

TAMMANY WINS: SUFFRAGE ALSO

Judge Hylan Given Great Majority for Mayor of Gotham; "Wets" Are in the Lead in Ohio.

(Continued from Page One.)

Third district of Kings was a tie between the socialist and a candidate endorsed by both republicans and democrats, leaving the result to the soldier vote.

The republicans also elected 26 mayors in up-state cities. The vote on woman suffrage in New York city complete was: Yes, 334,011; no, 241,315.

Returns from 4,876 election districts out of 5,772 in the state on woman suffrage give: Yes, 601,637; no, 504,402.

Close Race in Ohio. Cincinnati, O., Nov. 7.—With 524 precincts still to hear from, the dries had cut the majority of the wets to 4,101. A large majority of the precincts still to come are in territory reputed to be dry.

Returns from 5,232 precincts give: For prohibition, 466,794; against prohibition, 470,895.

Davis Re-elected in Cleveland. Cleveland, Nov. 7.—Harry L. Davis, republican, was re-elected mayor of Cleveland yesterday, leading four other candidates by 15,343 first, second and other choice votes, of which his total was 55,366.

C. E. Ruthenberg, socialist candidate, ran third, polling 27,685 all-choice votes while William A. Stinchcomb, democrat, had a total of 40,023. The socialists elected two members to the city council, the first socialists ever elected to that body.

Democrats Win in Kentucky. Louisville, Ky., Nov. 7.—Democratic control of both houses at the next session of the general assembly of Kentucky was assured by the result of yesterday's election in this state. Only one state official, an attorney general, was elected. Charles Morris, democratic nominee, was unopposed. In Louisville the republican party, for the third time in the city's history, elected a mayor, George W. Smith, republican nominee, received a majority of 2,200.

Indiana. Indianapolis, Ind., Nov. 7.—Municipal elections were held in every city and practically every town in the state yesterday.

In Indianapolis the entire republican city ticket, headed by Charles W. Jewett, mayoralty candidate, was re-elected by a plurality of 3,600.

At Fort Wayne W. S. Cuthall, republican, was elected mayor. Dr. Frank Carson, republican, is reported on unofficial returns to have been elected mayor of South Bend. Incomplete returns from Terre Haute show Charles Hunter the mayor-elect of that city. At Evansville Mayor Benjamin Bosse, democrat, was re-elected.

Pennsylvania. Philadelphia, Nov. 7.—Complete but unofficial returns of the vote cast in Philadelphia yesterday shows that the candidates of the regular republican organization for city offices led by majorities ranging from 2,747 to 9,640, but the soldier vote in southern camps may change results. The town meeting party, which opposed the regular republican organization, was the outgrowth of the Fifth ward killing on primary election day, independent organizing the party as protest against the alleged methods used by adherents of the Ware brothers, who control the city organization, to win the leadership of the ward from the Penrose-McNichol faction.

Democrat Governor in Virginia. Richmond, Va., Nov. 7.—The democratic state ticket, headed by Westmoreland Davis, candidate for governor, won in yesterday's election with the usual majorities, according to returns early today.

McCall Is Re-elected. Boston, Nov. 7.—The small democratic vote here was one of the features of the state election yesterday, when Governor Samuel W. McCall was chosen for a third term. All other republican state officers were re-elected, and the republicans made a net gain of six on joint ballot of the legislature. Governor McCall's plurality was 90,559.

Doubt in Baltimore. Baltimore, Md., Nov. 7.—The result of yesterday's election for state comptroller was in doubt today, with Hugo A. McMullen, democratic incumbent, leading by a small plurality. The vote was the lightest cast in years, only about one-half the registration coming out. The socialists polled 3,000 votes in Baltimore. For the first time in 20 years the republicans may have a majority on a joint ballot of the legislature.

Results of Chicago. Chicago, Nov. 7.—Democrats and republicans in Chicago and Cook county today expressed gratification at the results of the judicial election yesterday, in which a fusion ticket carrying seven candidates from each of these parties was swept into office over socialist and independent opposition by a plurality estimated at more than 75,000 out of a total vote of 244,914. The election was held to choose 12 judges of the superior court and two judges of the circuit court.

