GERMAN PEOPLE TIRE OF WAR **ANDWANT PEACE**

Professor Nicolai Tells of Conditions Existing in Germany, Where Crime Goes Unrestrained.

Copenhagon, June 24 .- "The German soldiers generally are tired of the war, but the patience of the people as a whole, especially the middle classes, is marvelous in view of the prevalent unfavorable conditions," said Prof. G. F. N. Nicolai, former professor of physiology at the University of Berlin when questioned today regarding conditions in Germany. Professor Nicolai, was one of the

men who escaped from Germany last week in airplanes, landing in Den-"In official circles,"," continued Professor Nicolai, "the war is expected to last a long time yet, but among the people the opinion is expressed by many that the present

offensive on the western front will sion of the guns, adjusting the barrage phone lines under heavy shell fire be decisive. While the people genbe decisive. While the people generally are patient, at the same time fantry. they are anxious for peace, the professor declared. Food Conditions Bad.

"Food conditions in the empire are extremely bad, Professor Nicolai reports. As against the disappoints by gas. Sent to hospital.

"Lt.-Col. John A. Crane, sixth field ment from the failure of the Ukraine supplies to come up to expectations, however, some encouragement had been received from the recent rains, which it was hoped, would result in the production of better crops at

home than last year.

"Nothing appears in the German papers," the professor stated, "regarding the many effective enemy air

raids upon German cities.

Crime on Increase.

Owing to the scarcity of all kinds of commodities, robberies and burglaries have greatly increased, and even in the first class hotels the guests do not venture to leave their clothing or shoes outside their doors for cleaning. As for soap, one finds it necessary to keep it in one's

pockets.
"Although taxes are constantly increasing, the payment of the interest on the war loans is not covered, and it is expected that in future only 2 per cent of the interest on the 5 per cent loans will be disbursed, the remainder being added to the principal."

HUNS MAY CHANGE WAR PROGRAM

other measures are beginning to place at General Foch's disposal enough reserves to enable him to strike hard at any weakened point, but the transportation of a sufficient force to offset

be slow.

Secretary Baker pointed out that the Italians took full advantage of the rise of the Piave behind the enemy.

Indications are that the flower of the Austrian army has been virtually annihilated and the Italians are driving home their victory relentlessly.

Every day means further disorganization among the Austrians. At the present rate, German reinforcements must arrive quickly and in force, many officers believe, unless the Austrian war machine is to be crippled at least for months to come.

Corp. William Robbins: Shrapnel wounded a kilometer and a half to a dressing station to help other wounded; died.

"Corp. Winslow Corbett, machine gunner heavy machine gun fire. A dashing example of bravery.

"Lt. Lee S. Dillon, engineers: Exposed to heavy machine gun fire and unsheltered he successfully conducted working parties for five days."

Levery day means further disorganization among the Austrians. At the present rate, German reinforcements must arrive quickly and in force, many officers believe, unless the Austrian war machine is to be crippled at least for months to come.

Food Riots Serious.

Corp. William Robbins: Shrapnel wounded.

"Lt. Moses E. Cox, engineers: For bravery and leadership in conducting the second construction of a strong point under heavy machine gun fire. A dashing example of bravery.

"Lt. Lee S. Dillon, engineers: Exposed to the company commander and asked for two fine to operate the gun; crawled 200 yards to the trenches to turn in parts of guns in his pockets.

"Lt. Cyrus Garnsey: Gallantry in aiding Corporal Flint under heavy shell fire.

"Private Harry F. C. L. Cyrus good condition, be careful what in good condition, be careful what in good condition, be careful what in good condition.

Food Riots Serious.

Meanwhile official reports show the growing seriousness of food riots in Austria. The people apparently are in no condition to stand a great military reverse. Immediate German action to support her ally seems absolutely necessary in the view of officials here, unless the backdoor to Berlin itself is to be left unguarded.

There have been many signs re
"Private Harry E. Schaeffer: Wounded three times by shell as gas sentry while warning drivers of army trucks of the danger of gas during an attack.

Rescues Wounded Comrade.

"Private Harry E. Schaeffer: Wounded three times by shell as gas sentry while warning drivers of army trucks of the danger of gas during an attack.

