Make Your Own Cough

Syrup and Save Money

Better than the ready-made kind. Easily prepared at home.

The finest cough syrup that money can buy, costing only about one-fifth as much as ready-made preparations, can easily be made up at home. The way it

easily be made up at home. The way it takes hold and conquers distressing coughs, throat and chest colds will really make you enthusiastic about it.

Any druggist can supply you with 2½ ounces of Pinex (60 cents worth). Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Shake thoroughly and it is ready for use. The total cost is about 65 cents and gives you a full pint—a family supply—of a most effectual, pleasant tasting remedy. It keeps perfectly.

It's truly astonishing how quickly it

It's truly astonishing how quickly it acts, penetrating through every sir passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the inflamed or swollen throat mem-

branes, and gradually but surely the annoying throat tickle and dreaded cough will disappear entirely. Nothing better for bronchitis, spasmodic croup, whooping oough or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is known the world over for its prompt healing effect on the throat membranes.

Avoid disappointment by sking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation, The Pinex Co., Ft. Wayne, Ind.

AMUSEMENTS.

CREIGHTON MEETS COYOTES SATURDAY

Drawn for The Bee

George McManus

Coach Mills' Fire Eaters to Tackle Prairie Huskies From South Dakota on Local Field.

The Coyotes from South Dakota are grimly determined to tear Coach Mills' blue and white warriors to shreds in the annual Creighton-South Dakota clash next Saturday. With only one veteran in the lineup, the Coyotes slaughtered the surprised eleven from their sister state and expect to do the same to Creighton this week. Coach Mills is confident that his rejuvenated squad will be able to stand up against the rushing attack of the huskies from Vermillion, and even to squeeze a man over the line

if the opportunity presents itself.

Mills bases his hopes on the fine showing his men made against the strong Drake crew last Saturday. The blue and white backfield is a whirl-wind for speed. The backfield trio bids fair to outshine the scoring machine of last season, when the edu-cated arm of Dutch Platz hurled the oval unerringly into the arms of Flannigan and Long, who were responsible for a majority of the blue's scores. This year Kelly and Campbell have shown ability for pulling the pigskin out of the sky on forward

Proud of the Line. Mills is particularly proud of his line. Charley Payne will be back at his old position at left guard when the whistle blows Saturday, "Hap" Jones, all-Iowa guard for two years, will also be in condition for the South les is a 1/8-pounder is fast and in the few minutes of the last quarter in which he participated

in the Drake battle he evinced an ag-

gressive tendency to break through

is opponents' i:ne and smash up

With Dan Condon, the peppiest man Mills ever had, at center, Captain Morgan showing up in fine style at tackle, and Campbell, Berry, Little and Healey all threatening to develop into scintillating stars, Coach Mills has a line that he says is a "world

Protest Counting Missouri

Columbia, Mo., Oct. 16.—President Hull of the University of Missouri today announced that he would protest to the Missouri Valley confer-ence against counting the Missouri-Kansas Agricultural game last Satur-

day as part of the conference series.

He said he would base his protest on the ground that Captain Randels of the Kansas Agricultural team was ineligible because he played two years on a southwestern conference team. on a southwestern conference team.

British Airmen Destroy German Roulers Arsenal

London, Oct. 16.-British airmen in their recent attack on the Belgian town of Roulers caused the destruc-tion of an arsenal in which was quartered a newly arrived German regiment. This information was con-tained in a dispatch from Amsterdam to the Central News Agency, and was

reported by a trustworthy correspondent of the Dutch frontier.

One of the first incendiary bombs dropped struck the arsenal, which immediately burst into flames. The confusion was added to by airmen who, descending to a low altitude, used their machine guns freely, thereby increasing the casualty roll, which, the correspondent said, was enor-

GERMAN EFFORT AT RIGA IS LIMITED

Approach of Winter Compels Invaders to Localize Thrust; British Artillery in Flanders Again Active.

BULLETIN. Berlin, Oct. 16.-Runo and Abro, slands in the Gulf of Riga, have been occupied by the Germans.

