# THE PANTORIUM

"GOOD CLEANERS AND DYERS"

Omaha, Neb., March 10, 1918.

To My Patrons and Friends:

Twenty years ago this morning I landed in Omaha and began work at The Pantorium, and have been on the job continuously ever since.

I am taking advantage of this, my 20th anniversary, to thank you for the aid you have given us in building up the business and reputation of The Pantorium.

During the past fifth of a century it has been my constant aim to give our patrons high class work, courteous treatment and reasonable prices, and to so conduct the business that we might gain, not only your continued patronage, but your good will and friendship.

I want you to feel that myself and associates take a personal interest in seeing that you are always satisfied, and that our relations are mutually congenial and profitable.

There are on our books the names of 31 Omahans who have been with us more than 20 years, and 497 who have been with us 18 years or more. To each of you I extend my especial thanks for the confidence and continued support you have given us. And to the more than 5,000 who have joined us in more recent years, I express the hope that all of you will be with us at the end of the next 20 years.

Very truly yours,

# The Secret of Growing

Blackheads Vanish.

HE surest way to make the hair grow long, silky and beautiful is the easiest way. The following method will actually

with a superb gloss of life and vigor than anything else known. You can do it, as thousands of others have already done. A few days' use of this formula, which I gladly make public here, will convince you that what I say is right. Not half of its wonderful work has been told. Just try it. Hair will stop falling, thin spots will fill in, and your hair will be the envy of your many friends. Add one ounce of beta-quinol to a half pint each of bay rum and water (or a full pint of witchhazel instead), and mix thoroughly. Use this mixture liberally every day. It is not oily, and is very pleasant to use. You will find it exceedingly economical.

INQUISITIVE — Soap does not remove from the scalp all the fatty accumulations which ought to come off. These accumulations prevent the hair from breathing. Soap dries out hair and makes it brittle. Use this for a glorious head-wash, and a perfect economical cleanser. Use a teaspoonful of eggol in a half cup of hot water. For twenty-five cents your druggist can supply you with enough eggol to afford a dozen or more of these head-washes.

LONGING—You will never again ask yourself why you "have such a poor complexion"
if you will be sure to use the formula I give
you here, You'll wonder why other we men
"have such poor complexions!" Go to the
drug store and get one ounce of zintone Mix
with two tablespoonfuls of glycerine is one
pint of water. Apply this cream rather thick
and rub it in thoroughly, every day, Every
blemish will disappear quickly, and your
hopes for a queenly complexion will come
true. It never fails to give a queenly, dorable, extraordinary tint and purity to the
skin. ou Will See the Difference In the Length of Your Hair in a Few Days by Following These Suggestions. -Almost in a Twinkling,

HIRSUTE—You can be sure "hat the g is but one sensible way to rems e hairs from the upper lip and, in fact, from any to of the body. It is foolish to "burn" them off, injuring and spotting the akin. Just melsten the hairs with sulfo solution, secured from the drug store for one dollar. This wil actually dissolve away the hairs completely, and leave the skin superbly soft and am oth. It will not irritate the most delicate as n.

WAITING—It is very remarkable can be done in removing blackheads sprinkling a little powdered neroxin wet sponge and rubbing the blackheads it for a few minutes. This does what ing else has ever been able to do—get of them all, big and little ones, Graneroxin at any drug store.

UNDEVELOPED—No one can promise bust development in every case. Use preferably this mixture, which will do the work if anything in the world can: Mix tog ther two ounces of ruetone and half a sup of sugar in a half pint of water. Take two teaspoonfuls after each meal and on rei ring. This has produced wonderful results in a short time.

BERTHA T.—Here is a wrinkle formula which has never failed to do perfect work. You can make it at home in a few moments, and it costs less than any wrinkle treatment you can get at the stores already prepared. Get a two-ounce package of eptol and mix this with one tablespoonful of glycerine in half a pint of water. Apply liberally every day. The skin will grow more plump, and deep lines, crows' feet and other large and small wrinkles will gradually fill out and vanish. You will not need to use anything else for wrin' ROSA G.
