#### Why, Yes, Certainly. Omaha, July 20 .- To the Editor of

The Bee: Now will you be good? You see if a republican congress is elected there will be bonfires in Berlin. As for curself, we (that's me) have a standing offer to become a democrat when any one of the some millions calling themselves as such can show us where we would better ourself.

Now we see: won't you please come away from the black guards and join our happy band? One fellow said we (meaning me) was "easy." He said soft soap would "be higher in 1918 than it was in 1916," alluding sarcastically to Senator Hitchcock's speech at Broadwater in the latter year. Of course, if they use up all the soft soap until the demand exceeds the supply the price is bound to soar, but you see some one is try-ing to spoil the democrat pow-wow or love feast by naming the soft soap-

ers. Now that isn't right. The minute anyone enlists in this war he is supposed to become a democrat. In 1861 the program wasn't so strict but look how much wiser we (us democrats) are than the republicans were in '61 or ever will be.

Oh, we are on to you republicans. Give you the least chance and a bloody shirt and you will wave it all over kingdom come and spoil our chance to get the kaiser. We want to reform him. See what an influen-tial man he is and how much good he can do if we only instruct him in the rudiments of courtesy. Besides, if you try to send any men to Washington they may burn down the city hall in Berlin in their fits of enthus-iasm. O my! Why it's down right treason to be a republican now, when President Wilson expects every man to be a democrat. We sometimes just naturally wonder at the audacity of some people when we try to run things right and they just want to make us run them into the ground.

A DEMOCRAT FOREVER.

Omaha, July 20 .- To the Editor of The Bee: In Zephaniah, third chapter and eighth verse, you will find the word of God reading like this: "Therefore wait ye upon me, sayeth the Lord, until the day that I rise up to the prey; for my determination is to gather the nation that I may assemble the kingdoms to pour upon them mine indignation, even all my fierce anger; for all the earth shall be devoured with the fire of my jealousy. For then will I turn to the people a pure language that they may all call upon the name of the Lord to

serve him with one consent." I don't like the idea asking the Lord to change his plans made in the creation just to please a few people or a whole nation or kingdom. I believe after reading these verses over several times things are being worked out in this great war right now. I often wonder why some one don't preach on this text G. S.

#### THROWN AWAY? It is the concensus of opinion that not in years

have the republicans of Nebraska had such inviting opportunity to regain control of the state, and not only hold but strengthen their representation in congress. On the war issues, the republicans of this state have been essentially sound while the alliance for mutual benefit of the democrats with the traitorous German-American alliance is notorious. Our people generally have been disappointed by democratic failures and shortcomings and are ready to turn to the repubbetter.

Is this opportunity now to be thrown away by fool-hardy repetition of past mistakes?

To call'a spade a spade, while Nebraska by rights belongs in the republican column, it has passed to the democrats solely by reason of republican dissension and division. What has been accomplished toward reunifying the party and reorganizing it upon sanely progressive lines is now in danger of being jeopardized and undone by the submerging of the party's interests beneath eslfish personal ambitions and over-weening greed for power regardless of results. Is it any wonder the democrats can scarcely repress their jubilation at this hoped for but unexpected turn in their favor?

In other states those in responsible charge for the party recognize it as their duty to build up rather than to tear down, to mobilize the party forces and close up the ranks for a united front against the political enemy rather than themselves to start cross-firing between their own lines.

Nebraska republicans, if we mistake not, want no "bosses" and no "machine." They want broadminded and efficient leadership, leadership that puts patriotism above partisanship but also puts party above self-serving and is willing to rest claims for recognition and reward upon achievement. It is not too late, in The Bee's opinion, to avoid reopening and widening the factionalism that has sent the party banner to so many successive defeats. But if the lesson of experience is not heeded, if the ammunition and fighting strength are all used up needlessly in a preliminary scrimmage, what is now a fine opportunity to rout the democrats in the November

Out of the welter along the Marne shines one encouraging fact-the army of the crown prince of Prussia is retiring from along the river, and in a general way is giving up the ground it gained at such terrible cost in four great drives, beginning in March. Thus has another of the great attempts of the crown prince to reach Paris been thwarted. At Verdun he entered upon what then was the greatest battle of history, pursuing it for ten months without remission, only to lose all the ground he had gained in a fortnight under a well timed counterthrust by the French. His sweep across Picardy, starting on March 21, opened the most stupendous battle yet recorded. The advance to Montdidier on the way to Amiens and to a crossing of

THE BEE'S SERVICE FLAG.

