

GERMAN RAID ON PARIS GREATEST YET ATTEMPTED

Nine Are Killed and Thirty-Nine Wounded; Teutons Engaged With Great Air Fleet and Artillery.

BULLETIN.
Paris, March 11.—It is now reported officially that 13 persons were killed and 39 wounded in Friday night's air raid.

(By Associated Press.)
Paris, March 11.—Ten or 12 squadrons of bombing airplanes participated in the German raid on Paris Friday night, according to official information. The casualties were nine killed and 39 persons wounded.

One of the raiding machines was destroyed. An official statement says that an airplane of the Gotha type was found in the forest of Compiègne, where it had fallen while returning from the raid on the capital. The machine had been demolished and its crew of four burned to death.

Some of the raiders came by the way of Valley of the Oise, others followed the route of the Marne, while still others came from the direction of Grell.

Artillery on Planes.
An official account of the raid says that the alarm was sounded at 8:37 o'clock Friday evening and was preceded by cannonading. French artillery opened fire at 8:54 o'clock, producing a violent curtain of fire from all military posts in the regions north and northeast of Paris, which was maintained without interruption until the raiders departed.

Sixty-one defensive airplanes from the entrenched camps of Paris took to the air. A large number of enemy machines were repulsed by the aerial defense and did not succeed in reaching Paris. These machines were forced to drop bombs in considerable numbers in open fields and in the suburbs.

Bombs Destroy Homes.
Although the raiders came in larger numbers than on any previous raid, the bombs dropped in the inhabited districts were far less numerous and they did very little or no damage.

President Poincaré visited the places where bombs had fallen and spoke a kindly word of encouragement to the people whose homes had been destroyed.

During the raid on Paris, French aviators near the front, who kept in constant communication with the capital, took the air and bombarded the airfields from which the enemy machines arose.

New arrangements for sheltering the people, and other precautions worked well and the authorities are generally satisfied that the effects of the raid were reduced to the lowest degree possible.

German Leader Killed.
Grand Headquarters of French Army in France, Saturday, March 9.—The commander of the German airplanes which attempted to terrorize Paris, Captain Fritz Eckstein, and three companions, one of whom was an officer of the Emperor's White Cuirassiers from Potsdam, were killed when their machine crashed down in the Compiegne forest. It is questionable whether the commander ever reached Paris.

The German machine was of the latest model. It was built at Friederschafen. The wings had a stretch of 80 feet.

Preserve Morale of War Workers Same as Sammies
New York, March 10.—A nationwide plan to preserve the morale of workers in war industries by providing them the same social opportunities afforded American soldiers here and in France, was announced tonight at the international headquarters of the Young Men's Christian association.

Young Men's Christian association huts will be established within six months near most of the munitions plants and shipyards of the east, and it is expected that before the end of the year huts will spring up over the entire country. Moreover, the Young Men's Christian association will offer to put trained secretaries in every large industrial plant.

30,000 Gather at Burial Of Late John Redmond

Kingston, Ireland, Saturday, March 9.—The body of John Redmond arrived here this morning and was conveyed by a special train to Wexford, where it was buried in the family vault.
Fully 30,000 people, who had come from all parts of Ireland, escorted the coffin from the station to the church of the Immaculate Conception, where the requiem services were held. Among those present were officers of the British and American naval forces.

Speakers Listed for Next Liberty Bond Campaign

More than 125 speakers for Nebraska already have been listed by Raymond Young for the next Liberty bond campaign. They will begin their speaking campaigns in Nebraska April 6. Mr. Young, who has charge of the speakers for the state, is urging that every preacher in the state hold a public meeting Sunday, April 7, at which time the importance of the bond issue will be explained.

Aviator Killed; Student Injured at Pensacola

Pensacola, Fla., March 11.—Machinists Mate Sazio of Rome, N. Y., was killed and Student Aviator Nash seriously injured in an airplane accident last night at the naval aeronautics training station near here. Officials at the station issued an announcement of the accident today, but gave no details. Nash's home address was not announced.

POLITICAL SHRAPNEL

Dahlman Democrat Says His Wing Will Give Somebody the Jim Jams.

B. J. (Barney) McArdle is circulating a petition for Edward A. Smith for city commissioner. Mr. McArdle trains with that wing of local democracy known as the "Jims." "We are going to give somebody the jim-jams," remarked a Dahlman democrat. According to words uttered by McArdle, Edward A. Smith is in the position of the job seeking the man, rather than the man seeking the job. "We shall see what we shall see," commented another Jim democrat.