There have been many signs re-cently that General Foch was rapidly getting into shape a strong reserve force. The employment of the Am-erican and Italian divisions has served to release French troops for rest and rehabilitation.

There are indications also that the effect of the British man power legislation is being felt at the front. The divisions which suffered severely in

the German assaults apparently have been out of the line for some time. The recent successful resistance of the Italians near Rheims was in po-sitions formerly held by these British

Where Experts Differ.

Whether General Foch is prepared to take advantage of the diversion

to take advantage of the diversion caused by the Austrian disaster cannot be foretold. Some observers here, including Italian officials, believe that the situation on the Italian front is so grave for the Germans that they would be compelled to transfer their main operations to that theater, leaving only defensive forces in the west. Some officials, here, however, expect the Germans to hit hard in France in order to cover whatever other steps they are compelled to take for the relief of Austria. Repeated blows along the allied front, it is argued, would tend to keep General Foch from inaugurating an inter-allied offensive in Italy and might impede plans for a great counter drive in France.

The accelerated movement of Am-

The accelerated movement of American troops to France is going ahead without confusion. There is certainty in the minds of high officials that in excess of 1,000,000 men will have been shipped before July 1. Originally it was not hoped to reach this figure, but the shipping obtained from Great Britaint has proved sufficient to increase the program.

Father of Six Children

Hears Call of His Country The heritage that George T. Mc-Danial, 36 years old, of Plattsmouth. will leave his six small children is that their father enlisted to fight for the honor of the country. McDaniel is a blacksmith and Monday enlisted as machinist's mate in the United States navy.

Tubbs Seriously Injured H. A. Tubbs, 4123 Binney street, received a fractured skull about 9 o'clock Monday night at the home of C. B. Kepling, 4111 Wirt street. Tubbs was assisting Kepling in pulling the pipe from an old well. A pulley broke and struck him on the head. Dr. Foltz attended him and he was taken to the Lister hospital. His injuries are considered critical

"Priv. Frank D. Ward: Asked permission to go into action and advanced 60 yards and killed a German sniper who had caused great casualties. He was buried twice by shell

fire, but not wounded.
"Lt. Moses E. Cox, engineers: For

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsi-fied cocoanut oil (which is pure and entirely greaseless) is much better than the most expensive soap or anything else you can use for shampoo-ing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to

manage. You can get mulsified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—Adv.

Used Check Without Funds

To Buy Automobile

Harry Lee, a farm hand at Sterling, Ill., was arrested Monday by Detec-tive Sergeant Van Deusen in Missouri Valley, Ia. He is charged with giving a check on a bank in which he did not have sufficient funds. Police allege that Lee bought an automobile from the Auto Exchange, 2107 Farnam street, and in payment gave a check for \$550. Upon payment being refused on the check surrounding towns were notified and he was caught in a garage in Missouri Valley.

Method of Selecting Men for

National Army Unchanged Washington, June 24 .- A second lottery, to determine the order of call for the 744,865 men registered June 5, will be held, probably Thurs-

day or Friday. The procedure will be similar to that of last year when nearly 10,000,short lines, as well as to the bigger 000 men were given their relative places in the draft. The same bowl will be used with capsules containing numbers up to the largest number of registrants in any district in the country. Last year 10,500 capsules were provided, but the number this year will be much smaller.

A NEW COMPANY

Announcing the

STANDARD"8" The Magneto Equipped Eight

THE Keystone Motors Corporation announces the formal opening of their new sales room at 2203 Farnam street, at which location a complete line of Standard Eight models will be displayed.

Monday, Tuesday and Wednesday the sales room will be open evenings. A cordial invitation is extended to every one to visit the new location and inspect the beautiful cars.

The Standard Eight has created much enthusiasm in the east owing to its many individual features, its distinctive appearance and excellent workmanship. It is built by the Standard Steel Car Co. of Pittsburgh, Pa., builder of world-famous railroad rolling stock.' The Standard Steel Car Co. is a company with resources of over \$100,000,000. Their rolling mills alone, in which they make most of their own steel, represent an investment of millions. No car has ever been backed by resources more adequate and lasting than the Standard

Eight. **Keystone Motors Corporation**
