

Third Party to Meet Today At Grand Island

Estimate of Attendance Impossible as County Conventions Did Not Report—Need 500 Signers.

Grand Island, Neb., Dec. 7.—Delegates pledged at county meetings to a new political platform adjourned to the formation of a new political party in Nebraska are to meet here tomorrow for the purpose of perfecting legal organization, adopting a platform, selecting a title and electing a state committee to lay the ground work for the active participation of the party in the 1922 Nebraska primaries.

These were among the subjects that definitely had been announced for the convention, most of them contained in resolutions and required by statute to be adopted before a political party can enter the Nebraska field. Paramount is the legal demand that the convention have 500 signed delegates duly elected and representative of their districts.

The committee in charge of arrangements of the convention has notified the temporary state committee that all its members should be ready to call the convention to order, but prominent leaders of the movement declared there would be more than the required number of delegates present, as the response of the various counties had been almost universal according to reports here.

In this respect, leaders felt assured of representative attendance. The state committee was unable to state how many counties had elected delegates at meetings held last Saturday, as reports had not been ordered, but it was indicated in private opinions that practically all counties held meetings.

Since the time of the foundation of the new party was laid at the Lincoln meeting, there have been numerous utterances as to the policy and program of the proposed party in the way of endorsing candidates, affiliating with other parties, selecting a name and outlining planks for the platform. Taking the consensus of expressions of the apparent leaders, what instructions to delegates are available and the sentiment that has been voiced in those organs who indicate they are favorable to the purposes of a new party, it appears that the endorsement of candidates at convention time tomorrow would generally not be approved and that affiliation with any other party would be frowned upon.

Numerous names have been suggested by parties over the state, but generally disapproval has been expressed by the adoption of any of the political titles now in use or a coalition of names of political parties, which may contain a few of the principles advocated by some adherents of the new party.

Leaders Are Confident. On the other hand, calculating from unofficial reports of attendance at the county meetings, it is indicated that in but a few localities were the meetings attended by more than the number of delegates allotted to the county. In others it was necessary to draft names for delegates. In all instances, however, judging from these reports, sufficient names were signed to officially represent the county.

The new party will name candidates for congressional as well as state offices. Some counties have instructed delegates to hold out for national offices. The representation decided at the foundation meeting called for an equal number of men and women delegates.

It was definitely established that United States senator R. M. La Follette of Wisconsin, invited to appear at the convention, would not be present. J. G. Brown of Chicago, an executive of the farmer-labor party, has written expressing a wish to see relations established between his party and the one proposed. J. A. H. Hopkins, a prominent leader

in the "liberal" party, also has caused much comment among new party followers by stating his desire to attend the convention.

The platform adopted by the new party, if it follows the policies named in published planks by a number of leaders, will be along lines described as "conservative." Plans for financing the campaign also are to be discussed at the convention.

Rail Employes Adopt Four-Day Week Program

Fremont, Neb., Dec. 7.—(Special.)—Rather than cause the laying off of 4 per cent of their co-workers, Fremont employes of the Northwestern railroad voted to adopt a four-day week program during the present depression. The new schedule goes into effect December 10. The action was taken by the employes in lieu of a reduction in the working force. Notices had been posted for the last few days that this reduction would take place and as a result the employes made the decision that declares Wednesday and Saturday holidays until business becomes brisker.

Man Convicted of Murder Given 20-Year Sentence

Winner, S. D., Dec. 7.—(Special Telegram.)—Vernon McNichols, who pleaded guilty to the murder of Raymond Brooks in Tripp county, was sentenced in circuit court here to 20 years in the penitentiary at Sioux Falls.

After the prosecution had introduced its testimony, McNichols decided to change his plea of guilty to guilty of manslaughter. The slaying of Brooks resulted from McNichols' alleged insults to Mrs. Brooks during her husband's absence. Brooks being slain by McNichols soon after his return home.

County Will Establish Museum at North Platte

North Platte, Neb., Dec. 7.—(Special.)—Through the efforts of the local chapter of the D. A. R., a Lincoln county museum will be established in connection with the public library. Residents of this county possess many relics of local historical value and it is believed a sufficient number can be obtained to make a very creditable showing.

Chief Outlines Work of Public Roads Bureau

Expenditures on State and Federal Highways This Year \$141,362,865, He Tells Convention.

T. H. MacDonald, chief of the bureau of public roads, United States Department of Agriculture, was the principal speaker before the annual convention of the American Association of State Highway Officials at Hotel d'Entenelle yesterday.

