

SOUTH SIDE LIQUOR TO RUB ON THE LEG OF HIS WIFE

Colored men of Omaha selected to serve with the national army were given a farewell banquet and entertainment at the Commercial club last night, together with the six colored officers who recently received commissions at the officers' reserve training camp.

Following the banquet a musical program featured by the Capitol City quartet was received with rousing enthusiasm.

General John C. Cowin delivered a short address outlining the service rendered the union by colored soldiers during the civil war. When he said, "The soldiers of the United States are comrades, comrades all, regardless of race or color," the applause continued for fully five minutes.

Bishop John Sharp Williams closed the speaking and said, "We are sending you forth and our hearts go with you. Our final word to you is 'Good-by boys and may God bless you.' We are proud of the colored officers who have received commissions from the officers' training camps and I know that you will prove just as efficient as they."

The men go into service today.

Defenses of Stepaniz When Arrested on Charge of Possession of Quantity of Alcohol.

"My wife uses alcohol to rub on her leg. She suffers from rheumatism," insisted John Stepanik, thirty-second and B streets, in the South Side police court Friday morning in answer to the charge of illegal possession of liquor.

Detectives Goss and Dworkin raided Stepanik's place and found some alcohol and several packages of put bottles of whiskey. Two packages of whiskey were found in a folding bed.

"I don't doubt but that your wife uses the alcohol," said City Prosecutor Anheuser, "but what about the whiskey?"

"Sixty days in jail," decided Police Judge Fitzgerald.

Recently in police court Stepanik was found guilty of illegal sale of liquor. That case was appealed and he has also appealed from the last decision.

Ted Swick, 4508 South Twenty-seventh street, was fined \$100 and costs Friday morning for illegal possession of liquor and he appealed. Swick and Andrew Nelson, 3639 S street, were arrested last Saturday night when Detectives Zaloudek and Francel saw them unloading a gunny sack containing a keg of whiskey from Nelson's automobile.

Nelson said he did not know what Swick had in the package. He was discharged. Swick told the court that he was moving from an old to a new home and that he was merely moving the "lawful amount" permitted by law for personal use to his new place of residence.

Chiropractic Health Talks

There is hope. "There is no hope whatever for recovery." This is often the verdict of some true minded health practitioners, when all his knowledge and resources has ended in confessed failure of means at his command. People who think themselves doomed to an existence under the burden of a so-called "incurable" malady should investigate the science of Chiropractic.

This health mode is actually helping legions of people who, having tried about everything else to no avail, have found the relief they so long desired and unsuccessfully sought.

If you are free from prejudice of dogma, you are in position to investigate my methods fairly.

Do not brood over the past nor live in dreams of the future that somehow perchance you may get well—but act now and secure the blessings of Chiropractic Adjustments.

Investigation costs nothing and means health and happiness. Adjustments are \$1.00 or 12 for \$10.

M. Loftus, agent for the Missouri Pacific, has issued a statement at the South Omaha exchange that the ruling of the internal revenue department is that charges on freight in transit at midnight October 31 must be paid to carriers on or before that date, regardless of credit arrangements. Otherwise a war tax of 2 per cent will apply on the shipment.

Fire destroyed the home of Joseph Sutczynski, Fifteenth and U streets, Friday afternoon. The residence was a one-story frame building. The fire was started from an overheated stove. At the time that the house took fire Mrs. Sutczynski was visiting a neighbor woman. There is no water mains in the vicinity and the firemen fought the flames with chemicals. The building was insured for \$800.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incalculable material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which, if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire

alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store, but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.—Advertisement.

Rocky mountains and along the Pacific coast.

In the booklet, of which Mr. Haynes is the author, there are numerous half-page illustrations showing how the Milwaukee has overcome the natural obstacles and driven its lines into, through and over the great walls of granite. There are a series of pictures of locomotives, including the many types from No. 1, constructed and operated in 1848, up to the present. Those of the present are the huge electric locomotives that are hauling both freight and passenger trains over the mountains.

GOOD BEDROOM FURNITURE

And What It Means to the Lady of the House

GOOD FURNITURE develops a pride in personal appearance, habits of orderly healthfulness, and a womanly appreciation of the finer things of life that promote character and self-reliance. Few women, indeed, are able to resist the appeal of the new patterns shown for the first time this season—dainty, beautiful, artistic designs that carry with them the atmosphere of youth. If your daughter has yet to experience the joy of a room furnished as attractively as her own demure self—or if your own chamber lacks those appointments which contribute so much to the gentility of home, and its grip upon the hearts of the happy circle beneath its roof—why postpone longer the pleasures of refurbishing? Never before has HARTMAN'S been able to offer its patrons house furnishing equipment of greater value at more reasonable prices. INTELLIGENT INVESTIGATION AND COMPARISON INVITED.
