

Camorra Leader Is Honored When Funeral Is Held

Memory of Chief of Black-hand Gang in America Paid Fitting Tribute by Friends in Naples.

Naples, Sept. 13.—A "funeral de just" in the way the Naples newspapers described the burial of Alberto Altiero, reputed to have been one of the chiefs of the Camorra in America. He was formerly a Camorra leader in Naples, but fled from there several years ago.

Funeral Was Event.

Altiero's funeral was an event. The religious service in the church was marked with all the possible pomp and ceremony attendant on funerals given to high dignitaries of church and state. An orchestra of almost 100 pieces accompanied the mass, which was still augmented in impressiveness by a large choir.

The church, St. James of the Spanish Nobles, was elaborately hung in mourning. Folds of tapestry being suspended about the walls and ceiling. Quite a number of priests officiated at the ceremony.

Cortege of Great Moment.

The funeral procession was of great moment. In it marched practically all of Altiero's associates in his profession. A dozen or more men, some of whom were wearing mourning, followed in the procession. The organ on it was that of a clock which registered the hour of half past twelve. The cost of this has been announced as \$2000.

The coffin also attracted much attention. It has been chronicled that it came from America; cost \$3,000, and was engraved in silver. The crowd which followed the body to the grave was a veritable "unending stream of people."

The new truck is a triple combination pumping, chemical and hose car with a 75-horsepower motor. It is the height of modern fire apparatus and adds greatly to the small fleet of trucks now in use for the protection of the Fremont property owners. Fire Chief Harry Morse announced that a public demonstration of the new truck and its pressure power will be held when unloaded.

Chief Justice Fails To Recognize Himself In Book Illustration

Lincoln, Sept. 13.—(Special.)—Chief Justice A. M. Merry of the Nebraska supreme court failed to recognize himself in a group picture which was published as an illustration in a book entitled "My American Visit," written by Lord Birkenhead of England, former Sir Frank Smith, who, as attorney general for the king's government, visited Lincoln during a tour of the United States in January, 1918, when the World war was at its height.

The picture, purporting to show Smith, his aide and the chief justice, was called to Judge Merry's attention by one of his judicial colleagues, who happened to run across it. It seems that the distinguished Britisher "got his wires crossed," as the man he labels "chief justice" is really Prof. M. M. Fogg, who supervised the activities of the Nebraska "four-minute men" and saw service along with the American colleges for soldiers.

In the book Lord Birkenhead mentions having met the two sisters of General Pershing at Topka when in fact he was introduced to them while he was here.

Red Cross to Have Charge of Relief In Flooded City

Tent City to Be Erected in San Antonio to Care for Those Who Lost Homes in Flood.

San Antonio, Sept. 13.—The Red Cross was authorized today to establish a tent city here in which to care for homeless flood sufferers. The United States army will be asked for 500 tents and 2,000 cots. Red Cross workers in the Red Cross will furnish the bedding.

Many of the Mexicans returned to their homes or what was left of them and are reported to be living in the ruins. Sanitary inspectors under the direction of the city and county health boards have been ordered into the district to compel the inhabitants to clean up.

Every effort is being made by the authorities to get the districts which were under water cleaned and disinfected. Plenty of labor at \$2.50 a day has been obtained for the property owners requiring help. There have been volunteers especially for street cleaning. The federal authorities furnished 20 large trucks to haul off debris and the city employed more than 100 extra men to load the trucks.

The wooden blocks torn from the pavements are being hauled to one place and those not broken will be salvaged and used for patching streets.

The majority of the soldiers who have been on guard duty will withdraw soon. First American Legion men and a smaller number of soldiers will take over the work of directing traffic and keeping the curious out of districts where their presence would interfere with the work of cleaning up.

Live Stock Rate Cut Aids Raisers. Is L. C. C. Belief

Authorization of Proposed Reductions of 20 Per Cent. Effective Sept. 20, Granted By Commission.

Washington, Sept. 13.—Reductions by western railroads in rates on cattle, hogs and sheep in the opinion of the interstate commerce commission "will prove of material benefit to the western live stock raisers who have been heavily afflicted by the rapid decline in live stock prices since July, 1920."

The commission expressed the belief today in announcing it had authorized the reductions proposed by the carriers, which will become effective September 20 and amount to 20 per cent in cases where the present rates are higher than 50 cents per 100 pounds, but in no case decrease the rate below 50 cents per 100.

Under the new tariffs practically all rates from points west of the Missouri river to Chicago and from all points west of the Rocky mountains will be reduced in amounts ranging from 1 to 25 cents per 100 pounds. Similar reductions in all other live stock rates now higher than 50 cents per 100 pounds are to be made, the commission said. In many cases, it was stated, the entire increase made in August, 1920, will be eliminated by the new tariffs. The commission estimated that the decreases would mean an annual reduction of revenues for the carriers of \$10,000,000. The reductions are in line with suggestions made by the commission after hearings on freight rates on live stock throughout the west.

Oil Company Refunds Stockholders' Money

Beaver City, Neb., Sept. 13.—(Special.)—The Harlan County Oil and Gas company of Stamford began refunding stock subscriptions this week. About \$10,000 has been raised on an agreement to start drilling for oil when \$25,000 had been subscribed. It was recently discovered that a distillate tank, containing fuel for the Stamford power plant, had been leaking for some time. Henry Klein had been pumping oil from his well, 200 feet distant, for several months, which caused much excitement in the village and consequent forming of the company. In view of the recent discovery it was thought prudent to refund the money.

Should this be done Bonham might be designated as receiver. There has been some talk of organizing a new bank at Table Rock to take the place of the Community bank, whose quarters are among the finest in any town of its size in the state.

Lead, S. D., Sept. 13.—(Special.)—Miss Patricia Murphy, Lead girl, was on a train which recently was held up by bandits between Ogden and Salt Lake City, and by a mere blip saved herself from being robbed. In a letter to a Lead friend she relates her experience as follows:

"By the way, there was a holdup on the train between Ogden and Salt Lake—quite thrilling. The hold-up boys were boys of 18 or 19 years of age, musky and big black fellows. I had a bill—besides my traveler's checks, and when one of them asked me if I had any money, I told him, 'Only my traveler's checks,' and held the bag out to him, but he just said, 'Alright' and didn't call my bluff. The porter said afterward: 'My Lawd, I saw that fellow pointed out of black gun in date 11 lady's face and she did sit there and smiled at him, and he never took a thing from her. Lawdy, where you'll come from, anyway!'"