Oh, no! The raw Yankee can't fight!

Muggy weather? Yes, but think what it is doing for the corn.

Unless signs fail, "Met" will now have another taste of the "sting of ingratitude."

As usual, the bolshevik reublicans rush at once to the hyphenated democratic organ for aid and comfort.

Well, the "Jims" gave the "Jacks" the customary kick, and the recipients will smile and take it, as usual.

When the U-boat invades the exclusive precincts of the sacred codfish, the desperation of the Hun is apparent.

It is not hard to tell which candidates are depending upon the questionable Nonpartisan league bunch to put them over.

The Bee's Free Milk and Ice fund for the relief of hot weather little tots responds to every worthy call. It is 100 per cent charity.

Berlin will thrill when it learns how a U-boat sank a couple of barges and threw some shells ashore off Cape Cod. Another chapter of that adventure may be written later on.

The sad feature of Senator Sherman's satirical speech in the senate is that it rests on established facts as to the mismanagement of the publicity department of the war activities.

With Kronprinz "Willie" sending out "S. O. S." and Kronprinz Ruprecht answering "25," the situation in France is fairly summed up. N. B .- In telegrapher's parlance, "25" means "busy on another line."

Omaha offers the republicans of the state a candidate for senator, two candidates for gov-

ing in every democracy. Republicanism is

"What their (the republican) campaign essentially the party of strong nationalism

ernor, a candidate for lieutenant-governor candidates for a few other state offices. On the democratic side Omaha patriots are almost as numerous. There is no shortage in the political crop in this vicinity.

Nine hundred more "physically fit and morally competent" young men marched away from Omaha yesterday to enter on the greatest assignment of their lives. The spectacle was one to inspire a patriot, and the boys took the send-off they got as an evidence that the home folks are back of them to the finish. All over the country similar sights were noted, the outward signs of a great free people moving in defense of its liberty. Tyranny can not withstand such force, no matter how strongly it is intrenched.

#### Federal Farm Loans and the Future.

Washington records the fact that in June the several federal farm loan banks put out \$8,343,430 long time loans to the farmers of the country. The Omaha bank loaned \$804,950 of this. This is at the rate of \$75,000,000 a year for the country, which is quite up to the program scheduled by the government. Its real significance is that the agricultural industry is being financed on a much sounder basis than heretofore. While it is true that the farmer who can borrow from the government could get the money from private sources with equal facility, the main advantage lies in another direction. Government loans are made on a conservative valuation. Therefore the borrowing now is not a mortgage on the future at a land value resting on its earning capacity fixed on war prices. When the reaction comes, as it must during the period of readjustment certain to follow after peace, these borrowers will not find themselves hampered because of a heavy burden of interest charges. It is noteworthy, too, that in the Omaha district at least, a considerable proportion of the borrowing has been to refund other loans at longer time and lower interest. Thus the farmers are getting themselves onto sounder financial footing, which presages well for agriculture as a whole.

mains to be seen, but the rear guard of the retreating Germans can testify to the persistence and effectiveness of the Americans in warfare of movement, while the French are pounding away with equal effect. On the other end of the line the British are "nibbling" to an extent that must be very disconcerting to Crown Prince Ruprecht of Bavaria, who is having all he can do to maintain his position, and does not evince much eagerness to start another "push" for the Channel ports. Altogether, the cause of the kaiser is faring badly in France and Flanders just now.

#### Joint Intervention in Siberia.

While the Washington authorities still are reticent as to the exact conditions on which the move is to be made, the acceptance by Japan of American terms makes allied joint intervention in Siberia certain. The good that is to come from this is hardly to be overestimated. It will, as pointed out in The Bee several days ago, provide a central point from which to spread orderly government throughout Siberia and ultimately into Russia. Little reason to dread the effect of the move on the Russian people exists. Assurance from the Allies of the nature of their intentions will bring support from the "intelligentsia" and enable them to move to once more establish decent conditions of living and eventually responsible government in the disrupted empire. That the bolsheviki will not be reconciled at first is clear, for it means an end to their misrule, but their hold is already slipping and their capacity for harm has been exhausted. Germany will make even more desperate efforts to gain possession of western Russia, but it is doubtful if much headway can be made by the kaiser in the way of reorganizing the country he has invaded. In any event, the moral effect of the presence of a strong force of well intentioned friends on the Russians who yet hope to secure freedom and set up a government of their own must be for good.

