Coffee Market.

New York, June 5.—The market for coffee futures was easy. The advancing tendency of the last two or three days had reflected a firmer ruling in Brazil and possibly uneasiness over imports. There was no real anxiety regarding shipping conditions as affected by the appearance of German submarines in American waters, however, and the market today responded readily to declines in Brazil, with September selling off to 8.26c and December to 8.38c. The opening was 6 to 9 points lower and the close showed a net loss of 14 to 15 points.
