 BHEEP-Another heavy sheep and lamb run was on hand today, the day's re-ceipts of fifty-four cars, or 13,000 head, be-ing the largest of any one day for some time. Three days' total is 33,044, being 13,000 larger than last week, and 13,500 heavier than two weeks ago, but 3,600 smaller than a year ago.
 Buyers were still in a very beariah mood today. Clearance yesterday was rather poor, and with a heavy run today, and discouraging advices from all other markets the outlook was anything but good for the selling interests. A few bunches of light and handy weight stuff that were sold right on first rounde did not look over 10675c lower, but as a gen-eral thing buyers talked a full quarter lower from the start, and during the early part of the forenoon at least, actual bids were few and far between.
 The trade continued extremely slow and duil, the best light tambs generally being lie lower, with heavy lambs and sheep neglected and showing even more decline than that.
