HOG RECEIPTS IN **SOUTH OMAHA FOR** JULY ARE RECORD

Already 267,684 Porkers Have Arrived This Month; Farmers Responding to Government Appeal.

All records have been broken this months in hog receipts at the Omaha live stock market. Thus far 267,684 hogs have been received here this month. July, 1917, was the last record-breaking month, in which 260,-535 porkers were received. Total receipts to date exceed last year's by 241,242 head.

The increase is due largely to the efforts farmers have made to increase the supply. Another reason is the high prices which induce farmers to ship hogs instead of holding them until August. Boosters for the local market claim that it is the natural result of Omaha's recognition as a logical hog center.

The motor truck industry has been an additional factor. This has made shipments less spasmodic and has resuited in a more even distribution to market centers.

Quality Is Good.

Quality of the hogs received here is keeping up remarkably well. There is an absence of both the rough heavies and thin stock usually received about this time every year. Most of the hogs, including the heavies, are received in smooth condition. Even sows where a trifle baggy have broad well filled backs, indicating an effort to use the valuable feed on hand to good account.

It is a well known fact that hog raisers in this section are of bullish tendency. They have faith to hang on for an opportunity to add a little more weight, knowing they will soon have another chance to make up part of a load. Quality of the heavy hogs this summer has been the subject of more than one conversation. Hogs this month are averaging five to 10 pounds more than this month last year. The average for June this year was 248 and July last year 245 pounds, while the average for the month will be close to 252 pounds.

Bohemians Plan Big Bazar For September At Muny Auditorium

With the purpose of raising funds to aid the Czecho-Slovak troops which are fighting in the interest of the allies in Russia and on the French front, the citizens of Bohemian birth in Omaha are planning a great "Liberty Bazar," to be held in the Auditorium the first week in September. This affair is in charge of a committee of which Charles Stenicka, 1412 South Thirtenth street, is chairman. Already, with no public effort, money and articles amounting to almost \$20,000 have been pledged. It is planned to put on a sort of drive, by circulars, during the week of July 28, asking the aid of the loyal and liberty loving people of the city

The committee feels that the valiant work of the 60,000 Czecho-Slovak troops in Russia, the 200,000 in the Italian army, and the 180,000 in the French army has been such as to justify a generous response to this appeal. These troops, especially those operating in Russia, are practically without financial support except such as is voluntarily given them.

The movement in Omaha has the hearty support of Secretary Baker, Governor Neville and other prominent persons.
