

Omahan to Visit Mother In Denmark

Mrs. Anna Bonde to Make First Trip Home in 31 Years.

Thirty-one years ago, Mrs. Anna Bonde left her home in Hadeslaben, Schleswig-Holstein, to make her fortune in America. "I'll come back some time,"

she promised, kissing her aged mother good-bye. The little mother, now 88, waited all through the years, but this Christmas the long wait will be over. Mr. and Mrs. Bonde, who live at 5114 Military avenue, applied for passports yesterday to return to the "old country." They expected to sail December 6, but their departure may be postponed by new Danish requirements that man and wife have separate passports. Schleswig-Holstein was German when Mrs. Bonde left the country, but since the war has been annexed to Denmark. Dependable maids can be found by using a Bee Want Ad.

You Can Keep Your Youthful Lines

A WOMAN with a youthful figure never looks old. Yet why is it so many women permit themselves to lose their youthful figure lines so early in life?

Expert corsetiers tell you that more figures are lost through wearing unsuitable models or improperly designed corsets than from any other one cause.

Scientific corseting can and will preserve the youthful lines of the figure almost up to the point of advanced age.

Our expert fitters have found that the

MORART CORSETS Front Laced

are unusually effective in assisting figures that have been improperly corseted and in preserving youthful lines. We recommend trial fittings of this remarkable corset. Corset Department—Second Floor.
