OKLAHOMA OIL

A few well known business men of Muskogee, Oklahoma, have associated themselves together and purchased an 89acre proven oil lease in the Boynton pool -right up against producing wells. They have organized the St. Anthony Petroleum Company, capitalized at \$15,000 divided into 1,500 shares of the par value of \$10 each. The proceeds from the sale of this stock will be used to develop this lease, and only enough will be sold to drill and equip one well, then the production from it should take care of further development. No man controls this company, it being a mutual proposition for all concerned. This is a rare opportunity of becoming interested in a very high-class oil proposition backed by men whose honesty and integrity cannot be questioned. Drilling on this lease will be commenced just as soon as a sufficient amount of stock has been sold. Better send your check now for as many shares as you can afford at \$10 per share, for it won't last long. If in doubt write for further details, or write any bank in Muskogee about us.