Fusionists commented on the "split vote" in the German-American sections of the city. In several districts heavily populated by persons of German birth the vote was overwhelmingly for the bi-partisan candidates and in other German-American sections the socialists were returned the victors.

The socialist vote was sporadic. There appeared to be no well defined districts of the city with a predominance of socialist vote, the six wards carried by that party being separated and having as neighbors wards that rolled up large majorities for the fusionists.

The extent of the defeat meted to the socialists may be measured by the vote for W. A. Gunna, that party's candidate for judge of the circuit court. He received yesterday 82,977 votes in the county. Twice, in 1912 and 1916, in running for state's attorney, he piled up a vote in excess of 100,000. Five years ago he received 106,527 votes in Chicago alone. Yesterday he received 72,692 in Chicago.

L. C. Bumann, former principal of High School of Commerce, is attending the convention as a representative of a school supply company.

President Proclaims Thanksgiving Day; U. S. Has Blessings Better Than "Peace of Mind or Prosperity of Enterprise."

In Midst of Sorrow and Peril America Has Ample Reason to Render Thanks, Says Wilson.

(By Associated Press.)

Washington, Nov. 7.—President Wilson issued tonight his 1917 Thanksgiving proclamation, calling upon the nation, even in the midst of the sorrow and great peril of a world shaken by war, to thank God for blessings that are better than mere peace of mind and prosperity of enterprise.

The proclamation fixing Thursday, November 29, as Thanksgiving day, follows:

"By the president of the United States of America.

"It has long been the honored custom of our people to turn in the fruitful autumn of the year in praise and thanksgiving to Almighty God for his many blessings and mercies to us as a nation. That custom we can follow now even in the midst of the tragedy of a world shaken by war and immeasurably disaster, in the midst of sorrow and great peril, because even amidst the darkness that has gathered about us, we can see the great bless-

ings God had bestowed upon us, blessings that are better than mere peace of mind and prosperity of enterprise.

Justice For All Nations.

"And while we render thanks for these things, let us pray almighty God that in all humbleness of spirit, we may look always to Him for guidance; that we be kept constant in the spirit and purpose of service; that by His grace our minds may be directed and our hands strengthened; and that in His good time liberty and security and peace and the comradeship of a common justice may be vouchsafed all the nations of the earth.

"Wherefore, I, Woodrow Wilson, president of the United States of America do hereby designate Thursday, the twenty-ninth day of November next, as a day of thanksgiving and prayer, and invite the people throughout the land to cease upon that day from their ordinary occupations and in their several homes and places of worship to render thank to God, the great ruler of nations.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done in the District of Columbia, this seventh day of November in the year of our Lord, one thousand, nine hundred and seventeen and of the independence of the United States, the one hundred and forty-second.

"WOODROW WILSON,

"By the president,

"ROBERT LANSING,

Secretary of State."

LUEBBEN DETAILS BANKING METHODS

Entries of Certificates of Deposit Made in the Sutton Bank Just to Keep Books Straight.

George Honey, A. W. Clark and Theodore Miller, directors of the First National bank of Sutton, which failed in 1913, testified yesterday in federal court that the certificates of deposit issued by President Luebben of the bank and which are involved in the case against Thomas H. Matters, were issued without the authority of the board of directors.

President Luebben was on the witness stand all morning. He is also under indictment and is the government's chief witness in the trial of Thomas H. Matters, who is charged with abetting Luebben in unlawful issuance of certificates of deposit.

Luebben admitted freely and almost eagerly that he had done things forbidden by the national banking laws. He was questioned about entries of the Matters' certificates of deposit on the books of the bank. United States Attorney Allen pointed out that some of the certificates were entered for smaller amounts than their face values.

To Keep the Books Straight. "I had to do that to keep the books straight," said Luebben, "because Matters had not sent me the full amount of money which he had promised. I begged him repeatedly to pay the money in or send back the certificates."

