JUNE CIRCULATION.

57,957 Daily-Sunday 52,877

Dwight Williams, circulation manager of The Bee Publishing company, being duly aworn, says that the average circulation for the month of June, 1916, was \$7,957 delly and \$2,977 Bunday. DWIGHT WILLIAMS, Circulation Manager. Subscribed in my presence and sworn to before me this 3d day of July, 1916. ROBERT HUNTER, Notary Public.

Subscribers leaving the city temporarily should have The Bee mailed to them. Ad-dress will be changed as often as requested.

Get ready for the official induction of "Hitchcock, Fanning & Co." into the Omaha postoffice.

owering the levy is a game at which the people will be very willing to assist the taxing powers.

The consolation of the weather table is that it always exhibits a few spots that are hotter than ours.

With Herbert Quick on the land bank board, there can be no excuse for delays on loan applications.

The Bermuda "high" may be just another ef-fort of the British war office to control elemental conditions.

A college presidency is being offered to Mr. Bryan but that is not the kind of a presidency he has been hankering after.

The grand total of preparedness appropriations congress on the last footing was \$685,343,-017.27-and don't forget the 27 cents.

It was too hot to work in the Chicago rolling mills yesterday, and too hot to fight in the Belgian trenches, but no one has heard of the ice taying off.

Great Bend, Kan., was a good place to study the farm loan industry twenty-five years ago. Not a great deal of farming, but plenty of loaning went on in that vicinity then.

"This, too, shall pass" wrote the Indian archi tect on his completed temple, and thereby planted a root of hope for the mortals of today, who are at the mercy of the climate.

The hot wave seems to have affected the batting eyes of the Omaha base ball team most seriously. No other hypothesis will serve to explain their resent conduct at Wichita.

But the arguments are all the very identical ones on which Omaha lost the federal reserve bank because our democratic senator was then in so had that every boost of his was a knock.

It is all very plain now that Brother Gurney's unpardonable mistake was in not first submitting his republican convention speech to the editor of the local democratic organ for blue pencilling and re-writing to suit the democrats.

Cleveland is called upon to sustain an additional calamity in the form of advance on cost of ice to the consumer. Dread of ice shortage is given as the excuse, but the people who feel the gouge will hardly be content to let it go with that

Thought Nugget for the Day.

Omaha as a Farm Region Center. Omaha's claims for recognition as a proper lo

cation for a farm loan bank, under the new law

are ideally supported. Members of the newly named board suggest the appropriate qualification

for location is proximity to farm region center,

regardless of size of the community. And in this

resides the advantage as well as the danger to

region in the world. A circle having a radius o.

150 miles, with Omaha for its center, will en-

close an area that annually sends to market more

of the products of the soil than any other simi

larly sized area in the world. This is not guess

work, but is based on facts. Omaha is the nat-

ural market for this wonderful region, and is

surely coming into its own, in spite of efforts of

communities located around the edges of the rich-

est farm region the sun shines on. This is the

The danger that Omaha faces is in the person

nel of the board. Secretary McAdoo made no ef-

especially favorable to Omaha's selection.

Only ignorance of the facts can prevent this

city from getting the bank, if proximity to the

farmer is to be the determining factor. Experi-

ence with the location of the federal reserve banks

shows that natural advantages do not always

The Trouble With the Climate

the scientific sharps who dominate the weather

bureau at Washington, for they have located the

"Bermuda high," and, therefore, the cause of all

the trouble we have been having with our cli-

mate lately. This, in simple words, is an unusual

accumulation of air in the vicinity of the West

Indies, following a mood of the atmosphere, on

which all weather depends, and which is the most

unstable of the elements. About the only conso-

lation that can be gained from the knowledge is

that the law of compensation must work, and the

Bermuda high must submit to such distribution

as will relieve the low pressure over the great cen-

tral portion of the United States, which has been

so generously scorched while the "high" was de-

What the deal was by which the senator was induced to permit the nomination of Brother-inlaw Tommy Allen to be reported for confirmation as United States district attorney is not dis closed, but the consideration will propably be known in due time.

Expert economists forcefully urge that invisible fortunes which rarely contribute to the support of government should be pinched for back taxes when the estates reach probate courts. Hetty Green's fortune of \$100,000,000 offers a shining opportunity to give the view a practical test.

People and Events

A full grown jay from Oregon who was trisumed in a fake horse race at Gary, Ind., blew into Aurora, III., all dolled up in stage rustic fashion seeking the chief steerer. A bunch of whiskers stuck out from his chin, hay dust decked his hair, and a wisp of timothy kept his teeth in action. His mission proved a failure because the cops saw him first.

