Prohibition would deprive the city of Omaha of a yearly revenue of \$352-toon of the school fund. It is sufficient to build five new, modern, twelve-room school houses every year of the type of the Castellar and Vinton schools. State Nurses to Meet Here This Week

Meet Here This Week

In Prime of Life.

Hughes is 54 and Wilson 59 years old. In this respect they are both at the time of life when most of our presidents have been elected. Seven-teen presidents have been in their 50's and six in their 40's. The first Harrison was the oldest president, alwaying rached 68 years when he was inaugurated. Roosevelt was the youngest, 42 years.

John Adams lived a quarter of a century after his term as president, dying at the age of 90. His death occurred the same day as that of Thomshalm representations and reached the age of 49.

president has been re-elected to suc-

president has been re-elected to succeed himself. Four republicans had this honor—Lincoln, Grant, McKinley and Roosevelt. Cleveland had two terms, but not successive terms. Prior to 1860 party names with reference to the policies and principles of today were rather uncertain. But in that period of our history only one president running as a democratwas re-elected. He was Andrew Jackson.

The democrats of today claim Thomas Jefferson as their political ancestor. But Jefferson, in his day, was a republican. Madison and Monroe were republicans also. All these were re-elected. Washington, the federalist, was also given two terms.

Both College Men.

Both of our principal candidates this year are university men. Wilson is a Princeton man and Hughes is a graduate of Brown and Columbia. Of the men who preceded them in the presidential chair eighteen were college graduates and nine were not. Three were graduates of Harvard and three of William and Mary.

Wilson's home is in New Jersey and Hughes' in New York. No other president but Wilson came from New Jersey. Five came from New York. They were Van Buren, from Kinderhook, N. Y.; Fillmore, from Buffalo; Arthur, New York City; Cleveland, from Buffalo, and Roosevelt from Oyster Bay. Both of our principal candidates

Five presidents lived in Virginia at the time of their election, five in Ohio, two in Massachusetts, three in Tennessee and one each in Louisiana, New Jersey, New Hampshire, Pennsylvania, Illinois and Indiana and Washington, D. C. Grant was the one who lived in Washington.

Twenty-four of our ex-presidents are dead. Five of them are buried in Virginia (the last being Tyler, who died in 1862), four in New York, four in Ohio, three in Tennessee, two in Massachusetts and one each in Kentucky, New Hampshire, Pennsylvania, Illinois, Indiana and New Jersey.

Foster Daughter Sues to Get Part of Rich Uncle's Estate

Alleging that an agreement made n Austro-Hungary in the 80's between her father and uncle, when the former advanced the latter money to come to America and buy a farm, has NEED ADEQUATE DRAINAGE been violated, Mrs. Rosa Boys, foster daughter of the late Mrs. Barbara Poppenberger, has filed suit with the clerk of the district court against

come into the property of her foster mother when the latter died.
According to the petitioner, her father, Ignatz P. Poppenberger, who is still alive, and her uncle, John Poppenberger, husband of Barbara, as young men in Austro-Hungary had saved 600 gulden.

Mrs. Boys sets forth that her father loaned the money to her uncle, who came to America and purchased a farm with it in Douglas county.

Mrs. Boys came to this country when she was 13 years old, becoming, she states, a member of her uncle's household as a foster daughter.

When her uncle died his widow came into possession of the property, the petition states.

Mrs. Boys maintains that she continued to serve as a dutiful daughter, but that the alleged agreement made between her father and uncle was broken when it was discovered she had not been left the estate in the will.

She further states that her father

had not been left the estate in the will.

She further states that her father is still in ignorance of the fact that John Poppenberger became rich in the United States with his (Ignatz's) loan as a nucleus.

AVOID ALL MEAT IF KIDNEYS AND **BLADDER BOTHER**

Uric Acid in meat excites Kidneys and irritates the Bladder.

Take Salts at first sign of Bladder weakness or Kidney-Backache.

Backache.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple allments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize, the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for the kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.
