

NATIONAL SPEAKER TELLS DUTIES DEVOLVING ON BOYS; SWORN AS SPECIAL POLICE

Dr. E. J. Elsom of Wisconsin University Faculty Describes What Youthful Workers Should Be; Mayor Dahlman Administers Oath to Four Hundred Boys; Te Poel Talks About Scout Honor

Omaha's Boy Scout army mobilized 400 strong at the Methodist church, Twenty-fourth and Davenport, Saturday to receive oratorical pats on the back for their services in the Liberty bond and Red Cross campaigns and their work in the Ak-Sar-Ben, when the various medals, bars and badges were awarded to the individual scouts for special merit.

LECTURE ON SCOUT WORK.

Dr. E. J. Elsom, national scout commissioner and a member of the faculty of the University of Wisconsin, gave an illustrated lecture on scout work showing how the outdoor scout life developed independence and self-reliance and furnished a practical education in the guise of organized play. More than 100 parents attended the meeting to learn about scout activities.

DAHLMAN GIVES OATH.

Probably the most thrilling moment of the evening was reached when Mayor Dahlman administered the oath of office to the 400 scouts present into the special police service of the city. Four hundred right hands were thrust unwaveringly into the pledging to protect Omaha property on Halloween and to arrest any malicious mischief-makers found at large on that perilous eve.

After taking the oath Acting Chief of Police Dempsey issued each scout the special "scout police" badge, which will authorize them to make arrests, and instructed them in their official duties in co-operation with the regular force.

City Attorney J. T. Te Poel addressed the boys on "Scout Honor," complimenting them upon their splendid work in the Liberty loan campaigns.

Medals Are Bestowed.

Judge J. W. Woodruff, chairman of the scout court of honor, acting as the direct representative of President Wilson, awarded 72 "war medals" to the scouts who sold the most of the Liberty bonds. Troop No. 4, under Scoutmaster Tom Kelley, held the honors upon this occasion, every one of the 31 members of the troop, including the master, receiving the medal for securing the requisite ten subscriptions. Carl Diamond, senior patrol leader of Troop No. 5, had the distinction of having secured 174 Liberty loan subscriptions.

Frank W. Judson awarded the prize medals and bars for the Red Cross membership campaign. Scout Harvey Colberg won the first place medal, with 220 Red Cross memberships to his credit. Lysie Vance won second with 206 memberships and Gordon McAulay third with 190 memberships.

Bars for service were awarded Gordon Smith, Arthur Stevenson, William Howard and William Hayes, all of whom secured over 100 memberships during the campaign a month ago.

Work in War Garden.

Troop 5, under Scoutmaster Vincent Haskell, was awarded the John W. Welch silver trophy cup for work in the "war garden" cultivated by the scouts. "We realized \$100 from the sale of the garden products and the amount is now in the scout treasury," said Scout Commissioner Welch, in announcing the crack troop in the work. Carl Diamond of Troop 5 won the medal for the best individual work in the war garden.

C. H. English, scout executive, addressed the boys on the present Liberty loan campaign. "Many of the boys went through a whole downtown building today without getting a single subscription. Don't let that discourage you. Your duty in this case, as it was in the Red Cross campaign, is to get the subscriptions no one else has been able to land. Go to it and don't fall below the record on the first Liberty loan, when the scouts raised \$252,000 in subscriptions."

Take Homes Next.

The scouts will next campaign throughout the residence district. Mr. English stated, "Go around after supper and find out if there is anybody in your neighborhood who hasn't bought their second bond. If they haven't, congratulate them and if they haven't, bring in their subscription." The Boy Scouts are "go getters," as the people of Omaha well know, and if you haven't bought your bond, now is the time to be digging up the cash, for "the Boy Scouts 'll git you if you don't watch out."