According to Luebben's testimony, he issued \$10,000 in certificates of deposit and sent them to Matters on the latter's promise to pay for them in good paper. In return for these, he said, Matters sent him at that time only \$12,500 in notes. The defense asserts that Matters subsequently paid in even more than the certificates called for.

G. L. Goddell, in the employment of Matters here in 1913, but now a minister in San Diego, Cal., testified regarding four certificates which Mat-

ters had issued in his (Goddell's) name and which Goddell endorsed so that Matters could negotiate them.

Making Good Progress.

Good progress is being made and attorneys expect the case to be completed in a week or ten days. The first trial took nearly four weeks. Two expert court reporters are taking down every word of the evidence. They took even every question and answer in an examination of the jurors. One of the reporters is hired by the government and the other by the defense.

Contention That Dodder Did Not "Take His Own Life"

Evidence has developed in the Dodder insurance case before Judge Redick, tending to show that Edward L. Dodder, Omaha undertaker and grand treasurer of the Ancient Order of United Workman, did not commit suicide. January 19, last, his body was found in his electric coupe on the road north of Florence and a bullet wound in the head.

James Allen of the Allen Detective agency testified that January 20 he found a patch of blood the size of a man's hand on the garage among the weeds at a point 16 feet east of the culvert at the place where the Dodder coupe was standing when the body was found. Of this place in the road is an unused trail off from the main road, usually traversed only by wagons and horse drawn vehicles, he testified. The spot is isolated between two hills and is separated from the main road by a fringe of weeds.

When the coupe was taken from the Dodder garage the following morning to be cleaned, some leaves and weeds were found mingled with the blood on the floor of the car.

Della L. Dodder, widow of the Omaha man, is suing the Aetna Life Insurance company for \$10,000, payment which was refused on the assumption that Mr. Dodder took his own life. The jury Tuesday went by auto to view the spot where the body was found.

Havner Case Under Way; Sheriff Dunn on Stand

Logan, Ia., Nov. 7.—(Special Telegram.)—Clyde Genung made the opening address to the jury in the Havner case today. In the course of his talk he denounced Havner for alleged mistreatment of Alice Willard for which the grand jury of Montgomery county indicted Havner.

Robert Healy of Fort Dodge made the opening statements for the defense. He lauded Havner and spoke in complimentary terms of Alice Willard.

Sheriff Dunn of Montgomery county was called as the first witness for the state.

The trial is largely attended. The courtroom is packed with spectators every day.

The examination of Sheriff Dunn concluded Wednesday's procedure. The jurors are: W. J. Loyd, farmer; W. C. Wilkins, farmer; C. L. Holcomb, locomotive hostler; E. B. Ellison, farmer; S. C. Cherry, painter; J. T. Smith, farmer; A. F. Jackson, farmer; E. Knadle, farmer; J. C. Ge, bridge builder; C. A. Engelhardt, farm laborer; Jess Sorenson, farmer; J. F. Stoker, farmer.

Red Cross Conference In Session in Chicago

Chicago, Nov. 7.—A conference to permit the interchange of ideas among Red Cross workers was started here today with delegations present from 550 central divisions in Michigan, Wisconsin, Illinois, Iowa and Nebraska. The session is to continue until tomorrow night, and it is believed more than 2,000 delegates will be in attendance.

THE BLOUSE SALE of 1917 starts Thursday and continues Friday and Saturday, offering thousands from our own regular stock at great reductions. It is not often we hold a blouse sale, but when we do it's a real one—so don't miss it. For details see our ad on page 5.

