Iowa Capital Fears Dairies Will Be Unable to Supply Both City and Military Camp.

(From a Staff Correspondent.) Des Moines, Ia., Aug. 12.—(Special.)—Major S. S. Craft of the quartermaster's department at Camp Dodge has informed the state food and dairy commission here that on October 1, when the military cantonment is in full operation, between 7,000 and 10,000 gallons of milk will be required to supply the cantonment.

Deputy County Attorney Abbott Gets Commission as Major

Chief Deputy County Attorney Abbott last night received his appointment as a major unassigned. He will get a regular commission and later be assigned to some regiment.

The appointment came from the adjutant general's department at Lincoln.

Mr. Abbott is in charge of recruiting for the Omaha contingent of the reserve militia.

About 300 men have already applied for enlistment in the reserve militia. The organization is to be utilized at the discretion of the governor for the protection of railroads, bridges, storehouses, food supplies, munitions of war, public property, armories, the quelling of insurrections and riots or conditions that might arise which

would require the use of troops. The reserve militia may also be utilized in bringing to trial persons found committing acts of treason, or in any manner assisting the German government.

Mr. Abbott said yesterday he would like to correct the impression the reserve militia will be called for service out of the state and possibly in foreign lands.

"It is possible, but very improbable," said Mr. Abbott. "I have assurance from the adjutant general there is no intention at the present time to send the reserve militia out of the state. The possibility that it will ever be called out of the state is very remote."

Mr. Abbott said yesterday he would like to correct the impression the reserve militia will be called for service out of the state and possibly in foreign lands.

SIMMONS EXPLAINS HEAVY WAR TAX

Says Righteous Conflict Was Made Necessary by Consideration of National Honor and Safety.

(By Associated Press.) Washington, Aug. 12.—Nearly all of Saturday in the senate was occupied by Senator Simmons, chairman of the finance committee in completing his explanation, begun yesterday, of changes made in the house war tax bill by his committee.

The debate will be resumed on Monday, at which time Senator La Follette expects to introduce a minority report.

"I believe this is a righteous war made necessary by every consideration of national honor and safety," Senator Simmons said in speaking of the bill's heavy tax levies. "I know that money is as essential to its successful prosecution as armies and navies and I believe that every one should pay for its support, according to his ability."

To Raise More Money. On the liquor section, Senator Simmons said the senate committee accepted practically all of the house rates imposed on intoxicating beverages and that changes made were due to the passage of the food control bill and the necessity for raising a larger amount of money through taxation.

"Undoubtedly the prohibition of the manufacture of spirits for beverage purposes," he said, "and the commencing powers of the president will give to the owners of the stock of spirits now in bond and in stock, a practical monopoly of the market and prices will be greatly increased."

The higher tax on beer and wines, he said, was deemed necessary because there would be an enlarged market for them.

Farmers Are Satisfied. Senator Simmons declared that the farmers were willing to bear their share of the war taxes and that no request for exemption from the provisions of the bill had reached him from them.

He told the senate that the farmers had received returns for their products on the average beyond their most optimistic dreams, and that they would continue to reap a splendid return under the prevailing prices.

Senator McCumber had planned to discuss the bill, but as Senator Simmons did not conclude until late, he postponed his speech until Monday.

Norwegians Aroused by Seizure of Coast Ship

Christiania, Aug. 12.—Popular indignation here against the German persecution of vessels in the Norwegian coastal trade again has been aroused by the case of the steamer Thorum, whose officers, pilot and crew testified in the naval court that they were inside the three-mile limit of the Norwegian coast when seized as a prize by a German submarine last May. The steamer recently was released by the German naval authorities and has returned to a Norwegian port.

The newspapers here severely criticize the government for accepting the German note on the incident, which offers neither apology nor compensation for the time lost while the Thorum was held in a German port. It is expected that the incident will be brought up by interpellation in the Storting.

Suspect German Plot to Free the Interned Germans. San Francisco, Aug. 12.—In the belief that Patrick J. Futral, U. S. immigration service watchman who was arrested yesterday, was merely a tool in an alleged plot to free German prisoners interned on Angel Island in San Francisco Bay, federal authorities today directed their efforts to a search for the supposed "higher ups."

Late today additional guards were placed about the internment camp where former German Consul General Franz Bopp and Eckhardt Von Schack, former attaché of the consulate here, both of whom were convicted of violating American neutrality, are held with many other Germans.

ASK HALF BILLION DOLLARS FOR SHIPS

U. S. Shipping Board Demands Additional Funds; Big June Appropriation Now Completely Exhausted.

(By Associated Press.) Washington, Aug. 12.—Another \$500,000,000 appropriation for ship building will be asked of congress next week by the shipping board.

Contracts already let, it was said tonight, have absorbed all of the \$500,000,000 given the board in the war budget bill passed in June. An additional \$250,000,000 appropriated at that time will be used commandeering ships.

The emergency fleet corporation approved contracts today for about fifty ships, steel and wood, with a total displacement of about 200,000 tons. The cost of the vessels will be \$25,000,000.

Builders of the vessels for which contracts were let today announced they would organize a national ship building association with offices in Washington to provide a central agency to represent the builders before the fleet corporation and thus obviate the necessity of individuals coming to Washington to deal with subjects that could be handled more expeditiously through an organization.

The fleet corporation still has before it contracts approved by General Goehrels for two government-owned ship-building plants to construct fabricated steel ships. The fabricated plans probably will be carried out, but changes suggested by Mr. Denman will be made and the probable cost of the vessels will be much below the \$150 a ton proposed in the original contracts.
