

Nebraska SCHOOL LAND BILL RECALLED IN HOUSE

Members Evidently Determined to Take Some Action to Secure More Revenue.

TWO MEASURES PENDING

(From a Staff Correspondent.)
Lincoln, Feb. 15.—(Special.)—The house finding that it had been too hasty yesterday in voting down the Peterson amendment to the bill, providing for the sale of school lands of the state and that such action was likely to jeopardize the chance for the final passage of the bill, today reconsidered the action. The Peterson amendment provided that in case of sale it should be by competitive bids, while the bill provided that the man leasing the lands should be given six months to buy under an appraisal made by the county board.

Notwithstanding this recession by the members who want the school lands sold, in order to remove a formidable objection to their plan, the bill is not yet certain of passage. Another measure which may be given the preference over it was acted upon in committee of the whole this morning and advanced to third reading. This is House Roll 297, by Bates, providing that 10 per cent of the temporary school fund shall be distributed among the various counties in proportion to the gross valuation of their school lands, based on the average assessment of other acreage in each county.

As the Anderson bill, House Roll No. 9, was subsequently recommitted for amendment, this puts the Bates bill ahead on the third reading calendar. The former will, therefore, be voted upon first, in the natural course of things, and if it passes the Anderson bill will probably fail. The semi-annual school apportionments aggregated about \$320,000, so that \$32,000 will be distributed every six months, under the Bates bill, on the basis of school land acreage and values. This sum, Bates estimates, will just about equal an average tax of 20 per cent that would be realized for school purposes if the school lands were subject to taxation.

Movement for Fair at West Point Taking Shape

West Point, Neb., Feb. 15.—(Special.)—The movement to establish a county fair association at West Point is now agitating the public mind and is meeting with unanimous support. The West Point Speed association is taking a leading part in furthering this worthy project. This organization, together with the West Point Business Men's association, has announced its intention of calling a mass meeting of farmers and citizens with this end in view. Coming county formerly supported a flourishing fair association, but about twenty-five years ago, through neglect and mismanagement, it fell into decay, got deeply in debt and generally failed of its purpose. The land owned by it, at the south limits of the city, was sold for a song, the buildings dismantled and what was a flourishing county fair became a thing of the past.

Three Buildings at Harvard Are Burned

Beatrice, Neb., Feb. 15.—(Special.)—Fire was discovered at about 2 o'clock this morning, in the one-story blacksmith shop of John Schultz, and by the time the department had arrived on the scene, had made rapid progress and communicated to the adjoining two-story garage, owned by N. H. Lewis, and both were soon enveloped in flames. Sparks from the buildings communicated with rubbish about a warehouse belonging to W. L. Gaddis, a half block southeast on the opposite side of the street, and that building was soon in flames. This building was used for the storage of kerosene, gasoline and other goods, and all connected with it was inflammable. Bursting kerosene barrels made a spectacular fire. Fortunately the wind was light and the temperature moderate, so that the firemen were not hampered in their work. The loss on the blacksmith shop is about \$800; that of Mr. Lewis on building and tools—he had just put in a new forge and a lot of new tools—about \$1,500. Mr. Gaddis on his warehouse and contents, probably \$1,000. A small insurance was carried on the blacksmith shop.

New Bridge Across Platte At Kearney is Finished

Kearney, Neb., Feb. 15.—(Special.)—C. L. Bates of Kearney county was awarded the contract of tearing out the mile-long wooden bridge which crosses the Platte south of Kearney. The lumber will be piled on either side of the river and sold, the revenue to be divided between Kearney and Buffalo counties. This action was determined upon at a joint meeting of the Kearney and Buffalo county boards held yesterday. The old bridge will be torn out as soon as weather conditions permit. With its going there will pass into history one of the historical crossings of the Platte. The new concrete and steel bridge, built here by the Omaha Structural Steel company at a cost of approximately \$60,000, is ready for opening to travel. This bridge is but 1,000 feet long, the remaining 3,000 feet being fill.

Four-Year Terms Get O. K. of House Members

(From a Staff Correspondent.)
Lincoln, Feb. 15.—(Special Telegram.)—Four-year terms for county officers received the final O. K. stamp of the house with the passage of the Dafoe bill on that subject, House Roll No. 198, this afternoon. The vote was 66 to 22.

The bill does not extend the terms of any officials now serving, but provides that all county officers to be chosen in 1918 (except county judge, whose term is fixed by the constitution at two years) shall be elected for four years beginning in January, 1919. Clerks of the district court, assessors and registers of deeds, who already have four-year terms and are chosen in presidential years, are not affected by the Dafoe measure.

West Point Will Have Public Comfort Station

West Point, Neb., Feb. 15.—(Special.)—The city council has taken the first steps in the movement for the installation of a public comfort station and rest rooms at West Point. It is realized that this project will become an absolute necessity after May 1, as on that date six saloons will go out of business here. Several plans have been suggested, among which is the remodeling of the interior of the city hall. The lack of proper facilities for farmers and their families and for transient visitors, especially on Sundays, has also been keenly felt. Active committees have been appointed to formulate plans and definite results will shortly be manifested.

HOW I KILLED MY SUPERFLUOUS HAIR

Hindoo Secret Banished It So It Never Returned After Electricity and Many Depilatories Had Failed.

Let Me Help You Absolutely Free

Until nearly middle age I was sorely troubled by hideous Superfluous Hairs. My face was a sight with a heavy moustache on my lip and a tough beard on my chin. My arms were also heavily covered. I tried one thing after another without success. The electric needle only made the growth worse. Finally, my husband, an Officer in the British Army, secured from a Native Hindoo Soldier (whose life he saved) the "closely-guarded secret" of the Hindoo Religion, which forbids Hindoo Women to have even the slightest trace of hair on any part of the body except on their heads. I used it and in a few days my hair-growth had entirely disappeared. Today not a trace of it can be found.

I will send Free and without obligation to any one, full information and complete instructions so that you can follow my example and completely destroy all hair without having to resort to the dangerous electric needle. See how I was able to write you money on worthless depilatories. Write me today, giving your name and address, and I will send you a 2c stamp for return postage. Address: Mrs. Frederica Hudson, Box 632 E. North Main St., Attleboro, Mass.

MRS. HUDSON, whose Soldier husband saved her life, secured the Hindoo Secret.