(By Associated Press.) The German operations in and around the Gulf of Riga, which have centered attention upon the northern Russian front for several days past, are not likely to be extended this fall

to the Gulf of Finland, on the route to Reval, Cronstadt and Petrograd, in the opinion of Russian naval authorities. The lateness of the season will have the effect of localizing the German effort, the minister of marine believes. The military situation on the various fronts in the western war area

was virtually unchanged overnight, so far as the official statements reveal

Artillery Active in Flanders. The German reports have begun to lay stress upon the violence of the artillery fire in Flanders, but there are no indications that the bombardment has yet been worked up to the point where the British find themselves

ready for a renewal of their drive. Evidently much depends on the weather in this region. In the light of his last week's experience with the ground into a somewhat more passable state, although the hope of securing even ordinarily good conditions at this late season seems now to be considered small.

Fighting at Verdun. On the French front the activities are centered on the Aisne and before Verdun. Last night's fighting in both regions was mostly monopolized by the artillery.

Had Warning of Invasion.

Petrograd, Oct. 16.-The landing of German troops on Oesel island could have been averted only by risking battle under unfavorable circum-stances, which might have resulted in the opening of the Sulf of Finland to the enemy, Admiral Verdervski, minister of marine, said today. The blow is a hard one to Russia, but the Russian fleet apparently was in no position to hinder the Germans.

"Since March," the admiral said, " have several times drawn attention to the possibility of such a blow, and also discussed the situation with Premier Kerensky, but no one paid attention to the government's warnng. Although we are at war, our political differences have been given irst place in the minds of the people. The Germans take this into account, and events show that they have been able to take full advantage of it."

German naval power is four times greater than that of Russi, the admiral continued. The naval force in the Gulf of Riga did everything possible to prevent a landing.

Germany Is Still

In Fighting Shape

Detroit, Mich., Oct. 16.—The Liberty motor and America's new merchant marine will prove tremendous factors in crushing German militarism, said Lord Northcliffe, head of the British war mission, in an infor-mal talk here today. The British publisher made this statement before he left his hotel to visit several automobile factories.

"The Liberty motor, if perfected, will help inconceivably in carrying our forces beyond the German lines, but the motor must be perfect," Lord Northcliffe said. He urged that Detroit industries and Detroit workmen continue to vigorously assist the gov-ernment in providing war materials. and he ridiculed reports that Germany was facing an economic col-

"No heed should be paid to reports of weakness or debilitation in Ger-many," he said. "Those reports are manufactured and sent out from Germany for the deliberate purpose of slackening America's efforts. Foreign newspapers in England were suppressed the first fortnight of the war. That is what the United States should

Arrest German for Taking Bomb on Naval Vessel

New York, Oct. 16,-A man, apparently a German, employed in re-pair work on a United States, naval vessel here, was arrested for carrying waterways. Owners of vessels on in-land waterways will be obliged to of-fer transport facilities according to a fixed schedule of rates.

What was apparently a bomb aboard the ship here Monday. The arrest was made by A. D. Savage; master of arms, who searched the man as he came to work.

The bomb was described as about six inches long, provided ith a fuse cap. Two pieces of paper containing German writing were also found on the prisoner. The vessel was formerly a German liner, seized when

ARE PREPARING FOR WINTER AT DEMING

Floors Are Put in All of the Tents and Some of Officers' Quarters Are Boarded Up.

Camp Cody, Deming, N. M., Oct. 16.-Preparations for a winter stay of the troops here are indicated by the building of floors for all the squad tents and boarding up of many of the officers' quarters. Mess halls also will be exotected by tar paper and sheeting against cold winds. There will be little, if any snow, but occasionally this section gets the tail end of one of the blizzards the boys from the Missouri and Mississippi valleys and intervening plains have experienced. Deming is famous for sunshine, though, and there will be no ceasing of drilling by the new methods. A force of carpenters has been turning out 400 tent floors a day and the job is about completed, as well as the general overhauling of buildings to accommodate the 250-men units in the infanty. With the arrival of the First Minnesota infantry (One Hundred and Thirty-fifth United States) the nuclei of all organizations have been provided, and they will be recruited to European war strength by drafted men from Camp Dodge, Iowa.

K. C. Hall Near Completion. Knights of Columbus hall is nearly completed and will be inaugurated with great ceremony probably within handicap of the Flanders mud, it homa City, Okl., general secretary for the knights here, is present, watching the knights here, is present, watching the knights here, is present, watching the construction of the building, which is in mission style, tight the construction of the building, which is in mission style, tight
