

Cornhusker Prospects for Victory Over Oklahoma Saturday Take Tumble

Strength of Owen's Eleven Cause of Drop

Sooners Have Heavier Line Than Nebraska and Backfield Composed of All-Veteran Combination.

Lincoln, Neb., Oct. 26.—(Special.)—Cornhusker prospects are not so bright as were formerly supposed in the clash with Oklahoma Saturday. While Husker students have been rating the Notre Dame game as the great game of the season, it remains to be seen whether Nebraska can win from both Oklahoma and Pittsburg.

Notre Dame, an age-old foe, was the sentimental "Big Game" while actually the Husker mentor and his associates rate the Pitt game above the clash with the South Bend team as a test of the Husker team.

Oklahoma is rated as having a heavier line than Nebraska, while the backfield as well as the line is said to contain an all-veteran combination. The Sooners have a record as champions of the Missouri valley last year, which they will endeavor to maintain in their game with Nebraska Saturday.

Coch Dawson maintains secret practice on the Husker athletic field. It is noticeable that the Nebraska squad is thinning down and the Huskers are getting more scrimmage work than ever. Rumor has it that the Nebraska mentor will try to run the heavy Sooners off their feet in the week-end engagement. However, to date, Nebraska has played more of a line bucking game than the average team it has met, resorting to aerial attack only at strategic moments.

No word has been given as to who Coach Dawson will start in his game Saturday. Lewellyn may get the pilot job or may be shifted to another backfield position. Preston is the other choice for the engineer position on Nebraska's team. Hartley, who started in the last few moments of play against Notre Dame will probably get his chance in Saturday's game against the Southern aggregation.

Nebraska has been out of the Missouri Valley conference two years and has scheduled but three conference games for this season, Oklahoma, Ames and Kansas. Its opportunity to lead the entire conference will depend upon three victories, while chance may take down any other contenders for the championship this fall.

Coast League After Ruling on Gedeon

President McCarthy Investigating Status of Former St. Louis American Player.

San Francisco, Oct. 26.—Telegrams to Judge K. M. Landis, base ball commissioner, and President W. H. Johnson of the American league asking them to rule on the status of Joe Gedeon in organized base ball were sent yesterday by President William H. McCarthy of the Pacific Coast base ball league.

Gedeon is expected to play in an exhibition game at Marysville, Cal., November 12 with American National and Coast League players. As he was unconditionally released in 1919 by the St. Louis club of the American league following reports that he had knowledge of attempts to bribe players, McCarthy said he wished information whether Coast League players should play with Gedeon.

Packer Coach Starts Preparing for Game With Commerce Nov. 4

South High, in memory of last year's defeat by Commerce, is on its feet to keep the Bookkeepers from repeating.

Coach Patton is working the team hard and will have few changes in last week's lineup. Hoffman will probably start at guard, while Galbraith's good work against Columbus puts him in line and for the least part of the game. Emigh may play end. Graham has an injured knee which, unless it improves, will throw the brunt of the kicking to Sullivan. The Packers are improving their aerial work to such an extent that Drummond's gridsters will have to step up to meet it up.

Creighton Cagers Go Into Training Dec. 1

A call for basket ball candidates will be issued at Creighton university about December 1. "Chuck" Kearney, director of this year's quintet, said this morning.

Light Heavyweight Champ Throws Wallace Duguid

San Francisco, Oct. 26.—Ad Santel, light heavyweight wrestling champion, defeated Wallace Duguid, of Los Angeles, in straight falls here last night. The first fall came in one hour, nine minutes and 46 seconds and the second in 12 minutes and 45 seconds.

Monk Fowler Defeats St. Claire in Four Rounds

Ball Players Lead Tough Life

Roger Hornsby, Miss Ruth Miller & George Sisseton.

Who wouldn't smile under these conditions? Left to right, Roger Hornsby of the St. Louis Cards, champion batter of the National league; Patsy Ruth Miller, motion picture actress, and George Sisseton, star slugger of the St. Louis Browns, snapped in California. Miss Miller halls from St. Louis also, so the meeting was in the nature of a reunion.

Northwestern Cards Two Runs

Varsity Five-Milers Meet Purdue Saturday and Indiana Nov. 12.

Chicago, Oct. 26.—Frank Hill, Northwestern university's new track coach, has booked two cross-country dates for his varsity runners. The first is with Purdue, Saturday, October 29, at Lafayette, where the Purdue runners will compete for the first time this season. The next date will be with the University of Indiana at Bloomington on November 12.

The initial test at Purdue will give Coach Hill an idea of what some of his five-milers can do and he expects to have a fairly well developed squad by the time the Indiana date is at hand. Both Purdue and Indiana develop good runners, and if plans at several of the "Big Ten" schools go through, the cross-country "troop" will be made more and more interesting to students and the general public.

Coach Hill has 10 men from whom he will select six to participate in the Purdue and Indiana events. They are: Telford, Crippen, Burke, G. Graham, P. T. Graham, Jimmy Davis, Monroe, Chamberlain, Bodce, Miller.

"I shall not select my team until just before we start at Purdue," said Coach Hill. "We have fairly good material at Northwestern but we are in need of more men who have the ability to make long cross-country runs. I think that as soon as we get well started some of this material will naturally come our way, but the alumni of the university can help by inviting good athletes to go to the university.

Schools Get Set For Basket Ball

Basket ball will get on its feet when the city high school athletic committee meets to plan for the midwinter sport and draft a schedule.

