NEW YORK STOCKS

Tone of Market Improved and Advances of From Two to Five Points Retained at Close.

The better crop outlook, increasing recognition of benefits to the railroads from recent rain, rail concessions and further declines in time and call money were factors of more than passing importance.

Washington advices which pointed to an early solution of the tariff and front problems and the continued success of the allies movement on the eastern war front also helped to stimulate speculative sentiment.

These favorable auguries were realized in a measure by unofficial reports of a bond issue in the near future and a reduction of the tariff by million tons in authorized orders of the U. S. Steel corporation for June.

Rails were active at advances of 1 to 2 points. St. Paul common and preferred, the Pacific and dealers showing greater activity. Low grade carriers larger joined in the movement.

U. S. Steel made a gross gain of 2 points from its low price of the morning. Bethlehem Crucible and Lackawanna Steel and Republic Iron advance 1/4 to 3/8 points in their equipments, the shippings and motors.

Metals moved irregularly most of the time and specialties, particularly Industrial Alcohol and Tobacco, reflected the greater activity of pools. Alcoa rose 1/4 point to 15 1/4; American Smelting 3/8 points; American Tobacco 1/2 point; United States Steel and Tobacco 2/8. Sales 675,000 shares.

GRAND AND PRODUCE

Local Cash Demand for Corn is Stimulated by Excellent Shipping Demand; Wheat Continues Dull.

The demand for cash wheat was extremely dull today and while arrivals were very light they were not enough reported to give the exact range of values, although some of the traders were inclined to the belief that prices on this cereal were firm.

There was no material change in the corn market and the local cash demand was stimulated by an excellent shipping demand which had been reported, which continued very light, were disposed of long before the close of the cash session.
