ASKS FOR BRIEFS IN FIRED NASBY CASE

Judge Woodrough intimates He Will Rule Against Equity Injunction.

WILL FILE SUIT AT LAW

North Platte, Neb., July 20.—(Special Telegram.)—Officially the case of Postmaster Porter of Bridgeport is the same as before the equity matter was submitted to the federal court. Judge Woodrough, while postponing decision until attorneys for Porter could submit briefs upholding their contention that Judge Hobart of Morrill county did not exceed authority in granting a restraining order prohibiting Postal Inspector Coble from turning over property to Earl Stuteville, intimated that final decision would rule that matter was out of the district court's jurisdiction. In the meantime Coble withdrew and another inspector turned the property over to Stuteville, who was appointed by bondsmen to act until the appointment of a new postmaster. Porter made no attempt to submit proofs that the postmaster general had no authority to remove him from office, as this action is an equity proceeding. Attorneys state, however, that as soon as the equity matter is settled an action in law will be filed seeking to disprove the postmaster general's authority to remove a postmaster appointed by the president and confirmed by the senate.

Pure Food Ballot Form Prepared by Attorney General

Lincoln, July 20.—(Special.)—The form in which the pure food amendment to the constitution shall appear upon the ballot has been arranged by Attorney General Reed, but it is said that Food Commissioner Harman does not approve of it and may enter a protest to the arrangements as prepared by Mr. Reed.

The arrangement as prepared by the attorney general is as follows: PROPOSED INITIATIVE AMENDMENT TO THE CONSTITUTION

A constitutional amendment, instead of a statutory provision, whereby the governor is to appoint a commissioner for six years instead of two years, said commissioner thereby possessing power independent of the legislature to administer all of the laws now administered by the Food, Drug, Dairy and Oil Commissioner.

303 Yes. Shall the above and foregoing amendment to the Constitution be adopted?

304 No. Shall the above and foregoing amendment to the Constitution be adopted?

Water Would Evaporate If Farmers Didn't Use It

Lincoln, July 20.—(Special.)—The Kearney Power company is demanding a hearing before the State Board of Irrigation, in which they propose to make a demand for water needed by them to carry on the business of their plant, claiming that because the water is held back for irrigation purposes they are compelled to spend \$15 a day for coal to run the plant, notwithstanding they have a prior right to the water.

It is estimated by State Engineer Johnson that because the farmers have access to the water, it is saving them from \$90,000 to \$100,000 in crops and that because the power company has used the water when the farmers needed it in the last few years the farmers have lost over \$2,000,000. He believes if the farmers higher up on the Platte didn't use the water, it would evaporate naturally before it reached the Kearney plant, and would be a loss not only to the Kearney people, but a total loss all around.

Cloud Upon Title Exists Through Mortgage to State

Lincoln, July 20.—(Special.)—In making a sale of some city lots at the northeast corner of Eighteenth and O streets, a cloud on the title has been discovered because of a mortgage held by the state several years ago and never released.

It appears that in 1870 the state made a loan of \$5,000 on this property in connection with 160 acres of land which is now used by the Lincoln hospital as a farm. The owners of the land were unable to keep up the interest and so the state took over the farm as payment, but failed to release the mortgage on the lots after securing possession of the land which was placed to the school fund credit.

Pulvay School Will Use Polish Language

(Correspondence of The Associated Press.) Pulvay, Russian Poland, July 7.—October is to see the reopening, with the Polish language in vogue, of the Agricultural High school, which, so far as Polish is concerned, has been closed since 1863. The Austro-Hungarian occupation authorities in Russian Poland have decided to revive the institution and have entrusted the reorganization and conduct of the school to Prof. Dr. Stefan Surzycki of the University of Krakow. The Pulvay High school, one of the biggest educational institutions in Russian Poland, was closed in 1863 by the Russian authorities because its pupils had taken part in the revolution. It remained closed until the year 1869, when it was reopened as a purely Russian school. It was closed again at the outbreak of the war.

CRITICISM FOR HARMAN

Grand Island, Neb., July 20.—(Special.)—The republicans of Hall county held an enthusiastic convention late yesterday, at which resolutions heartily approving the Chicago platform and pledging enthusiastic support to its nominees, to Hon. John L. Kennedy, candidate for United States senator, and to Hon. Silas R. Barton, candidate for congress, were adopted. The resolutions further declare:

Resolved, That we favor a more economic administration of the affairs of the state of Nebraska, that our state officers will use every effort possible to reduce the burden of taxation to our people, and we denounce the effort of state officers to attempt to perpetuate themselves in office as is now being done by the state food commissioner, without a voice of protest from a single member of the present democratic state administration.

Resolved, That we favor such amendment to the state's primary law as will select delegates to the state convention by the primary system, such selection being made at the same time that local candidates are chosen, that an expression of choice is taken for president and nominations made for governor, lieutenant governor, United States senator and congressman. Such convention to select delegates for the purely administrative offices, namely: Auditor, secretary of state, treasurer, etc.

