

## DON'T FAIL TO SEE

The Perfected Ford Tractor Unit at Fremont

# THE ACA-TRACTOR

(PATENTS APPLIED FOR)

Ploughing at Haseman's Farm Three-fourths Mile North of Lincoln Highway

DIRECTIONS: Go north on Broad street one and one-half miles. The Aca-Tractor will be seen on the left hand side just beyond the white school house.

The **Aca-Tractor** has a spring drive and spring pull, relieving the Ford engine from all driving and road shocks, The only tractor with this feature.

The **Aca-Tractor** is chain driven.

The **Aca-Tractor** has narrow-tread tractor wheels. Front and rear right wheels track in the furrow. The only narrow-tread Ford unit. Shorter turning radius than any other Ford tractor.

The **Aca-Tractor** is all tractor. Not any part touring car. It is a **one-man** job and the driver can see and operate behind him.

The **Aca-Tractor** has a perfected cooling system for the Ford engine and a Bennett air washer on the carburetor.

The **Aca-Tractor** does not buck and rear. Its method of draw-bar pull is patent applied for---

and the price is \$265.00 F. O. B. Detroit, Mich.
