Zebulon W. Davis, Cleveland captalist' arrested in Canton, O., Friday night, was not present at the hear-ing; neither was A. L. Strelzin of Milwaukee.

J. H. Sawkan, special agent of the Department of Justice, arrived in Chicago with \$9,050,000 in "securities" given up by Strobel at the time of his arrest. Sawkan also carried an agreement signed between French and Davis, in which much of the note and check kiting conspiracy, al-leged by the federal officials to have existed, is explained.

Among the "securities" brought from Cleveland by Sawkan are thousands of dollars worth signed by of-ficials of the Ideal Tire and Rubber company of that city. The president and

this company recently issued strenuous denials that they ever had any dealings with French. Signed by Davis.

French flatly denied to newspaper men Davis' assertion that the majority of the notes seized by the federal officers and signed by Davis were forgeries.

"Every one of those notes were signed by Davis," he said. "Comparison of signatures by any handwriting expert will prove this." From the Pacific coast came state-

ments to the federal officials purporting to show that this case is not the only "air castle" of finance French has erected during his 25 years of business life.

It was in San Francisco 000 Pacific Steel company, it is said. Traveling in private cars, spending thousands of dollars a day feted by business men and capitalists, he had all the coast states agog with a wonderful dream of a giant steel industry, the main plant of Angeles.

Leaves Bills Behind

The scheme lasted a month. Then warrant for French for forging \$300 check came from Salt Lake -leaving unpaid his private car bill \$50 a day for 135 days.

He was next heard of in Phoenix Ariz., from which city efforts were Nearing Completion made by Utah authorities to extradite him. French later sued the Salt Lake authorities and business men prosecuting him for \$100,000. The suit never came to trial.

The story of French's efforts for the six years, 1912 to 1918, to float the same "corporation," this time with a subsidiary bank, the Pacific Trust company, capitalized at \$1,000,-000 in Vancouver, was told by Don-ald Cramer, broker of Vancouver.
