Among others Deliwuk has Young Zbyszko and McGrath, the real Irish champion, working for him. He auggests either one of these chaps as a suitable opponent for Stecher.

# ADVERTISING isn't at fault but your methods may be

If your advertising expenditure is not producing the right results don't condemn advertising. All arguments are against you. Monumental successes are right here in Omaha to contradict you.

Analyze your methods.

Do you do your advertising in the way of an investment? If you have looked into the matter you have discovered that the very best publicity a business can have is the publicity of newspaper advertising.

Very few business houses now send out a cheap dodger, which, like a beggar, is almost always stopped at the front door. They are using the newspapers because the newspaper

is welcomed in every home-gets the "comfy" chair before the parlor grate—a place at the table with the head of the house and even the boys and girls scramble for it.

Mr. Business Man, newspaper advertising never fails. A single advertisement will not make your business prosperous, but every dollar you invest will bring you results.

Your advertising expenditure should be in proportion to your business-not too much nor too little-just what you can stand from day to day, month in and month out. All successful advertisers have learned that it is continuous advertising that pays best. In Omaha the successful advertisers are con-
