Not since the stirring days of '98 has the patriotism of our people been so aroused-The Star Spangled Banner has been much in evidence and the air is filled with the strains of "America" and "Yankee Doodle Dandy." Perhaps it is necessary that we, too, should be aroused and awak-ened from money grabbing and frivolity—and yet is it not something of a reflection upon the world's civilization, if indeed there is such a thing? Whether disposed to justify our course in Mexico since the Huerta regime or not, surely there can be no question as to what should be done with the bandits, brigands and cut-throats who crossed the border and killed innocent people on American soil. And if Carranza cannot punish them are we not justified in using the whole power of the nation if necessary to do it?
