

Tram Directors Defer Action on Wage Reductions

Will Survey Conditions in Other Cities With View to Retrenchment of Expenses Later.

The board of directors of the Omaha & Council Bluffs Street Railway company decided yesterday to hold in abeyance the matter of reducing the wages of the carmen, as recommended by the Nebraska State railway commission in its order which denied the company an emergency passenger rate of 8 cents.

The board also direct R. A. Leussler, general manager, to make an investigation of street railway wage conditions in other cities, so that the board may know whether the wage recommendation of the state commission shall be adopted. Mr. Leussler's investigation also will include salaries of traction company executives, inasmuch as the state railway commission's recommendations covered all employees, from general manager down.

The directors of the street railway company were disappointed in not receiving relief in the form of an emergency rate. They announced yesterday that they will endeavor to do full justice to employees, the public and their stockholders.

KELLY

SPRINGFIELD

TIRES

WE have seldom indulged in superlatives. Kelly quality has been so well established that it hasn't been necessary. Today, Kellys are better than ever, but their price has been materially lowered. Exhaustion of war-priced material and economies made possible in the new Cumberland Plant have brought down costs and this saving is being passed along to the user.

Now you can buy Kellys for the same prices you will have to pay for other tires that have always sold for less.

Kelly Cords are made in two types: the **Kant-Slip Tread** which offers a resistance to wet, slippery streets that makes skidding next to impossible, and the sturdy **Block and Button Tread**. Both are long mileage tires and sell for the same price.
