### BRESNAHAN NOT PLACED YET

NEW YORK, Feb. 9.-Meetings were held here today by club owners in the and International Base Ball leagues, and the delegates hurried A. B. Hlava of Ravenna. through their business at both sessions so that they would have ample time left to prepare for the banquet which is being held tonight in celebration of the National league's fortieth anniversary.

No change was made in the rule limit ing the number of players to twenty-one by the National league owners, although Boston, Chicago and New oYrk went on record as favoring an increase to iwenty two players for each club.

The word "manager," as well as player," was read into the rule governing the deduction of salary during a term of susguilty of an infraction of this law should be fined \$350.

On motion of President Ebbetts of

Brooklyn that the drafting system be changed so that the lower division clubs would be afforded the first privilege of obtaining players, no definite action was taken. It was the sense of the meeting. however, that such a change would be desirable, and the question went over to see what the American league and the minor leagues might hav to say about it. President Weeghman of the Cubs stated that he had not made any definite arrangements for the disposal of oRger Bresnahan's services. The Chicago club owner said that he would be in this city all week and would endeavor to place the former Chicago club manager to the

# What Dr. Oliver Wendell Holmes Thought About Prohibiton...

Dr. Oliver Wendell Holmes, father of Justice Holmes of the Supreme Court of the United States, was not only an eminent physician, but was, in FACT, generally recognized as one of the clearest thinkers of his day, and a most valued contributor to American literature.

Dr. Holmes denounced Prohibition as he did every other form of bigotry and FALLACY; so that when a second attempt was made to fasten a prohibitory law on his state (Massachusetts) after the statute had been tested as futile and repealed, he was one of the leaders in the fight against it.

Dr. Holmes' opinion on this subject was well expressed in one of his famous "Autocrat of the Breakfast Table" articles, wherein he referred to French wine with enthusiasm. In reply to a divinity student's question, whether he believed in a diet of "rum," the old autocrat was quickened to say:

"RUM I take to be the name which unwashed moralists apply alike to the product distilled from molasses and the noblest juices of the vineyard. Burgundy 'in all its sunset glow' is rum. Champagne, 'soul of the grape of Eastern France,' is rum. Hock, which our friend the poet speaks of as:

> 'The Rhine's breast-milk, gushing cold and bright, Pale as the moon and madening as her light.'

is rum. Sir, I repudiate the loathsome vulgarism."

"I believe in Temperance. \* \* But let me tell you there are companies of men of genius, into which I sometimes go, where the atmosphere of intellect and sentiment is so much more stimulating than alcohol that if I thought fit to take wine, it would be to keep me sober. Among the gentlemen I have known few, if any, were ruined by drinking. My few drunken acquaintances were generally ruined before they became drunkards.

To those who still mistakenly cling to Prohibition FALLACIES, the above forceful views of Dr. Holmes, a man of deep learning and insight, are submitted for the consideration of the thoughtful.
