THE dictionary defines--"Rummage" as "the act of careful searching;" "ransack;" "to make a careful search." Now that's exactly what we have done----ransacked and searched every nook and corner of this big store for odd lots, ends of lines and broken as-sortments of merchandise and have put prices on the various articles that will take them out in a jiffy. But that's not all, it may mean some searching by you, for in many instances the lots are too small to advertise and they have been gathered together on tables and offered at prices that are ridiculously low, but we might add, it is well worth while. Look for the "Rummage Sale" cards—whenever you find them there will be values of a most unusual nature. Here's an idea of some of the values:

Denouncing Medicines. Wholesale denunciation of propri-Wholesale denunciation of propri-etary medicines is no more justifiable than wholesale denunciation of the medical profession. It is no more true that there are reputable physi-cians who unselfishly devote their lives to an unending struggle with disease than that there are stand-ard remedies which do as good a work; often where the work of the good physician cannot reach. A good example is Lydia E. Pinkham's Vege-table Compound, which has for forty years been alleviating the sufferings of women and curing the ills peculiar to their sex.—Advertisement.
