### ZIMMAN TALKS **TO OMAHA VOTERS** ON CITY TOPICS

Sketches History of His Service in City and Puts in Plea for Change of Govern-

Harry B. Zimman, candidate for city commissioner, discussed municipal problems before gatherings of voters in Druid hall, Twenty-fourth street and Ames avenue; Sixteenth street and Capitol avenue and Twenty-fourth and Farnam streets last night.
In Druid hall he related a few of

his experiences as a former city councilman and urged every citizen to take an interest in this election as a mat-

ter of civic pride. "Hundreds and thousands of cititens in the past have been misguided into voting for candidates who prom-ised home rule, personal liberty and lection and after election none of hese promises were fulfilled," he

"I have had experience as council-man and while in the council it was my aim to understand municipal afrs. I have made a study of inricate problems affecting the city of Omaha. For nine years that I have been out of public service I have been as diligent in city affairs as when in office. Although not a member the new council, I went before that dy and urged passage of the occu-tion fax measure. Were Very Worried Over Her Condition-Tanlac Restores Health.

Like a vast forest fire, springing from a single spark, the fame of Tanlac has spread from a single testimonial, given in its behalf a little over three years ago, until now approximately nine million (9,000,000) bottles have been sold and its praise is being heard all over the United States and throughout the Dominion

of Canada, as well.

Multiplied thousands have testified to the benefits they have derived from the Master Medicine and in every case, where a fair test of its power is made, another enthusiastic witness is the invariable result. Oliver Elliott, a valued employe

of the Phoenix Investment company. living at 2627 Hamilton street, called at a Sherman & McConnell drug store for more of the medicine for his mother recently, and in telling of the benefits she has derived from its use, said: "We all certainly think a great

deal of Tanlac at our house for the wonderful amount of good it has done mother. She has been sick now for a year or more and had gotten to where she couldn't get about much. She had peculiar aches and pains in and about her stomach, which would come and go at intervals, and no one seemed to understand the cause of them. Her strength about all left her, she became somewhat nervous, and nothing we could do seemed to help her

"Finally, after reading so much about the benefits others were getting from Tanlac, she decided to try it and it has done her more good than anything else she has ever taken. She began to show improvement with her first bottle and she has been steadily getting stronger and better all the time. The pains have grad-ually disappeared from about her stomach, her nerves are more quiet and she says she feels better than she has in a long time. Her condition had become a source of worry and anxiety to us all, but now she is getting to be like herself again and we are glad to recommend Tanlac as an unusually fine medicine."

The stomach regulates the condi-tion of the blood and is the fountain head of health or disease, as the case may be. Tanlac is intended primarily for the regulation of the stomach and the correction of catarrhal inflammation, but it is no uncommon thing for people who have used it to find that it has relieved them, not only of indigestion, but also of rheumatism, kidney complaints, and many other ailments not generally recog-nized as having their origin in stom-

ach trouble. Tanlac is sold in Omaha by Sherman & McConnell Drug Company, corner 16th and Dodge streets; Owl Drug Co., 16th and Harney streets; Harvard Pharmacy, 24th and Farnam streets; Northeast corner 19th and Farnam streets, and West End Pharmacy, 49th and Dodge streets, under the personal direction of a special Tanlac representative.-Adv.