Mr. MacDonald gave a resume of the work of the bureau of public roads and its projected policies in handling federal aid. He also took up transportation problems, which he says must be solved from an economic standpoint.

According to figures cited by the chief, the estimated registration of motor vehicles this year is 9,750,000; 8,404,000 are automobiles, the remainder trucks.

Expenditure for all roads was \$600,000,000. "From 1910 to 1921 the potential number of motor vehicles demanding highway services increased more than 1,800 per cent," he said. "Expenditures during the same period increased 400 per cent."

In the period, 1918-21, motor vehicles increased 700 per cent and highway expenditures about 200 per cent.

This increase, according to Mr. MacDonald, was due to favorable legislation and the accumulation of funds which had been voted, but which could not be spent during the war.

In 1921 the estimated cost of state and federal roads under construction was \$141,362,865. Of this amount \$89,900,615 was spent in state aid. The total mileage of roads was 6,986.

Aid Legislation. "The Future Federal Aid Legislation," a paper outlining future legislation on the building of federal aid roads and under what conditions they are to be constructed, was read by W. C. Markham, legislative representative of the association and also secretary of the legislation committee. Charles M. Babcock, Minnesota, presided at the morning meeting.

The program in the afternoon was given over to the discussion of construction and research. G. P. Coleman, Virginia, presided. Papers were read by Charles M. Upham, state highway engineer of North Carolina, and W. K. Hart, director of the advisory board on highway research, Washington, D. C.

Last night T. H. MacDonald, chief of the bureau, was the guest of honor at a dinner at the Omaha club.

Palmer Hog Breeder Says All Farmers Feeding Stock G. H. Harry came in from Palmer with 68 head of choice light hogs for which he received the top price of the day of \$6.70 a hundred. Mr. Harry said most every farmer in his neighborhood had a bunch of live stock on feed and that there would be a number of shipments made to the Omaha market as soon as conditions warranted. He said there had been a little hog cholera around Palmer, but that it had not done as much damage as some other parts of the state.

GLANDS TO MAKE DULL KIDS BRIGHT

Schools Will Utilize Sheep in Experiments.

Dr. Bruner Explains Theory. "Much has been done with the transplantation of monkey and goat glands for reviving physical functions," declared Dr. Bruner, "and we expect to meet with success in putting new brains into the heads of subnormal children through the exclusive use of a sheep gland diet."

The mental improvement of the patients will be recorded daily on special report blanks being prepared for the education print shop.

Photographed from Chicago "Tribune" of Oct. 18, 1921

You don't have to use your imagination to note the difference when you take Youth-Gland.

Your health, happiness, appearance and mental alertness depend upon the condition of your ductless glands.

Youth-Gland revives the ductless glands by feeding them and you feel this stimulation just as surely as you feel revived when you are hungry and give your stomach food.

Youth-Gland will rejuvenate you in appetite, body and spirit. It will bring rest to your nerves, improve your digestion, make good the over-drafts upon your energies, and—by rebuilding your tissues—bring back your old-time vigor.

Send Your Name and Address and a Wonderful Little Book Will Be Mailed You FREE

Youth-Gland Chemical Laboratories, Ltd. 56 E. Randolph St. Chicago, Ill.

Sold in Omaha by all stores of the Sherman & McConnell Drug Co. and other progressive druggists.

Both Young and Old Find Mental Vigor and Physical Strength In Youth-Gland

Renews Gland Tissue By Actual Replacements

Try Youth-Gland for two weeks, (1 pkg. of tablets) and find for yourself the wonderful difference it will make in your endurance, health and appearance.

Feed your glands and defer old age.

Youth-Gland is prescribed and endorsed by hundreds of physicians in both America and Europe.

Youth-Gland offers you the quickest and surest way to health, strength and efficiency when you feel the need of a tonic treatment.

Youth-Gland is also rich in Vitamines, Bulgarus and Nuclein—therefore rich in the greatest of all life-giving, strength-building powers known to science.

Brought to its present perfection by years of experiments and use by the most noted scientists of Europe. Sold in America under special arrangements with Druesen-Kraft Chemische Laboratorium of Paris and Leipzig.

When you do not feel your "old-self"—when over-work or worry has "pulled you down"—accept this suggestion and try a short treatment with Youth-Gland Tablets.

Be sure to state, when you buy or order, whether you wish the treatment for "male" or "female."