The scouts who received the war medal for selling 10 or more of the first Liberty bonds are:

- Dustin Sturtevant, Allan D. W. Thomas, Roger Moore, G. Bjornson, George Abbott, Milton Barlow, Page Christie, Thomas Coleman, Stewart Edgar, Edgar Morsman, Kenneth Metcalf, Wallace Nelson, Clarence Gunther, W. McCarthy, Austin Erickson, Aaron Burr, H. Curry, Harmon Grotte, Junior Nash, T. A. Weir, Gordon Smith, Abernethy, Donald Burrough, Milton Myers, E. Valco, J. Williams, H. Stevens, R. Borsbaugh, Edwin Raff, Meraban Welch, H. Holcomb, William Nicholas, Alex Higgins.

Jack Corbett Puts in Bid For Job of Boss at Mobile

Among the applicants for manager of the Mobile team of the Southern league is Jack Corbett, who this last season led the pennant-winning Columbia team of the South Atlantic league.

Dartmouth Walks Away; West Virginia Dies Hard

Hanover, N. H., Oct. 21.—Dartmouth won from West Virginia at football today, 6 to 2. The powerful back field of the visitors was stopped at every turn by the Greens' defense.

GIANT AEROPLANE TO BE FACTOR IN COMING BATTLES

Heavier Machines, With More Effective Armament, to Be Included in United States Air Fleet.

(By Associated Press.) Washington, Oct. 21.—The day of thrilling air duels between individual aviators appears to be passing. Official and unofficial advices from Europe recently have shown increasing use of heavier machines with greater armament.

There are indications that amendment already has been necessary in the program for creating the huge air fleets provided for by congress. While there will be no lack of small fighting planes, it is probable that stress is being laid now on the bombing craft and upon increasing the speed of the heavier machines and giving them more effective armament.

Engineers who designed the liberty motor, are at work on plans for even more powerful motors. At the same time the liberty motor is now produced at a rate that assures a sufficient supply when American flyers are assembled in force over the fighting lines.

Big German Machines.

There have been rumors of great German aircraft soon to make their appearance and officials believe the Germans are impressed with the desirability of substituting heavier machines in which fighting power takes the place of high speed.

The production of training machines, it is understood, is the only element of the aircraft program which is behind schedule, but new supply sources for the training machines shortly to better, Jesse M. Young, Margaret J. Neary, Julia Plock, Ella McDonald, John W. Morris, William M. Smith, Mrs. W. B. Bub, W. P. Maloney, Mrs. Robert Adams, Mrs. W. H. Soller, W. H. Soller, H. W. Bubb, William M. Holland to Get Exports From Austria-Hungary

Amsterdam, Oct. 20.—An agreement has been concluded between Holland and Austria-Hungary covering commercial and financial matters. The agreement deals with the question of exports from Austria-Hungary to Holland and mutual credits.

It is said that a joint agreement between Holland and Germany and Austria-Hungary is expected at an early date.

There is a plan in a nut shell: Thousands of enlisted and selected men have gone to the training camps. It may be that thousands more will go next year. These men are being called from factories and workshops and farms. Every factory and every farm must continue production if we are to render full service to our faithful allies during the war. How can we fill the places of the young men who have gone away to fight? We must rely upon the boys who are old enough and husky enough to work, but who are still too young for military service.

So here is a trumpet call for all city boys and town boys between the ages of 16 and 21. Prove Your Patriotism. Prove your patriotism and help your country by jumping in and doing the work of a soldier who has gone to the front. The United States Boys' Working

When Itching Stops. There is one safe, dependable treatment that relieves itching torments and skin irritation almost instantly and that cleanses and soothes the skin. Ask any druggist for a 35c or \$1 bottle of zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear. A little zemo, the penetrating, satisfying liquid, is all that is needed for it vanishes most skin eruptions and makes the skin soft, smooth and healthy. The E. W. Rose Co., Cleveland, O.

