running water or telephone service after once having them, even if his home had been without them for years before?

Practical, everyday people who have used the Bri-

"How did we ever get along without the new Britannical" Or they call it "The most useful thing that ever came into the house."

## A Many-Sided Service

The Britannica differs from other utilities in being useful and necessary in more ways than any other one thing you can have in the house. It gives you the benefit of the best expert advice in every field and on every subject.

The Britannica service makes you more efficient. It helps you do your own work quicker and better-it is concentrated, stored-up energy, a store-house of live, valuable information, a true "power-house." Because it supplies you with the means of saving time, trouble and energy.

The Britannica puts at your service expert advice as the telephone connects you with your physician. You need it for the unforescen emergency as well as for the countless everyday things that you know you want help on. All the difficulties that can present themselves to you are problems other people have had to meet. Men and women the world over have worked, each of them for years, some of them their whole lives, to solve these problems. Their experience is in the Britannica for you to profit by. They are at your call when you have the Britannica. For \$1 down and 10 cents a day for a few months you may own this wonderful service. It is as if for that small rum you could call by telephone the best authority or expert in the world to answer any question that came up, to give you advice on any subject you wanted help on!

# Do You Want Help in Your Day's Work?

You can get it in the Britannics just as many other people have done. For instance, a North Carolina cotton broker said that the article on Cotton was worth the price of the whole set. A New York lawyer got just the information he needed in a lawsuit about iron and steel. He couldn't find it anywhere else or get it from his client who manufactured car-couplers. A manufacturer of flavoring extracts learned from the Britannica enough about his own business to save the, cost of the whole set.

(He and everyour else mentioned in this paragraph poid least three times as much as you need pay for the Britannica).

# Do You Want Help at Home?

Planning a house or remodeling one, studying decoration or ventilation, you get expert advice and valuable suggestions from the Britannica. Equally useful is what you will get from this same wonderful, all-around service on the care of babics and children, food, diet, cookery, rules for health, directions for first aid to the injured, study aids and supplementary reading for school boys and girls and for young men and women in college. An owner of the Britannica, who was born in Denmark, says: "In my country instead of 'encyclopaedia' we may 'familjebok,' that is 'family book.' The Britannica is an ideal 'family book.'

# Improvements in Service

Other utilities have been improved, cheapened and made more convenient by long and gradual processes. so that we hardly notice the change. The service of the Britannica has been improved

wonderfully fast in the last few years. The new eleventh edition with more in it and of better quality has been sold right along at a lower price than previous editions; and quality and quantity considered, at a lower price than apy other encyclopaedia. Gentlemen:

HARVARD LAW SCHOOL CAMBRIDGE, MASSACHUSETTS

The new form of the eleventh edition of the Encyclopaedia Britannica is nothing less than marvelous. To put that great work in such small compass and in so useful a form is of itself an achievement; to do so and yet make a page which I can certify is no more trying to a pair of bad eyes than the original edition, is a landmark in bcokmaking. You are doing a public service in putting these indispensable volumes within the reach of everyone.