JULIUS ORKIN, 1508-1510 Douglas St. "FAMOUS FOR BLOUSES"

ORCHARD & WILHELM CO. The Best Range in America is the COPPER-CLAD. Looks Best, Cooks Best, Cleans Like a Dish. Factory DEMONSTRATOR Here This Week. It saves fuel as the walls and air space of a thermos bottle holds the heat. You know that a house with a single wall is not as warm as the house with two walls and an air space. The Copper-Clad Range has four walls and an air space. See what it means in fuel saving. See how the heat is wasted by radiation on the three-wall construction and how it is saved by the four-wall thermos construction. Suppose that you save but one shovel of coal at each meal; in a year's time you would save over a thousand shovels of coal. The Secret of "Copper-Clad" Merit. See the four-ply walls of the Copper-Clad. Other ranges have three-ply walls. The inner fire lining, then the asbestos, then, flat against the asbestos, the outer casing or iron range body. When the fire is made the moisture in the asbestos is driven to the cold side against the outer casing and there it starts rust. Notice the copper sheet between the asbestos and body in the Copper-Clad. Copper won't rust, so the sweat from the asbestos can't do any damage.

Receivers Are Appointed For Big Grocery Stores

New York, Nov. 7.—Receivers for the All-Package Grocery Stores company, operating 140 retail stores in New York and Chicago and capitalized at \$25,000,000, were appointed in the federal court here today in an equity suit brought by Isaac Baschko, a stockholder, who alleged that the assets of the concern would be dissipated unless the court intervened to preserve them for the stockholders and creditors.

H. Snowden, Marshal, former United States district attorney for this district, and Herbert A. Emerson were named receivers under \$50,000 joint bonds. They were authorized to continue the business.

MOST OF NORTH ITALY INCLUDED IN WAR DISTRICT

(Continued from Page One.)

as this would leave Venice in the hands of the invaders. Basing his new defensive position on the upper Brenta and the lower Piave, General Cadorna would have a line about 100 miles shorter than that of the Tagliamento and upon it he apparently will give battle to the Austro-Germans for the possession of Venice. Behind this

position the Italians would have better lines of communication and easier access to the great manufacturing cities of northern Italy.

Roulers, an important railway center northwest of Ypres, is now dominated by British guns. Canadian troops yesterday completed the capture of the important part of the Passchendaele-Gheluvelt ridge by taking Passchendaele, Goeborg and Mosselmarkt. The Germans suffered heavy losses and a number of prisoners fell into British hands. Passchendaele dominates Roulers and the plain surrounding the town, which lies five miles northeast.

British Attack in West. The Germans had fought hard to hold Passchendaele and several times recently the British had been checked in attempts to take it. Tuesday the enterprise of the Canadians was too much for the Germans and they had to surrender the position, which means much to the further British progress toward the Roulers-Menin railway, one of the several lines entering Roulers.

Each successful effort by the British brings nearer the inevitable German retirement from the positions directly affected by the ever-widening Ypres salient. A retreat, however, is a menace to the submarine bases of Ostend and Zeebrugge and the city of Bruges, the base of German operations in Flanders, and it is apparent that Crown Prince Rupprecht of Bavaria is doing his utmost to retain the positions now held rather than to retire and straighten his line.

Iowa Second State In Total of Food Pledge Cards Signed

Washington, Nov. 7.—The eight-million mark has been passed on the score board of the family enrollment campaign in the Washington headquarters of the food administration and indications are that when all returns are in they will show that half the people of the country have agreed to support the administration's plan for food conservation. The latest compilation gives a total of 8,020,181.

Iowa reports 144,200 signed pledge cards, which gives it a grand total of 432,000. This figure not only puts Iowa in the group of states which have exceeded their quota, but at one bound places it in second place, both as to total number of signed cards and as to percentage of families enrolled in comparison with population. California, with nearly 450,000 signatures, is still first in totals.

Iowa now has 76 per cent of all its families enrolled for food conservation, being exceeded only by Louisiana, which displays a record of 89 per cent. Maine, which, with 60 per cent, has been second, drops to third, and New Hampshire, with 64 per cent, is fourth. Alaska reports that in one day 650 cards were signed in Juneau and neighboring mining camps.

THOMPSON, BELDEN & CO. The Fashion Center for Women. Teachers Will Find This an Interesting Store. A store filled with good, new merchandise. Fine Serge Dresses \$18.75 \$25 \$29.50.
