

Nebraska MONEY FOR NORMAL SCHOOL TRAINING

Nearly Fifty Thousand Dollars Will Be Divided Among Dis- tricts That Are Entitled to Receive Aid.

(From a Staff Correspondent.)
Lincoln, July 11.—(Special.)—The apportionment for normal school training in districts of the state entitled to the assistance has been prepared by Assistant State Superintendent Dixon and amounts to a total of \$49,700. Of the amount \$41,243.90 comes from the old appropriation and the balance from the new. This gives each district \$250.

In the apportionment of the normal school training fund Mr. Dixon says no new schools can receive aid the first year. Each school must have at least ten students who have attended eighteen weeks and completed examinations on six subjects while junior students must have completed three subjects.

Attorney General Reed Leaves for Washington

(From a Staff Correspondent.)
Lincoln, July 11.—(Special.)—Attorney General Willis E. Reed left for Washington today to look after the interests of the state before the United States supreme court in a rehearing which has been ordered in the litigation cases covering the right of the state in its controversy with Wyoming to the use of water in the Platte river.

Mr. Reed is preparing an answer to the petition filed in the federal court in the Omaha strike matter, in which he denies the right to take the case to the federal court on the ground that the case is purely one within the state and should therefore be tried by the state courts.

Teuton Cabinet Ministers Are Mere Puppets of Army

(Continued from Page One.)

is being prepared. Thus it says, unity between the people and the government will be realized.

The above dispatch does not reveal the identity of the ministers who resigned. Foreign Minister Zimmermann and Vice Chancellor Helfferich have been mentioned most often during the last few days as the ministers who would lose their portfolios.

Pause in Development.

Copenhagen, July 11.—The dispatches from Berlin this morning indicated a pause in the development of the political crisis while the parties are waiting for the decision of the crown in regard to a ministerial reorganization and the question of peace terms. The parties have reached no agreement in regard to the resolution which it is proposed to place before the reichstag in regard to war aims.

With little news of political affairs on hand the Berlin papers speculate on the outcome, each according to its desires. The conservative, national liberal and pan-German organs assume that the chancellor will surely go. The radical and center papers expect him to remain, but to jettison various ministers.

Crop Prospect Below Average.

At the reichstag session yesterday Herr von Batoeki, the food controller, declared that the fruit and vegetable harvest was far below the average, Berlin newspapers report. The outlook for grain production was characterized as being "as good as in 1915," which will be remembered as a year of great drouth and a miserable grain harvest and potato crop. The yield, the controller said would be "surely better than the serious crop failure of 1916."

Gusta Hocht, socialist member of the Reichstag, spoke of disorders in the Prussian town of Striegau, which have not been mentioned previously. He said they were due to the fact that Striegau had been almost an entire week without bread. Women who thus had been driven to desperation were punished most severely, some of them being condemned to serve many months in prison.

Stresemann Opens Debate.

The debate in the Reichstag main committee yesterday, according to reports received here, was opened by Dr. Stresemann, national liberal, with a sharp attack on Chancellor von Bethmann-Hollweg's policy, particularly that of foreign affairs, which he characterized as being based on definite program.

The chancellor retorted by saying he was forced to look to all sides for support because the reichstag offered him no stable majority. Give him this and he would be able to develop a program, he said.

The Vossische Zeitung adds that the chancellor expressed readings and willingness to carry through necessary internal reforms.

Probable Joint Declaration.

Afternoon papers yesterday generally assumed that an agreement of all parties except conservatives and extreme socialists had been reached by a joint declaration to the reichstag on peace terms and internal reforms.

This, it is said, would contain a reiteration of the chancellor's announcement of August, 1914, that Germany's purpose in the war was not conquest, but defense and independence of territorial integrity, expressing a readiness to conclude peace on that basis, with a provision rejecting all designs aiming at an economic boycott and continuance of international hostility after the war.

Hollweg Still in Power.

Copenhagen, July 10.—According to the Tageblatt, the crown council held in Berlin last evening showed that the imperial chancellor, Dr. von Bethmann-Hollweg, possesses the emperor's complete confidence. The emperor after the adjournment of the

council conferred with the chancellor until midnight.

Dr. von Bethmann-Hollweg's position, the paper adds, seems also to be more secure with the political parties. The radicals are said to be standing by the chancellor, while the center socialists attach no importance to a mere change of persons and not of system. Political circles believe that the matter will end in a compromise.

Promise of Suffrage Reform.

Copenhagen, July 11.—The socialist organ, Vorwaerts, just received here, prints positive reports that the Prussian government has decided to introduce a bill in the Diet or universal equal suffrage this autumn without waiting for peace.

Two Ministers Retire.

(Delayed.)
—The retirement of Ministers Helfferich and Zimmermann will be gazetted Tuesday, according to a Berlin dispatch to the Cologne Gazette. Count von Bernstorff, former German ambassador at Washington, is mentioned as a candidate to succeed Foreign Minister Zimmermann.

Bar Silver Rises to New High Record for the War

New York, July 11.—Bar silver went to 80 cents an ounce here today, half a cent above yesterday's new high record since the war and for many years before. Heavy coinage demand by European countries is believed as the cause.

Uric Acid Eradicated

(By DR. N. C. COOK.)
A poison as dangerous as strychnin is manufactured within our own body, called uric acid. When it accumulates in the body and the kidneys fail to carry it off, we suffer from dull headache, sleeplessness, muscular pains, lumbago, or it may cause rheumatism or gout. The uric acid can be seen in the cloudy sediment in the water—what is called the "brick-dust," noted on the sides of the vessel containing it—after a few hours' standing. The water is scant, high colored, strongly acid, and this should be a danger sign and if not taken in time, by cutting out the meat, tea and alcohol, may end in rheumatism or gout.

Drink plenty of water between meals—a pint of hot water half an hour before meals—and take Anuric (double strength). This was first discovered by Dr. Pierce, of the Surgical Institute in Buffalo, N. Y., and is harmless to the system, but sure and effective in carrying off the uric acid. It stimulates the kidneys and helps them to carry off the uric acid poison. Anuric can be obtained at almost any drug store, and helps to counteract the acidity of the system.

A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take a pleasant laxative. Such a one is made of the May-apple, leaves of aloe and root of jalap, first extracted and put into ready-to-use form by Dr. Pierce, nearly fifty years ago, and sold by all druggists as Dr. Pierce's Pleasant Pellets.—Advertisement.

Old Silver Medal Found In Tripp County, S. D.

Sioux Falls, S. D., July 11.—(Special.)—While plowing in a field on his farm in Tripp county, Dirk Williams unearthed an interesting and valuable relic, in the form of an ancient medal. The medal bears the date of 1826, and has engraved upon it the likeness of Andrew Jackson, and the words "An-

draw Jackson, President of the United States."

Other inscriptions on the medal indicate that it had represented a peace treaty entered into with some of the Indian tribes of those early days in the history of the nation. The medal was badly tarnished by its long sojourn in the earth. It evidently was lost by the Indian to whom it had been granted.
