Great Increase in Business This Year Is Foreseen

Political, Financial and Industrial Leaders Agree Era of Great Prosperity Is Opening.

By HOLLAND.

The overnight changes whereby he former president of France, Poincare, overcame Prime Minister Briand who was recently in Washing at the conference for the limitaion of armament, occasioned little oncern in the accurities market. French securities were only momen-tarily affected and even then slight-ly. The international bankers are confident that the swift whirlabouts politics which are so characteristic of France, oo not really mean anything more than the play of per-sonal ambitions or personal jealou-sics. In this view they are justified y information contained in a letter which came a few days ago from l'aris, which was written by an

American who is now of international coutation and who is familiar with rance, both in its superficial and its fundamental aspects. In that effect that there are the reasons for the United States to become anxious respecting France of fundamentally France is all right. It is also the belief held by some of the international bankers that the authority and pressings which Lloyd George ow Perresents will be sufficient to present early state of the relations were reasonable of the relations where the the relations were resent triumph whereby the eighty of Great Britain is now reserved by Ireland becomes a free state, atlands shoulder to shoulder in that respect Canada and Australia, has unquestably made him the predominant figure in European statesmanship.

Follows Liscoln's Example.

Chicago Grain

By CHARLES D. MICHAELS.

By Omaha Bee Leased Wire, Chicago, Jan. 18.—A materially

Course grains are selling too low, based on the price of hom and livestock and compared to the cost of production, in the opinion of well-posted grain men.

The big stock of low grade wheat at Kansas City and the fact there are approximately 10,090,000 businels wheat in store and on track at New Orleans and Gaiveston tend to make the Kansas City futures relatively easy.

Drawn for The Bee by Sidney Smith Hospitalization Plans Outlined to War Veterans

General Sawyer Says 32,000 Men Will Be Cared for-172 Employes for Each 200 Patients.

Washington, Jan. 18.—Federal hospital capacity for a minimum of 32,000 patients with provision for 172 employes for each 200 patients is planned by the government in 48 hospitalization program for former acrvice men. Brig. Gen. Sawyer, president of the hospitalization board, declared yesterday before the condeclared yesterday before the conference of officers in charge of government hospitals serving veterans of the world war. The conference was called by Gen-

The conference was called by General Sawyer to discuss co-ordinate plans for the operation of the federal medical institutions to provide the best of care for patients.

"Today," he said, "there are being hospitalized under government control in federal hospitals, 22,440 world twar veterans, who are distributed.

war veterans, who are distributed among the departments as follows: Public health service, 16,373; army hospitals, 1,681; navy hospitals, 1,056; soldiers' home hospitals, 2,500; and interior department hospitals, 827

These figures, he added, did not take into account 9,066 patients in contract hospitals. There are non under construction, he said, 7,592 new beds and 2,500 more are conworld's wheat markets. In the last two days about 7,000,000 bushels cash grain has changed hands in all receipts were 15 cars, as against retwo days about 7,000,000 bushels ceipts of 93 cars last year. Wheat receipts were 15 cars, as compared 107 federal hospitals engaged in the

cash grain has changed hands in all positions, including Canadian, Argentine, Australian and domestic wheat.

Buying of futures here and in tients, one occupational theurapist tor every 50, one social worker for every 50, 14 vocational trainers and assistants for every hospital of 200 patients, and 130 additional employes for each such hospital, Gen. Sawyer

Walla Walla, Wash., Jan. 18.— The kindest landlord has been found again, this time in Walla Walla. He is F. W. Dudgeon, who advertised, despite a local shortage of housing facilities and the frequent reluctance of landlords here to admit children

to their homes, as follows:

"House for rent with bath and electric lights. Couple in order to be considered for this house must have children. If child is born in house a month's rent will be given for each child."

Dudgeon is swamped with replies.
