

Nuisance Taxes Main Subject of Debate in Senate

Democrats Charge Plan to Strip Measure to Make Necessary Adoption of General Sales Levy.

Washington, Nov. 1.—Luxury and nuisance taxes held the center of the senate stage today and tonight, with party lines obliterated. So many of this class of excises were voted out of the revenue bill that the charge was made from the democratic side that there was a movement afoot to strip the measure to make necessary adoption of a general sales tax.

This was denied by Senator Penrose, in charge of the bill, who said it was not the time to bring forward a sales tax. He assured the senate that even if all the items proposed for repeal went out of the bill, there would be a margin of \$10,000,000 between the government income and outgo.

It is understood that he has his plan to offer his amendments one by one with the view of testing senate sentiment on each. The Smoot amendments are expected to meet stiff opposition.

The senate confined its operations largely to the subject matter in the bill, renewal of the soldiers bonus first being deferred until tomorrow. Senator Reed, democrat, Missouri, expects to reply to a statement issued by Chairman Fordney of the house ways and means committee, who said the Reed amendment for the bonus coming at this time would "undoubtedly create suspicion in the minds of the veterans and of the senator's sincerity."

"Very early in the coming regular session of congress," he said, "the house will undoubtedly pass an adjusted compensation bill."

Taxes Stricken Out. Luxury and nuisance taxes stricken from the bill by the senate, included those on articles made of fur, toilet soaps and soap powders, tooth and mouth washes, dentifrices, tooth paste, toilet powders, petroleum oil, electric fans, thermos and thermostatic bottles and photographic apparatus and accessories.

Taxes retained included: Photographic films and plates other than moving picture films, 5 per cent; candy, 3 per cent for all kinds, in lieu of the present rate of 4 per cent; perfumes, essences, extracts, toilet waters, cosmetics, hair oils, hair oil dressings, restoratives, dyes, etc., 4 per cent in lieu of present stamp taxes; firearms, shells and cartridges, hunting and bowie knives, dirk knives, daggers, cigar and cigarette holders and pipes, humidors and smoking stands, hunting and shooting garments and riding habits, liveries and livery boots and hats and automatic slot device weighing machines, 10 per cent; yachts and motor boats not designed for trade, fishing or national defense and pleasure boats and pleasure canoes, if sold for more than \$100, 10 per cent; automatic slot vending machines, 5 per cent.
