Metal Shares Assume Commanding Position in the Day's Broad Market.

NEW YORK, Feb. 10.—Metal shares assumed a commanding position in today's broad market, a majority of the better known coppers, including Utah, Butte and Superior, Chine and Granby, selling at the highest prices in their history. Anacomda led that group in peint of activity, but failed to equal its high quotation of the preceding month. The upward swing in metals followed a further share advance in the price of the metal abroad.

Among the other activities was United States Steel, which added a substantial fraction to yesterday's advance, only to yield later on selling of other leaders. Lackawanna Steel, Republic Iron, American Car, New York Athreake, Raliway Steel Spring and kindred stocks were firm to strong at times, but shares with Mexican interests were heavy, Mexican Petroleum, Texas company and American Smelting being under constant restraint. There were some spectacular gains in a few specialties and utilities, General Notors rising 23% to 66; United Fruit, 6% and Mackay company, 6% to 91.

Ralls lagged in the early dealings, but tame forward later under lead of Camelian Pacific, which made an extreme sain of 23 to 135. New York Central's very favorable matemant of carnings for December and the year 1915 gave further impetus to standard Shares, but the advance in these issues was met by free ferrings, causing some irregularity at the close.
