

BANK DEPOSITS IN OMAHA MAKE \$9,000,000 GAIN

Response to Call from National Comptroller Shows Large Increase Over Two Months Ago.

Deposits in Omaha banks made a big increase in the last two months, according to the report made Wednesday in response to a call from the national comptroller of the currency for the condition of the banks August 31. The gain in deposits to more than \$9,000,000 for the two months, as shown by the statement below.

The amount of deposits in Omaha banks is also materially larger than it was a year ago, the \$112,396,031 in bank today comparing with only \$107,866,360 in the blanks, according to the statement of September 11, 1917, details of which are printed in the tables below.

This increase is made in spite of enormous war drains on deposits for investment in Liberty loans and for the various war contributions of the people. Bankers are greatly gratified at the showing.

Loans showed a small decrease, thus leaving the banks in splendid condition to meet the demands of the forthcoming Liberty loan and other war drives.

The complete figures for today of all the Omaha banks together with comparisons of two months ago and a year ago, are as follows:

Scheschy Club House Closed by Court With Temporary Injunction

A temporary injunction against George Scheschy's "Lakeside club-house" in East Omaha was granted by Judge Sears in district court Wednesday afternoon. The injunction becomes effective at once and prevents any operations of "Lakeside" until further order of the court, when the injunction may be made permanent.

In handing down his decision, which followed trial of a week ago, the court expressed the opinion that the place was being operated under conditions forbidden by the prohibition laws. He held that although Scheschy, himself, was apparently not selling liquor, he was allowing it to be sold on the premises. The general character of the place, the judge said, warranted it being classed as a "nuisance" under the prohibitory laws.

Rotarians Hold Meeting; Past President Gets Watch

The Rotary club met at the Fontenelle hotel at noon Wednesday with 120 members present. The speakers were John Welsh, Dan Johnson, James Allen and A. S. Goodrich. W. F. Megeath was chairman.

All the speakers were delegates at the National Rotary club convention at Kansas City.

The past president, W. Clarke, was presented with a gold wrist watch by Dr. Atzen as a gift of the club. Over 100 rotarians are expected to go to the state fair at Lincoln on Omaha day.

A directors' meeting was held after the regular meeting, at which C. L. Farnsworth was elected to succeed Mr. Trimble, the latter having resigned for business reasons.

County Food Men to Meet

FEDERAL AGENTS LOOK FOR BUTTER PROFITEERS HERE

Government Takes Steps to Stop Sale of Butter with Water Content Above Normal.

Uncle Sam is trying to put a stop to the selling of water at 47 cents per pound.

It is one form of profiteering the government is determined to stop and two experts have been sent here to ascertain those guilty of this commercial piracy.

Agents of the internal revenue department are working in Omaha and the different dairy product centers of western Iowa and the state of Nebraska, making out tests of the butter that is being put out in the different creameries and butter ladders.

It has been reported that manufacturers were working in more than the normal quantity of moisture and were selling the excess of water at butter prices. The normal quantity of moisture in butter, fixed by United States standards, is 16 per cent. Samples of butter purchased at different points throughout this territory by the investigators have shown as high as 25 and 30 per cent of water.

One man, handling 1,000,000 pounds of butter, was getting rich selling the surplus of moisture at the rate of 45 cents per pound. Warehouses are being invaded for samples and tests are being made of butter purchased at retail. If evidence is found of butter being treated in this manner with intent to defraud a penalty will be imposed on the violators of the law.

Don't Let Soap Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulified cocconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Adv.

BACKACHE KILLS!

Don't make the fatal mistake of neglecting what may seem to be a "simple little backache." There isn't any such thing. It may be the first warning that your kidneys are not working properly, and throwing off the poisons as they should. If this is the case, go after the cause of that backache and do it quickly, or you may find yourself in the grip of an incurable disease.

GOLD MEDAL Haaslen Oil Capsules will give almost immediate relief from kidney and bladder troubles, which may be the unsuspected cause of general ill health. GOLD MEDAL Haaslen Oil Capsules are imported direct from the laboratories in Holland. They are prepared in correct quantity and convenient form, and are positively guaranteed to give prompt relief or your money will be refunded. Get them at any drug store, but be sure to insist on the GOLD MEDAL brand, and take no other. In boxes, three sizes.—Adv.

DETENTION HOME FARGE IS EXPOSED BY RUARK CASE

Mayor Tells Board of Public Welfare That Conditions Disclosed Make His Blood Boil.

An investigation into the administration of the Detention Home for Women, Twenty-second street and St. Mary's avenue, has disclosed methods which Mayor Smith in an address to the Board of Public Welfare Tuesday afternoon said made his blood boil.

The mayor contended that this institution was established for compulsory treatment of diseased women of known immoral tendencies, but not for women who are victims of circumstances.

The case of Mrs. Wilbur Ruark moved the mayor to express himself against the management of this home, which is under the jurisdiction of the health department. This woman's soldier-husband is at Camp Funston. Her baby was born on July 1 of this year in St. Luke's hospital, whose superintendent learned that Mrs. Ruark was afflicted with a disease which required special treatment.

Taken There By Police.

An investigation showed that the hospital notified the Red Cross, the Red Cross notified the city health department, the health department notified the police and the police sent an emergency officer to the hospital and moved the woman to the detention hospital without warrant or complaint or advising her whither she would be taken. She escaped from the hospital on August 21 and was taken back by a policeman. Her baby was taken from the detention hospital to the county hospital.

She was moved from the hospital to the city jail and assigned to one of the lower cells, with cement floor, rather than in the matron's department, where women usually are placed. When she was brought before Acting Judge Holmes she was dismissed and advised to take her case before the Board of Public Welfare.

People who have known Mrs. Ruark during her residence here testified to her good conduct and expressed the belief that she had been more sinned against than sinning.

Mrs. Cornish, head of St. Luke's hospital, spoke kind words for this mother whom she had attended. The police records do not show this woman's name. Miss Burger of the detention home reported that the Ruark baby was ordered removed from its mother by one of the doctors. Several women in the detention home stated that Mrs. Ruark was attached to her baby and became depressed when her child was taken from her.

Some of the patients at the home charge doctors with uttering improper remarks during the "clinics," also with abusive treatment in the operation room. One young woman stated that she had been handled roughly by a doctor, who inserted a needle in first one place and then another, according to his whim. Another woman said she refused to let these "kid" doctors attend her any more; that she would rather spend the rest of her life in jail.

RELIEVED FROM ITCHING BURNING ECZEMA

Gives Resinol the Whole Credit

Aug. 15.—"For some time I suffered frightfully from eczema on my legs. From my knees down they were covered with scales, and itched and burned as though hot coals were resting on them. I would scratch until the blood came, and was unable to sleep at night. Nothing that I tried helped me, until a druggist recommended Resinol Ointment. After applying it once, I enjoyed the first good night's sleep I had had in weeks. Now I am sound and well after using a little over one jar of Resinol Ointment, to which I give the whole credit."

He paid a fine of \$100 and costs for having liquor in his possession and \$12.50 for attacking the officer.