Although coaches at Omaha high schools are beginning to catch up on material, no school has made the stride towards the opening of the caging season as has Commerce, which to date has seven games matched with out-of-town teams.

The games are with Lincoln, Fremont, University Place, Hastings, Sutton and Geneva. The outlook for a fast quintet at the Leavenworth knowledge factory is especially bright. Five players of last year and a wealth of promising newcomers combine to boost the Bookkeepers' hope stock.

Landis Will Give Ruling on Status of Player Gedeon

San Francisco, Oct. 26.—Judge K. M. Landis, national base ball commissioner, telegraphed W. H. McCarthy, president of the Pacific Coast base ball league today, promising to issue a ruling soon on the status of Joe Gedeon, base ball player who was released by the St. Louis Americans following reports that he had knowledge of attempts to bribe players. McCarthy asked for the ruling as Gedeon desires to play in an exhibition game in Marysville, Cal., with league players. Judge Landis said it would take a few days to look into the matter.

Captains of Schooners Guests at Banquet

Halifax, Oct. 26.—Captain Angus Walters, of the Nova Scotian schooner Bluenose, and Captain Marty Welch, of the Gloucester schooner Elsie, together with the crews, who participated in the international fishing fleet championship races, said farewell last night at a dinner given in their honor by the Halifax Herald, donor of the race trophy. Captain Walters, as winner, received a \$4,000 prize, and Captain Welch was awarded \$1,000, the loser's share. The trophy was given into the keeping of Captain Walters until the 1922 races.

Purchases Race Horse to Help Boxer Gain Top

Scotty Montiech Buys War-Mash as Publicity Scheme For Johnny Dundee.

It's become quite fashionable lately for folks identified with the maulie business to take unto themselves a race horse or two and join in the "sport of kings."

The fashion was set by Johnny Dundee, who never intended to do anything but manage a fight, and it is now the fashion of a steady, battled furiously against the condition for a while—and now is one of our most enthusiastic race horse folks.

The story of how Dundee came to own of a thoroughbred is really the story of how he came to "split" with Scotty Montiech who "made" him what he is today. Montiech harpooned the Italian when he was little more than a "Ham an'" person, managed him skillfully, tutored him splendidly—and finally brought Johnny along to a spot where he has made over \$250,000 in the ring and has had nearly a dozen cracks at the various championships.

Montiech, ever alert as regards the spreading of publicity for his charges, decided one balmy afternoon that it would be a most festive thing for Dundee to own a race horse. He recalled that some of the fighters of the long gone days had horses and always got a bundle of publicity over it. But Scotty didn't confide in the great idea to Johnny. He kept it all to his little self.

One day he found himself in an auction ring. A horse was led to the block. The auctioneer asked the folks "what am I bid?" Somebody chirped up. The auctioneer registered terrible agony over the "outrageously small bid" for so great a steed. Scotty felt sorry for the auctioneer. He didn't want to have the fellow placed in the position of selling the horse so cheaply and probably getting a rousing from the owner.

So Scotty spoke up a bid which was a little in excess of the original one. The eyes of the auctioneer smiled, his face beamed down upon Scotty, and pointing a finger at Scotty said:

"That's the way you do it, Dundee. You buy a horse, and you take care of it. You feed it good food, and you wash it with warm water. You keep it in a clean stable, and you keep it from getting any colds or anything of that kind. You keep it from getting any cuts or anything of that kind. You keep it from getting any sores or anything of that kind. You keep it from getting any ticks or anything of that kind. You keep it from getting any fleas or anything of that kind. You keep it from getting any mosquitoes or anything of that kind. You keep it from getting any flies or anything of that kind. You keep it from getting any bees or anything of that kind. You keep it from getting any wasps or anything of that kind. You keep it from getting any ants or anything of that kind. You keep it from getting any worms or anything of that kind. You keep it from getting any maggots or anything of that kind. You keep it from getting any beetles or anything of that kind. You keep it from getting any moths or anything of that kind. You keep it from getting any spiders or anything of that kind. You keep it from getting any snakes or anything of that kind. You keep it from getting any lizards or anything of that kind. You keep it from getting any turtles or anything of that kind. You keep it from getting any birds or anything of that kind. You keep it from getting any mammals or anything of that kind. You keep it from getting any reptiles or anything of that kind. You keep it from getting any amphibians or anything of that kind. You keep it from getting any invertebrates or anything of that kind. You keep it from getting any plants or anything of that kind. You keep it from getting any animals or anything of that kind. You keep it from getting any organisms or anything of that kind. You keep it from getting any life or anything of that kind. You keep it from getting any matter or anything of that kind. You keep it from getting any energy or anything of that kind. You keep it from getting any information or anything of that kind. You keep it from getting any consciousness or anything of that kind. You keep it from getting any intelligence or anything of that kind. You keep it from getting any soul or anything of that kind. You keep it from getting any spirit or anything of that kind. You keep it from getting any mind or anything of that kind. You keep it from getting any heart or anything of that kind. You keep it from getting any lungs or anything of that kind. You keep it from getting any stomach or anything of that kind. You keep it from getting any intestines or anything of that kind. You keep it from getting any bladder or anything of that kind. You keep it from getting any kidneys or anything of that kind. You keep it from getting any spleen or anything of that kind. You keep it from getting any pancreas or anything of that kind. You keep it from getting any gall bladder or anything of that kind. You keep it from getting any liver or anything of that kind. You keep it from getting any gallbladder or anything of that kind. You keep it from getting any bile or anything of that kind. You keep it from getting any acid or anything of that kind. You keep it from getting any enzymes or anything of that kind.
