Appeal for Factory Help. Mrs. Mabel Walker, in charge of the women's employment bureau in the Chamber of Commerce, makes an appeal for women who need employment to enter local factories which are filling government contracts for soldiers' clothing, tents and other necessities.

"The women who applied last week were inexperienced, but wanted office work. It is a patriotic duty to help in the factory," said Mrs. Walker.

Oatmeal Muffins. The following recipe was sent in by Mrs. L. H. Simmons, 7 Ivy apartments, as a good one to help in the use of substitutes:

Two (2) cups of oatmeal. One (1) cup of milk. Soak oatmeal in milk five minutes. Add to oatmeal and milk level teaspoon salt, one egg (1) teaspoonful sugar. One (1) teaspoonful butter. One (1) teaspoonful lard. Beat together, then add barley flour with two (2) teaspoons of baking powder, enough to easily drop in muffin pans. Bake until brown in moderate oven.

Red Cross

Has any one a piano they will give to the Red Cross? There is great need of a musical instrument to cheer convalescent soldiers in the post hospital at Fort Omaha. Local artists have volunteered to give musical programs in the hospital of an instrument is provided. Mrs. Walter F. Wiley, chairman of the army hospital attention committee, says her committee will pay the drayage.

Clifton Hill Red Cross auxiliary will give a picnic for members and their families Friday at Krug park. Guests will bring their lunch baskets for supper in the park.

Work in the Masonic Temple shop re-opens September 3. By special arrangement with the Central division the August quota has been extended until September 15 on account of the absence from the city of so many workers.

The civilian relief department asks for a baby buggy and bath tub for a new arrival; and for a second-hand trunk for a sick soldier. An elderly woman, mother of a soldier, would like some one to live with her, to be with her evenings.

Mrs. T. M. Ore has received material for the sewing kits to be made in the public workshops. Twelve hundred of these are to be made and 1,200 comfort kits.

A donation of \$98.10, half proceeds of the munny guards' circus at Kountze park, has been made to Omaha chapter.

More socks are needed and knitters are asked to lay aside sweaters for a short time and make the socks instead. Eight thousand of the 21,000 quota have been shipped. Fifteen hundred of the 1,777 sweater quota are completed.

The motor mechanics corps under Mrs. W. E. Martin, which was to begin instruction Monday morning, has postponed its opening date until September 1.

An organization intended to bring comfort and relief from anxiety to many American homes is being established in Washington under the name of the bureau of communication of the American Red Cross. It has other functions, but its efforts are to be more particularly directed toward relieving the mental strain of those who have relatives or friends in the American forces who are reported by the War department as having been killed, wounded or missing, according to the cablegrams received from General Pershing.

Things We Never Hear. "The coat is cheap enough, miss, but it doesn't look well on you." "No, our two-for-a-quarter cigars are no better than our straight ones." "No, my dear, even if you did make it yourself, this isn't a delicious strawberry shortcake. I had a better one today at the service."—Cleveland Plain Dealer.

CONSERVATION NOTES

To those interested in exhibiting canned products at fairs: In answer to questions regarding the prizes given by the national war garden commission for canned products from war gardens, the following announcements are made:

A national capital prize certificate for the best canned vegetables grown in war garden, will be given. With this certificate, a book half filled with thrift stamps is given.

It is a little early yet to hold exhibits and fairs where local prizes will undoubtedly be given, but Omaha women are urged to continue their canning work. Announcements in regard to distribution of prizes will be made later.

Miss Maud Wilson, state home demonstration leader, suggests that women interested in making entries, write to the state fair committee on premiums and also to the Douglas county fair committee. On the state fair committees Mrs. E. E. Brown of Central City, Neb. is in charge of domestic products Mrs. J. P. Waterman, 1545 South Twenty-third street, Lincoln, Neb., is in charge of the women's department and Mrs. R. D. Sutherland, Nelson, Neb., has charge of the fine arts exhibit.

Miss Ola Powell, assistant in home demonstration work in the office of the extension work in the south, is the author of a book entitled "Successful Canning and Preserving," which is about the best thing of its kind available. She has recently made an agreement with Miss Ward to furnish a copy of this book as a prize for canned products exhibited at state fairs. The prize to be given in Nebraska is for two jars of peppers, either pint or quart. Women should send in any entries to the agricultural hall, state fair grounds, in care of Maud Wilson. The two jars selected for the premium will be sent to Miss Ward, the others will be returned to the owners at their expense.

Last Wednesday at a meeting of Miss Killian's cooking class the members of the Cömentis school canning team, "Hoover's Triplets" gave a demonstration in canning tomatoes and plums. After this talk and demonstration by Alice Barta, age 12; Margaret Killian, age 11; and Victoria Kuncel, age 11, the class successfully canned 16 jars of fruit.

Because of the shortage of ammonia, the manufacture of artificial ice has been somewhat affected, but there are many household economies, which, if practiced, will insure plenty of ice for all.

The refrigerator should be kept clean, the doors tightly closed and the drip trap in place. The doors should never be opened except when necessary, and then for the shortest possible time. No hot foods should be placed in the refrigerator. Cracked ice should not be put into glasses to cool drinking water, but a bottle of water kept in the refrigerator will furnish a sufficiently cool drink. Crushed ice should be served in fruits, sea food, salads, tomatoes, etc. These can be chilled in the refrigerator.

These little economies practiced in the home will be of material aid in solving the difficult problem.

Do not use galvanized utensils in making preserves, jellies or fruit preserves, the board of chemistry of the United States Department of Agriculture advises. Some of the zinc with which the vessels are galvanized may be changed to salts of zinc and make the food unfit for human food.

The fact that the jars of canned goods after being removed from the process water seem to be only partially filled seems to puzzle some housewives. If the water boils out of the jars it is not necessary to replace it as far as the keeping qualities are concerned. If the food is sterile it will keep, whether it is covered with water or not. Half a jar of material can be preserved as successfully as one completely filled if properly sterilized. The idea that there must be no air in the jar is old, for if the food is sterile the air is also sterile and therefore cannot cause spoilage.

Removes Wrinkles and Refreshes Tired Faces
As the skin tends to expand in warm weather, causing wrinkles to form, a good astringent-cream lotion should be used these days. Dissolve an ounce of pure powdered sassafras in a half pint of witch hazel. Bathe the face in this and see how quickly the wrinkles and furrows will disappear—and how much younger you will look! There's nothing better for sagging cheeks or double chin, or for enlarged pores.
Use this simple lotion during the heat of the day and you will find it wonderfully refreshing. You will lose that wilted, tired look. The ingredients of course are perfectly harmless. Be sure to ask the druggist for powdered sassafras.—Adv.

GLYCERINE MIXTURE FOR APPENDICITIS
Omaha people can prevent appendicitis with simple buckhorn bark, glycerine, etc., as mixed in Adler-ika. ONE SPOONFUL flushes the ENTIRE bowel tract so completely it relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. The INSTANT, pleasant action of Adler-ika surprises both doctors and patients. Leaves stomach clean and strong. A SHAMPOO WORTH TRYING
It is not necessary to shampoo your hair so frequently if it is entirely and properly cleansed each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of Canthrox, which can be obtained from any druggist's, in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather so created, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.—Adv.