A man who claims to get his political dope right from "headquarters" handed out this little sample package yesterday while the sun was shining: "Last Saturday the petitions of Mayor Dahlman and City Commissioners Hummel, Withnell and Parks were filed together, en bloc, or in a bunch, whichever way one wishes to take it. It has been known for some time that an entente cordiale existed between these four members of the city administration. Listen, here is the 'consummation devoutly to be wished': An effort is being made to fill in a ticket with Thomas Falconer, T. P. Reynolds and H. W. Dunn. Not much noise is being made about it. In fact, it has been stated that there will be no administration combinations before the primary, but you can't tell by the looks of a mule whether he likes you."

The socialist party of Omaha is promoting the following combination of candidates for the city commission: Mrs. Thor Jorgensen, George Kapinski, H. Forman, Edmund R. Brumbaugh, Peter Mehrens, J. I. Taminoian and Jesse T. Brillhart.

L. J. Quinby, 123 South Twenty-fifth avenue, and Jabez Cross, 217 Sherman avenue, have filed, making 44 in all who have complied with the formalities up to the hour of going to press. Quinby is a printer by trade and known as a single taxer. Cross operated a Douglas street saloon for years.

W. G. Ure said: "I am completing my petition and expect to file it within the next day or two." Mr. Ure was county and city treasurer five years and county commissioner three years, and has just retired from the local Red Cross organization to go back into politics.

Mae Nace Discharged on Motion of Prosecution

Mae Nace, 18-year-old girl, who figured two months ago in an automobile accident involving alleged bootleggers, was discharged by Judge Britt in municipal court. The dismissal was entered without prejudice and was on motion of the prosecution. Inability to obtain the presence of John Beavers, chauffeur, was given as the reason for dismissal.

Americans Permit Germans to Pick Dead Bodies From Wire

(By Associated Press.)

With the American Army in France, Saturday, March 9.—Some of the Americans in a listening post in front of the line northwest of Toul early this morning discovered an enemy patrol firing their own wire and promptly opened fire. The Germans retreated, leaving two of their number hanging on the barbs.

Some hours after daylight, a party of Germans, two infantrymen and two Red Cross workers, started for their comrades entangled in the wires. The Americans saw the Red Cross brassards and did not fire on the party, which removed the bodies.

There has been increased sniping activity along the whole of the American front during the last 24 hours. One enemy post gave the Americans special trouble during the night, placing well-aimed bullets on certain points of the line. After daylight the post still continued working from shell holes with periscopes. American snipers tried to silence the enemy from their line, but were unsuccessful.

A sniping patrol was then organized by the Americans and went out in broad daylight. The result of this

SWEDEN LOOKS WITH DISFAVOR ON FINN TREATY

Believe New and Greater Menace Than Russia Now Hanging Over Scandinavians.

By CARL LUNDBURG. (Special Cablegram to New York Tribune and Omaha Bee.)

Stockholm, March 11.—The orientation of Finland to Germany's side is now an accomplished fact.

Wolf's bureau, the German official news agency, in which the kaiser recently was revealed as one of the largest stockholders, published this morning the treaty between Finland and Germany, terminating the state of war, but which Germany guarantees the independence of Finland, but Finland cannot cede any part of its territory without a previous agreement with Germany.

Fortifications also must be removed from the Aland islands, and a special convention will decide that the islands shall remain unfortified. This morning's Stockholm papers sound a warning that it is time to take notice of the probability of the Russian danger being changed into a German-Finnish menace. They refer to the deposition of the Aland islands as a happy ending for German operations in the Baltic, and recall the recent words of the Finnish foreign minister, Sarito, indicating that Finland's orientation will have an economic and political effect upon Scandinavia.

"Germany," says one editor, "will put herself on guard against an eventual transit of commerce by Sweden. The fact that Finland places herself under German protection is only another reason to awaken our attention. The German program of control from Bagdad to the North Cape, met an obstacle in the south, but by the way of Finland, she now extends a menacing hand toward the north."

"Von Kuhlmann is said to have explained at a secret Reichstag meeting that the German expedition to Finland was required by the necessity to prevent Swedish intervention particularly in the Aland islands, and to create in Finland animosity toward Sweden."

Army Orders.
Washington, March 10.—(Special Telegram.)—The following named officers of the veterinary reserve corps are assigned to Camp Dodge for duty: Second Lieutenant Lloyd F. Foster, Spencer K. Nelson, Fred Middleton.

The appointment of James P. Price Roberts as second lieutenant in the aviation section, signal corps reserve, on duty at Fort Omaha, is announced.

Brief City News
