BOOSTERS COME TO OMAHA TODAY

Jack Coffey Leads Des Moines Team Into Rourkeville for Two Combats.

CREIGHTON IS SHUT OUT

Jack Coffey leads his Des Moines Boosters into Omaha today for clashes with Pa's hopefuls at Rourke park this afternoon and Sunday.

Des Moines is heralding Coffey's crew as pennant winners. The team does look pretty good and ought to put up stiff battles with the Rourkes. The return of Bruce Hartford from Chicago gives Coffey an infield of veterans. He is playing Dick Green at first, himself at second, Hartford at short and Ewoldt at third.

Cass, Hunter and Spencer comprise the outfield, while Larry Spahr is the old standby behind the bat.

The hurlers all rank as A. No. 1 men. Fleharty comes from Washington, Berger is a veteran with a record, Killen and Kinsey were with Des Moines last year.

Barham and Thompson probably will do the hurling today for the Rourkes and Marty O'Toole will take the firing line Sunday. The game today starts at 3 o'clock.

Several Thousand Elk Die from Starvation

Cheyenne, Wyo., April 13.—(Special)—The Jackson Hole Courier, published at Jackson, in the heart of the big game country, is authority for the estimate that Wyoming may lose 16 per cent of its 50,000 wild elk from starvation as a result of the prolongation of winter conditions. The Courier says:

"The hay supply of the government ranch was exhausted this week and all but a few hundred of the elk have left the feed grounds for the hills. The loss on the feed grounds and their immediate vicinity is estimated at between 800 and 1,000 head, the greater per cent being calves. It seems improbable that any calves will survive this winter and the men who have closely observed the elk and their condition are estimating a total loss of from 5,000 to 8,000."

Don't Experiment with Catarrh; It Often Leads to Dread Consumption

You Will Never Be Cured by Local Treatment with Sprays and Douches.

Catarrh is a condition of the blood and cannot be cured by local applications of sprays and douches; this has been proven by the thousands who have vainly resorted to this method of treatment.

Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a firmer hold upon its victims and making it more difficult for even the proper treatment to accomplish results.

Though Catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes
