

Church Council Outlines Program For World Peace

Outlawing of Submarines, Bombing Planes and Chemical Warfare Urged In Report.

Chicago, Dec. 16.—Formation of a world peace program for American Protestant churches was announced today at the executive committee meeting of the federal council of the Churches of Christ in America by Dr. S. L. Gulick, secretary of the council's commission on international justice and good will. The proposals will be presented at tomorrow's meeting. The committee's report presents a number of suggestions and recommendations, including: Outlawing of submarine, bombing plane and chemical warfare. No quibbling about the Panama canal toll treaty. Repeal of anti-Chinese legislation not dealing with immigration, but with our violated pledge to give Chinese in the United States fair and equal treatment. Withdrawal from Hawaii of large naval forces and a halt in building of great naval bases in the Pacific. Release of France from payment of debts to United States incurred after its entrance into the war. The commission asks if the time has not yet come "for the churches of America to extend to the Christians of Germany the hand of Christian fellowship" and it recommends communication to the churches and Christians of Germany "expressing our desire for renewed friendship and co-operation in our common task."

At its business session today, the council's executive committee declined to create a commission on pub-

lic morals to give special attention to Sabbath observance, demoralizing amusements, marriage and divorce, and asked its commission on social service to look into these matters. Lack of funds was cited as a leading reason for this action.

Full co-operation with plans for an international conference of Protestant churches in 1924 was voted. The highest position ever awarded a negro in the council was given to Professor J. R. Hawkins of the African Methodist Episcopal church when he was elected second vice chairman of the council's executive committee.

The United Lutheran church was accepted as a consultative member of the council. Steps were taken toward the introduction into moving picture news reels of dramatic phases of church work.

The budget of 1922, calling for a total of \$345,000, was approved. This marks a retrenchment of \$50,000 on last year's budget.

New York Tribune to Build Modern Newspaper Home

New York, Dec. 16.—The New York Tribune is deserting the spot at Nassau and Spruce streets, where it was established by Horace Greely 80 years ago, for a new home in the uptown business district. Announcement was made last night of purchase by Ogden Reid, owner of the newspaper, of a site in Fortieth street, on which will be erected a modern six-story plant with a total working space of more than 100,000 square feet, or double the newspaper's present facilities. It is expected to be ready for use in May, 1923.

Colorado Roads Allowed To Reduce Freight Rates

Denver, Dec. 16.—Colorado railroads, under an order issued today by the Utilities commission, will be permitted to make 10 per cent reductions in freight rates on farm, garden, range and orchard shipments, effective January 1, next. The order was entered on petition of leading railroads and will be effective for a six months experimental period.

Japanese Accept Chinese Offer to Pay for Railway

Amount Fixed at 53,000,000 Gold Marks Plus Amounts Of Improvement—Subject to Tokio's Approval.

Washington, Dec. 16.—Subject to Tokio's approval, the Japanese delegation yesterday accepted the Chinese offer to pay \$3,000,000,000 German gold marks for the Kiao Chow Tsingtau railroad in Shantung, plus what Japan has made in permanent improvements but less deterioration. When the conversations between the two delegations was renewed yesterday the Chinese offered to buy the railroad outright in cash, but the Japanese, it was said, raised questions as to why this course was proposed, pointing out that all other railroads in China had been built with the aid of foreign loans.

The Chinese delegates replied that the Chinese consortium was ready to finance the restoration of the railroad and China's desire was to make use of this in order to do away with "foreign control."

Mr. Hanihara of the Japanese delegation said after the meeting sufficient progress had been made toward a settlement of the Shantung question, but would give no details.

From the Chinese, however, it was learned that after the provisional acceptance of the Chinese financial offer for complete Chinese control over the railroad, the discussion centered on the mode of payment. No decision was reached and the discussion will be continued tomorrow.

The amount agreed on virtually is the valuation placed on the road, exclusive of the adjacent mines, by the reparations commission set up under the treaty of Versailles.

certain iron ore fields involved in the disputed railroad remains to be settled, but according to the Chinese, probably will not be reached until the method of payment of the road proper is agreed upon.

Packers Accused of Controlling Meat Market

Washington, Dec. 17.—The "Big Five" packers by use of their South American products are able to "manipulate and control" the American meat market, George W. Armstrong, a cattle raiser of Fort Worth, Tex., testified today before the senate finance committee in urging a duty "to cover all the products of the steer, beef, hides and the live skin."

"The packers can put the market up or down as they please," Mr. Armstrong said. "They control the packing plants of the world. I am not unkindly to the packers. They are no worse than any other men."

Bare Knees Bar Girls in Detroit From Many Jobs

Frivolous, Flighty Type Not Wanted—Girls of Refinement and Good Taste Sought.

Detroit, Dec. 16.—Bare knees, heavily rouged lips and very short skirts are bars to substantial advancement of girl employees in Detroit.

Executives do not agree with Miss Annie Matthews, register of the county of New York, who announced recently her employees may wear what they please.

The simple, old-fashioned girl, who

uses the powder puff and lip stick sparingly, and makes a semblance of hiding her knees with her short skirt is sought for jobs here.

Miss Harriet Conde, head of the Michigan State Telephone Training school, said:

"We abhor the frivolous, flighty type of girl, and if we find that a girl in our employ develops such tendencies we tell her that her position is at stake, unless she modifies her appearance. We need girls of stability, and it is my experience that girls who are style extremists do not possess that quality. Girls with bobbed hair are usually told it would look better under a net and not to present the appearance of a Fiji Islander."

Miss Sarah M. Sheridan, sales manager of the Detroit Edison company, said:

"We don't hire girls who are flashy or conspicuous, but endeavor to secure girls of refinement and good taste."

Judge Extends Death Sentence of O'Connor

Chicago, Dec. 16.—This was the day set for the hanging of "Terrible Tommy" O'Connor, for the murder of Detective Sergeant O'Neill, but Tommy was not present, due to the assistance of friends within and without the jail who assisted him in breaking out of that institution and to liberty last Sunday morning. In criminal court today, Judge Scanlan extended, indefinitely, the death sentence so that O'Connor may be hanged as soon as he is apprehended—if he ever is caught.

Lloyd Heth, county prosecutor, who brought about the conviction of O'Connor, today received a warning that a plot is well under way to assassinate him for his activities against the notorious murderer. The unsigned communication said one of

the relatives was concerned in the death plot, which made it necessary for him to withhold his name.

Move Made to Stamp Out Indian Hemp Production

Las Animas, Colo., Dec. 16.—Vigorous measures to stamp out production of "Indian hemp" are being taken by Bent county officials, following the discovery here of several gardens in which the plant was being cultivated.

The plant is known botanically as Cannabis Sativa, and when matured its large brown leaves are smoked with a result similar, it is said, to that of opium.

Many Mexicans in the Arkansas valley are reported to have been made insane from smoking "Indian hemp," and an extensive traffic in the "loco weed" has been going on in some sections of Colorado.

State laws provide heavy penalties for persons convicted of propagating "Indian hemp."

One Minute Store Talk

"I'm giving more attention to the selection of 'his' gift this year than I ever did before. In spite of backward conditions, he has been so good natured all year that I'm going to show him that there are other big hearted members in our family," said a clever little woman, buying a Tuxedo suit and a full complement of correct accessories for "his" Christmas gift.

JOHN A. SWANSON, Pres.

WM. L. HOLZMAN, Treas.
