MIKADO'S TROOPS FIRE ON RIOTERS IN NIPPONESE CITIES

Thirty Thousand Persons Take Part in Disturbance at Nagoya; Mobs in Tokio Destroy Property and Pillage Houses: Social Unrest Thought to Indicate Approach of Crisis in Empire.

Tokio, Aug. 18 .- Troops have been called out in nearly every important city of Japan. Even the naval station at Maizuru is affected by the unrest.

At Nagoya, noted for its manufactures of porcelains, a mob estimated at 30,000 persons rioted. At several places the soldiers fired on the disturbers.

At Kobe the soldiers and police also were obliged to use sabers and bayonets. The disturbance resulted in the burning of a great rice warehouse and several factories and houses and

a large number of rice stores. Disorders broke out in Tokio on® congregating in the park marched to the Ginza, the great thoroughfare of the city, where they Tuesday night. It is remarked that the uprisings are often anti-capitalistic, mobs destroying the property and voicing anger at evidences of luxury. Geisha girls have been stoned in the streets and the houses of the rich have been assailed. The war has increased the luxuries of the rich and the misery of the poor, as insufficient wages are paid. The riots are the first of the kind to occur since Japan was opened to western civilization.

Emperor Contributes Liberally. The seriousness of the situation led to a special meeting of the cabinet, which decided to appropriate \$5,000,-000 for purchasing stores of rice for distribution among the people at a moderate price. The emperor moved by the distress, has contributed 3,000,-000 yen to the national rice fund. Street cars are being utilized in Tokio by soldiers, who distributed rice in districts, where the suffering is re-

The press joins in a tribute to the emperor for his generous contribution, indicating the spirit of the rulers and the wealthier classes, but the newspapers generally blame the government for its tardy remedies. The conservative newspaper, Jiji Shimpo, especially criticises the government. and says that as a result of its policy the nation finds itself in the throes of insurrection.

Several millionaires have contributed \$100,000 each to purchase rice for the poor. The Mitsui and the Iwaski families have each contributed \$500,000 to the fund. There is an abundance of rice in the empire, but it is held in storage by farmers and brokers. The government's aim is to force the rice market. but 'it has avoided regulating the

Dons Deliver Ultimatum

Paris, Aug. 19.—The Spanish note to Germany relative to the sinking of Spanish vessels by submarines constitutes an ultimatum, since the Spanish government announces that a German vessel interned in any Spanish port will be seized for every Spanish ship torpedoed, according to a Havas dispatch from Madrid quoting the A. B. C. of San Sebastian, .This information was given the A. B. C. by a "high political personage."

In commenting on the situation, the A. B. C. says:

We regard it a very natural duty for the government to protest energetically concerning every case of torpedoing our merchant fleet and, if Germany does not give the satisfaction due, we should reach the position which the country's honor

BRITONS ADVANCE

2,000 YARDS WEST

London, Aug. 18.—The British troops west of Armentieres have advanced their line to a depth of 1,000 to 2,000 yards on a four mile front between Vieux Berquin and Bailleul and also made progress southwest of Merville, according to the official statement issued this evening. The village of Outtersteen and 400 prisoners were captured.

An advance also has been made between Chilly and Fransart, lying north of Roye.

British Headquarters in France, Aug. 18.—(Reuters)—The British this morning attacked the Fourth Saxon division holding Outtersteen and expelled it from the village and from the adjoining ridge.

Paris, Aug. 18.—There has been spirited artillery fighting in the region between Canny-Sur-Matz and Beuvraignes, says the French official communication issued this evening. South of the Ancre river in today's fighting, the French took 400

During the day the French and Americans

averaged two shells to the enemy's one. Saturday night American patrols made excursions at various points, going as far as the enemy's barbed wire and trenches on the hills, but they did not encounter any German infantry.

The Americans who have dug in along the Vesle are being harassed by the German artillery and gas projectiles. The Germans made a vicious gas attack Saturday on the north side of the Vesle. They used artillery first and then followed with

gusts of mustard and "sneeze" gas.

GAS ATTACKS UNSUCCESSFUL.

These gas attacks have not met with success and the Germans evidently are aware of it. They sent four airplanes which attempted to direct the firing. The Americans have protection down to such a system that

they are not bothered. During one attack the Americans wore gas masks and worked on a bridge they were building across

Anti-aircraft guns and shrapnel drove off the enemy aviators who were trying to point out locations for attack by enemy guns and finally the gas shell's ceased falling. The next morning the bridge was almost completed.

GAIN GROUND AT FRAPELLE.

With the American Army in Lorraine, Aug. 18 .- The Americans gained more ground at Frapelle early today, despite a total of 2.500 shells dropped by the enemy on the village and a raid by 45 Germans, which was repulsed by the American artillery and automatic rifle fires.