The "Newsboy of Newark" came back to the Ine "Newsboy of Newark came back to the Jersey town last week, after an absence of eight-cen years, and was the guest of honor at several social functions, cordial welcomes and a presenta-tion of a gold-banded gavel from former newsies. The President's Variable Mind.

President Wilson's public advocacy of the Keating child labor bill chiefly serves to draw attention to the fact that a very short time ago he expressed his earnest opposition to this measure. Conditions which have arisen in the last few weeks have apparently convinced him that he made a serious blunder in his first stand on the bill, and he now hurries to its support, in the wake of the popular demand that it be made a law. Maybe he has received assurances from the south ern cotton barons that he will get the vote of the solid south regardless, and that they will take their chances on evading the law, leaving him free to pretend to the labor vote of the north that he has been friendly all the time.

This is not the first time the president has given proof that he does not know just where his "single track" mind is leading him. He has reversed himself on the Philippine question; on the matter of national defense he has made a complete about-face movement; his off-and-on policy with Mexico has witnessed so many changes and variations that it has come to be like the anake described in the "Bigelow Papers," of which the observer was unable to say if it "was going south or coming back." He changed his mind with regard to free trade, on the tariff commission and on other important issues. Not the least of these is the matter of running for a second term.

His fellow countrymen have welcomed some of these reversals, and cheerfully accord to Mr. Wilson the right to change his mind as often as he likes. But the voters have minds of their ow and will soon let him know what they think of a president who is consistent only in his inconsistency.

Another bank in Nebraska has de-nationalized and taken out a state charter and the last report shows a loss of more than forty to the national banking system throughout the country, so the reason must be sought not so much in the attrac-tions of the state law as in the new burdens or objectionable features which the present administration has put into the national law.

Incidentally, however, the reasons are just as strong for being humane and kind to animals in the winter time as in the summer time.

Where They All Are Now

C. O. Sandstrom, formerly emergency office C. O. Sandatrom, formerly emergency officer at Central police station, is serving as captain of Company L, Third Missouri National Guards, stationed at Laredo. While on the police force here he was known for his physical development. Robert (Bob) Fink, formerly county and city treasurer, has gone "back to the land" some-where in California.

Virgil O. Strickler, remembered as an Omaha

lawyer, is now identified with the Church of Christ, Scientist, as a traveling lecturer, with residence in New York City. C. M. Burdette, formerly district manager for

the Sharples Separator company with headquar-ters at Omaha, is now vice president and man-ager of the company at West Chester, Pa.

Tmiely Jottings and Reminders.

Walter Hines Page, the American ambassador in London, sails for the United States today on a month's leave of absence. Robert Dowling, a 19-year-old long distance

swimmer, is to attempt today to swim from the Battery to Sandy Hook and return, a feat that

Baltery to Sandy Hook and return, a reat that has never been accomplished by any swimmer. Bible teachers and students from all parts of America are to gather today at Lake Orion, Mich, for the opening of the Interdenominational Bible Conference and Christian Workers' Institute.

A committee of American business men is to sail today from New York for Brazil as a result of the movement inaugurated by the Pan-Ameri-can conference to advance the trade relation between the two countries.

Storyette of the Day.

The wife of a Dorchester man who had the traditional failing—he forgot to mail letters—has cured him. The mail is delivered at their home before the breakfast hour—which is compara-tively late. One morning she said to her hus-

Did you have any mail this morning, dear?" "Did you have any mail this morning, dear?" "Only a circular," he answered as he bit into a fine brown slice of toast. "Hm," said wife. "By the way, did you mail the letters I gave you yesterday?" "Sure I did," was the righteously indignant

reply. "Well, answered wife with an eloquent smile, "it's tunny, then, you had no letters this morning, because one of those I gave you to mail was ad-dressed to you-just as a sort of key."-Boston Herald.

pictures designated to teach hygiene and lean living.

AROUND THE CITIES.

The United States sold more agricultural mplements and accessories in Venezuela a the first six months of 1915 than in any ther entire year.

The tallest apartment house in New York City will soon rise on Fifty-ninth street. Twenty-one floors, no less. Cost of quar-ters will rise with the elevators.

Binghamton, N. Y., is building a 3,500,-000-gallon reservoir, which is to be en-tirely roofed over with concrete, so that the water supply will be protected from contamination at all times.

The Historical society of Delaware pro-poses to buy the old Wilmington city hall, built in 1788, restore it to its original shape and present it to the city on the condition that it shall be preserved.

An American inventor has patented a life-saving suit for aeronauts involving a cushioned cap and back and front pads for the body, communicating so that they can be blown up by a tube extending to the mouth of the aviator, communicating pads being on opposite sides of the legs and yielding, spring-supported shoes being ear-ried on the feet below the waist, so that in falling the person will fall feet foremost.