The following delegates to the state convention were selected:

Whitmore, Frank May.

The delegates to the state convention are George E. Beuschoter and George S. Peters of Hay Springs, Logan Musser, R. L. Wellute of Rushville, L. L. Briggs of Reno and Newton S. Gates and Lynn Thompson of Gordon.

Missouri Pacific Asks Equalization of Assessment

Lincoln, July 20.—(Special.)—Tax Commissioner Minden of the Missouri Pacific railway company called on the board of equalization this morning on a matter of equalizing the assessments made by different county assessors on side tracks in the different towns along the branches of that road. In some towns the tracks were assessed at early \$8,000 per mile while in others, with the same kind of material they were assessed about \$3,000 a mile.

He desired all side tracks put on the same basis. The board took the matter under advisement.

Too Many Banks Already, Says the State Board

(From a Staff Correspondent.)—The State Banking board, composed of Democrats, in denying a charter to the Central State bank of Omaha, set forth in its answer in the district court "that there is already an unnecessary number of banks in the state, many of them not paying dividends. Many inexperienced men are engaging in the banking business, all detrimental to the commercial and business welfare of the state."

Mr. Lawrence was 53 years of age. He is survived by a wife and several children. Mr. Lawrence served four years as sheriff and at the last primary was a candidate for the office of county treasurer, but was defeated by a few votes by the present republican candidate. MOOSERS ENDORSE G. O. P. CANDIDATES

Action of Progressive State Committee Recorded With Secretary of State.

RESIGNATIONS ON FILE

(From a Staff Correspondent.) Lincoln, July 20.—(Special.)—Frank P. Corrick, chairman of the progressive state committee, filed with Secretary of State Pool this morning the endorsement made by the committee last week of republican candidates and the same was accepted by the secretary of state and placed on file.

The endorsements filed were as follows:

- John L. Kennedy, Dundee, United States senator. Abraham L. Sutton, Omaha, governor. Addison Wait, Lincoln, secretary of state. George W. Marsh, University Place, state auditor. W. H. Reynolds, Chadron, state treasurer.

Resignations from the progressive ticket have been received by the secretary of state as follows: Walter O. Henry for the United States senate. James F. Hanson for governor. Will E. Jay for secretary of state. R. M. Gillan for auditor. Will C. Crooks for treasurer.

It had been intimated that a protest would be filed by someone against entering the endorsements upon the ballot and that State Treasurer George Hall, who was prevented from receiving the endorsement of the progressive party by a protest filed by Mr. Corrick before the primary, might be the one to do so, but Mr. Hall looked over the filings and said there would be no protest from him.

He called attention to the fact, however, that Mr. Corrick had protested his name upon the progressive ticket for the reason that the progressive party and the democratic party were directly in opposition to each other, but Hall insisted that they were not, as they both were trying to beat the republican party and so were working in harmony at that time. However, Mr. Corrick explained that the grounds set out by Mr. Hall then had been removed and readjusted, and that now the progressive party and the republican party were working in harmony to defeat the democratic party.

WOMAN A PHYSICAL WRECK

Tells in Following Letter How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Milwaukee, Wis.—"Before taking Lydia E. Pinkham's Vegetable Compound I was a physical wreck. I had been going to a doctor for several years but he did me no good. A friend told me about Lydia E. Pinkham's Vegetable Compound, so I decided to give it a fair trial, and it gave me relief from bearing down pains which had been so bad that I would have to lie down. I also used the Sanative Wash and it has done me a great deal of good, and I am not troubled with a weakness any more."—Mrs. P. L. BRILL, 1299 Booth Street, Milwaukee, Wis.

The most successful remedy for woman's ills is Lydia E. Pinkham's Vegetable Compound. It has stood the test for forty years, which would be impossible if it did not have genuine merit.

For special advice, free, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

To Look and Feel Bright in Hot Weather

This is the season when she who would have a lily-white complexion should turn her thoughts to mercerized wax, the firm friend of the summer skin. Nothing so effectively overcomes the soiling effects of sun, wind, dust and dirt. The wax literally absorbs the scorched, discolored, freckled, withered or coarsened cuticle, bringing forth a brand new skin, clear, soft and girlishly beautiful. It also unblocks the pores, removing blackheads and increasing the skin's breathing capacity. An ounce of mercerized wax, obtainable at any drug store, applied nightly like cold cream and washed off mornings will gradually improve the worst complexion. When depressed by the heat and you want to freshen up for the afternoon or evening, bathe the face in a lotion made by dissolving an ounce of powdered soap in a half pint which base. You'll find this more refreshing than an hour's rest. It is fine for smoothing out wrinkles, even the deeper ones.—Advertisement.