shows the quantity of condensed milk ex- was 401,000,000 pounds, against 166,000,000 in ported in the fiscal year 1918, ending with the current month, June; will approximate 600,000,000 pounds, against 260,000,000 in the fiscal year 1917, 160,000,000 in 1916, and but 7 000 for the large quantity of milk use 37,000,000 in the fiscal year 1915. The stated value of the condensed milk thus exported agregates for the fiscal year 1918 about \$70,000,000, and when we add the other contributions of the cow, butter and cheese, the total value which she has contributed to the exports, including supplies sent by the government, will aggregate in round terms \$100,-000,000, against \$50,000,000 in 1917, \$25,000,-000 in 1916, \$13,000,000 in 1915, and less than \$3,000,000 in the fiscal year 1914, all of which immediately preceded the war. Thus the American cow's contributions to

the export trade of the United States have jumped from less than \$3,000,000 in the fiscal year of 1914 to \$13,000,000 in 1915, \$25,000,000 in 1916, \$50,000,000 in 1917 and \$100,000,000 in 1918. These figures are necessarily in very round terms, especially those for the fiscal year 1918, for which the record is not yet complete. But from the actual figures now available, covering in detail the 11 months ending with May, we may safely say that the total value of the dairy products sent out of continental United States in the year ending with the current month, June, 1918, will aggregate in value nearly \$100,000,000, of which condensed milk alone will approximate \$70,-000,000, and of butter and cheese about \$6,000,000 each, while the quantities supplied for use on naval vessels and government transports, and not included in the government's export record, may easily bring the grand total to \$100,000,000.

The bulk of this large and rapidly increasing exportation of dairy products goes to the men in the trenches. Of the 400,000.-000 pounds of condensed and evaporated milk exported in the nine months ending with March, for which detailed figures are available, 178,000,000 pounds went to Great Britain, 000,000 to the Philippines, 10,000,000 to China hospital insignia-its white and saintly guise, and Japan and 10,000,000 pounds to British indeed, serving only to render it easy game South Africa.

Butter and cheese exports' in the fiseal year 1918 show a marked decline, when com-pared with 1917, while condensed milk, on Transcript.

for gullible Austrians.

Louisville .Courier-Journal:

the same months of 1917, and 90,000,000 in

The large quantity of milk used in the production of this 600,000,000 pounds of the condensed article sent out of the country in the fiscal year 1918 was produced chiefly in the stretch of country fronting upon the Great Lakes, New York, northern Pennsyl-vania, Ohio, Indiana, Illinois, Wisconsin and Michigan. The largest part was from the dairy farms and condensed milk factories in New York, next in importance from those of Wisconsin, but in lesser quantities from the other states above named, while considerable quantities have also been supplied from Utah and the Pacific coast.

The value of the condensed milk exported from the United States in the fiscal year 1918 actually exceeds the value of all the condensed milk produced in the entire country in 1914, the latest census year.

## Piling Up the Debt

It may well be asked whether the civilized nations of the world could ever afford to allow the mention of the word "peace," except in scorn, while such outrages as the German attack on the hospital ship Llandovery Castle remain unatoned. Could any peace to which brave men are a party fail to exact full and exemplary punishment for crimes which would be far beyond the malignity of an Apache Indian to commit? And there is a long list of similar outrages awaiting explanation. In this particular case, on the mere suspicion in the submarine com-

mander's mind, or more probably on the erroneous information of some spy, that Amer-ican aviators were aboard the Llandovery Castle-the captain of the ship meanwhile giving his word of honor that he carried none but patients, medical staff, sisters and civilian crew-the ship was deliberately torpewhence it was presumably passed to the men doed, and many of those angels of mercy on the battlefield; 70,000,000 pounds direct were drowned. Consider that this hospital to France, 17,000,000 to Belgium, 11,000,000 ship, like the others, was running without to the Netherlands, 20,000,000 to Cuba, 10,- protection, with lights burning and its usual indeed, serving only to render it easy game for these hyenas of the sea.