Physicians have prescribed old-fashioned salts for years, but it is only of late that they could be taken in cold water and be really pleasing to the taste. Ordinary salts taste bad and, what is even worse, must be taken in hot water. Druggists now have these old-fashioned salts in a new form, under the name of Salinos (Laxative Salts). Salinos is known to at least 25,000 physicians in the United States alone as of positive value in treating constipation, rheumatism, kidney troubles, sick headache, etc., and has been used by many dentists in treating the conditions that cause pyorrhea. It is merely a blending of three well known salts, to which certain fruit acids have been added. It is not a heart stimulant and contains no caffeine and no acetic acid. Salinos is more like a home made remedy and in fact you could easily make it at home if you had the facilities. It is free from drastic drugs yet it rarely if ever fails in giving almost immediate relief from constipation and its use for a short period will invariably show a highly improved condition. By providing regular daily habits, poisons are removed from the blood, digestion is better, rheumatism is reduced and the old-time vigor comes back. Salinos is easy to take, dissolves readily in cold water and gives to it a pleasing flavor. Get a package today from any good druggist and try a little in a full glass of cold water tomorrow morning before breakfast. You'll feel better within an hour and the end of the day won't find you dog-tired with a sick headache and a sour stomach. Dispensed by S. Sherman & McConnell stores and all good druggists.—Adv.

OLD-FASHIONED SALTS PLEASANT TO TAKE IN COLD WATER Fine For Constipation And Rheumatism

MOVIE STAR TO SPEAK IN INTEREST LIBERTY LOAN.

Douglas Fairbanks

Douglas G. Fairbanks will arrive in Omaha Monday afternoon on a coast-to-coast trip in the interest of the Liberty loan. He will be met at the station at 11:40 by members of the Omaha committee in charge of the bond issue and a party of newspaper men. His arrival will be announced on the screen at the Strand theater today.

Flora and Elsie And Agnes Must Prosecute War

(Continued from Page One.) and then bows to the applauding multitude. The French weep a little and kiss one another on each cheek and sing the "Marseillaise" and then they are ready to capture some more trenches. Be Real Enthusiasts. Repressed emotions sometimes turn sour. Don't be ashamed to let your enthusiasm float publicly to the breeze. You never saw a foot ball team advance a ball unless it was getting encouragement from the girls on the sidelines. Now for the boys. Perhaps you have heard about the working reserve. It has been carefully organized under government supervision. It has received the official endorsement of the president. The whole plan is working out successfully wherever it is understood. The trouble is that some of the boys and some of the parents are still a little doubtful regarding enlistment, because they don't know how much of an obligation is assumed. Here is the plan in a nut shell: Thousands of enlisted and selected men have gone to the training camps. It may be that thousands more will go next year. These men are being called from factories and workshops and farms. Every factory and every farm must continue production if we are to render full service to our faithful allies during the war. Get a package today from any good druggist and try a little in a full glass of cold water tomorrow morning before breakfast. You'll feel better within an hour and the end of the day won't find you dog-tired with a sick headache and a sour stomach. Dispensed by S. Sherman & McConnell stores and all good druggists.—Adv.

OLD-FASHIONED SALTS PLEASANT TO TAKE IN COLD WATER Fine For Constipation And Rheumatism

Physicians have prescribed old-fashioned salts for years, but it is only of late that they could be taken in cold water and be really pleasing to the taste. Ordinary salts taste bad and, what is even worse, must be taken in hot water. Druggists now have these old-fashioned salts in a new form, under the name of Salinos (Laxative Salts). Salinos is known to at least 25,000 physicians in the United States alone as of positive value in treating constipation, rheumatism, kidney troubles, sick headache, etc., and has been used by many dentists in treating the conditions that cause pyorrhea. It is merely a blending of three well known salts, to which certain fruit acids have been added. It is not a heart stimulant and contains no caffeine and no acetic acid. Salinos is more like a home made remedy and in fact you could easily make it at home if you had the facilities. It is free from drastic drugs yet it rarely if ever fails in giving almost immediate relief from constipation and its use for a short period will invariably show a highly improved condition. By providing regular daily habits, poisons are removed from the blood, digestion is better, rheumatism is reduced and the old-time vigor comes back. Salinos is easy to take, dissolves readily in cold water and gives to it a pleasing flavor. Get a package today from any good druggist and try a little in a full glass of cold water tomorrow morning before breakfast. You'll feel better within an hour and the end of the day won't find you dog-tired with a sick headache and a sour stomach. Dispensed by S. Sherman & McConnell stores and all good druggists.—Adv.
