To Keep Skin in Fine Condition in Winter

It would be much better for the skin if little cream, powder or rouge were used during the winter. These things which clog the pores, tend to aid wind and weather in roughness and coarsening the skin. Ordinary soaps will do more for the complexion, and without encumbering the skin to chaps, cracks or become harsh and leathery. It is the ideal application for the season, as it not only keeps the pores clean, but daily removes particles of sebum which have been spoiled by winds or temperatures. By constantly keeping the complexion clear, white and soft, it does more towards perpetuating a youthful countenance than any of the arts or artifices commonly employed. One ounce of marcolized wax, obtainable at any drug store, will completely renovate the worst complexion. It is applied at night like cold cream and washed off in the morning. To keep the skin from wrinkling, or to overcome such condition, there's nothing better than a face bath made by dissolving 1 ounce of powdered axolite in 1/2 pint witch hazel.—Advertisement.

OLD FASHIONED PARTY REVIVED

All Saints Church Members to Meet in Social Gathering at the Parish House.

WOMEN IN GUILDS TO HELP

By MELLIFICIA. Jan. 28. Is the good old term, "party," going to come back into use again? It is if the strongest social backing of All Saints Episcopal church can accomplish it. They are going to have parties at the Parish house after this, and the first one will be given this evening. Just parties, bear that in mind. Of course, "party" is not the smartest term in the realm of Smartdom—it is too suggestive of a lack of fine gradings and distinctions and exclusiveness, such as Bon Ton would demand. Our grandparents went to parties, our parents also; but they did not know any better—those were careless times, when anyone might know anyone else who was respectable and tried to be a good citizen and the roof of one's church was the best introduction.

A committee of three active, progressive young men of All Saints' parish, with the help of the rector and assistant rector, are going to see if parties may be a success in Omaha as they were in the days of yore. The women of the church guilds have promised their assistance and will act as hostesses and chaperons, and the woman's auxiliary will serve light refreshments. The invitation list is the roll of church communicants and each member is privileged to bring a guest. The order of the evening will be informally, with dancing and cards the chief forms of entertainment.

Social Affairs Are Planned for Noted Cambridge Pastor

By MELLIFICIA. One of the most interesting of the celebrities visiting Omaha this winter is Rev. Dr. Samuel McCord Crothers, who, with Mrs. Crothers, is the house guest of Mr. and Mrs. Charles Russell Dr. Crothers is a regular contributor to the Atlantic Monthly and the author of a round dozen of charmingly written books, the most popular of which is "The Gentle Reader." In his own classic Cambridge, Dr. Crothers is the pastor of the First Unitarian church; and, while in Omaha, he will speak before the Unitarian society on Sunday morning and Sunday evening at Turpin's hall. Many affairs have been planned for the famous writer and his wife. Thursday evening, Mr. and Mrs. William F. Baxter gave a box party at "Aida," for Dr. and Mrs. Crothers and Mr. and Mrs. Charles W. Russell. Friday afternoon Mr. Allan McDonald, who attended the First Unitarian church when a student at Harvard, gave a luncheon at the University club in honor of Dr. Crothers. University Girls Are Not Afraid of Little Mice Now

That young ladies, especially co-eds, have an aversion to mice has been disproved by the feminine members of the biology department of the University of Omaha. Several weeks ago two tiny friskers gained entrance to the laboratory and in the course of their scamperings created havoc among the matrons. It was said that the efforts of the young ladies in hopping on chairs proved more exciting than a hosiery sale and many times more entertaining. Now, however, things are different. After the first scare, the abashed co-eds took an interest in the small rodents and began leaving bits of food in the corners of the room. So tame have the animals become that at present they eat from the hands of some of the feminine members and incidentally their number has increased. A white cat which belonged to the department has recently disappeared and it is thought that the co-eds for the safety of the pets tied a can to the feline on the Q. T.

Children Are Not Invited This Year to Arts Exhibit

On account of the epidemic of grippe and scarlet fever the Fine Arts society will this year discontinue the practice of setting aside certain days for all the school children to visit the art exhibit held at the Hotel Fontenelle next week. Local physicians have advised that children be kept from congregating in large numbers, and since thousands of children visited the exhibit last year it was thought best not to encourage it. Letters have been sent to all school teachers explaining the reason to the children as previously, complete arrangements for their attendance had been made. Mrs. Charles Kountze is president of the Fine Arts society.
