Geneva, Saturday, Feb. 15.-Kurt Eisner, the Bavarian premier, on his return to Munich from the recent socialist conference held at Berne, made reply to attacks in the German press concerning his speech

Eisner said the Germans did not realize to what degree they were isolated from the world and what terrible mistrust there was of German politics outside of Germany The Germans, he added, did not realize to what extent the allies considered the German revolution a pure comedy and said that it will be thus while the German leaders remain the same as those who conducted Germany's odious war policy Herr Eisner demanded an entire change of the German government

#### "Balkans for Balkan Peoples" All Slogan Adopted by Jugo-Slavs

New York, Feb. 16.—Recognition of a Monroe doctrine for the Balkans for the Balkan peoples"—was asked of the peace conference in resolutions adopted at a meeting here today by Jugo-Slavs

Asserting that Balkan troubles constituting a menace to the world, had been created by attempts of outside powers to conquer these lands the resolutions asserted that ancient foes have been exterminated as a result of the present war, "but now Italy, a new would-be conquerer, appears on our shores."

The resolution asks therefore that President Wilson's principle of self-determination be applied to the islands of the eastern atriatic, the Croat coast lands, Isina, Trieste, Goritza and districts in Carniola claimed by Italy.

Reasons for Asking for an International Army Set Forth Clearly by Prof. Larnaude.

Paris, Feb. 16 .- "There never has been any disagreement on the fundamental principles of a league of nations between the French delegates and the delegates of the other powers," said Prof. Ferdinand Larnaude dean of the Paris law faculty and one of the French delegates on the league of nations commission, today

"The only differences of opinion were those expressed yesterday by Leon Bourgeois, with whom I am completely in accord. We do not seek an international army for the purpose of making war, but for the purpose of preventing it.
