

### Packing House Strike Ended by Union Heads

#### Butchers Advised to Secure Old Jobs—Packers Say Strike Lost Since Beginning.

Chicago, Jan. 31.—Messages were sent to all unions affiliated with the Amalgamated Meat Cutters and Butcher Workmen of North America today recommending that the strike of packing house employees be called off immediately. Dennis East, secretary of the union, announced tonight.

The message recommending that the strike be ended, also advised the union men to secure their old jobs. Mr. Lane said. He said that the union executive council had decided to make the recommendation and that there would be no further concerted strike action.

#### Lost Since Beginning.

Spokesmen for the big five packers expressed little surprise when informed that the strike order had virtually been rescinded, some stating that the strike had been lost since its beginning.

#### Say Plants Crippled.

The unions declared most of the packing plants were crippled and that more than 50,000 men were on strike. The packers asserted that their plants were operating at almost normal and employed nonunion men. Disorders in several cities resulted in legal steps being taken to restrain picketing and in other action to prevent disorders. Several persons were shot in Chicago and other cities during the first two weeks of the strike.

The union offered to submit to government arbitration of the strike but the packers maintained there was nothing to arbitrate. A week ago the union voted on calling off the strike, but it was announced over 90 per cent of the workmen voted to continue the walkout.

#### Strikers Ask for Old Jobs in Packing Houses

(Continued from Page One) have proved efficient, will be discharged to make room for ex-strikers.

#### Murphy Holds Out Hope.

M. R. Murphy, manager of the Cudahy plant, remarked that a large number of the present employees were young men from farm communities and would soon leave their work in the city.

Asked the reason for the change in sentiment from last Wednesday's vote, Jacob H. Davis, district president, stated that "the strikers have been driven back by cold and hunger. They put up a splendid fight and can go back to work knowing that they did all that men can do."

#### Davis Is Confident.

Davis was confident that the men would get their old positions back, for they were skilled workmen.

The packers have kept a record of strikers arrested and will not employ those convicted.

#### Injunction at Sioux City.

Sioux City, Ia., Jan. 31.—Sioux City packing house strikers are restrained from interfering with the activities of the packers here in an injunction issued last yesterday by Federal Judge Martin Wade, at Iowa City.

#### West Coast Shaken by Terrific Upheaval

(Continued from Page One) brains to account for the "lost" earthquake. Its source origin never has been definitely established, although it was of such proportions as to shatter instruments thousands of miles away, and to send a tidal wave circling the earth.

A few days later came news of an earthquake in Kan-Zeu province, China, in which 2,000 persons perished. Scientists asserted there probably had been two distinct upheavals, probably on opposite sides of the globe.

#### Lost Quakes Frequent.

Such earthquakes are frequent near the West Indies and beneath the Pacific westward of the Americas to the chain of sunken mountains which form the Japanese archipelago.

The first major catastrophe by earthquake or volcanic eruption which history records was that at Constantinople in 527 when 10,000 persons perished. Since then there have been 20 such disasters.

The greatest toll of human life was taken in a volcanic upheaval in Yeddo in 1703, when 100,000 persons lost their lives. More than two centuries later, 1908, there was the disastrous eruption which buried

Messina and 54 other Italian towns causing the death of 164,000 inhabitants.

San Francisco, Jan. 31.—Earthquake shocks were felt today in California, north of San Francisco and throughout the coast towns of Oregon. In Oregon cities the tremors shook windows, awakened sleepers and rattled dishes. No damage was reported.

The shocks were recorded by seismographs in California and Washington. Efforts to obtain verification from ships on the Pacific ocean of deductions at Harvard university and the University of California that the center of the disturbance was on the floor of the Pacific off the coast of Washington or Oregon were of no avail. Ships spoken to by radio failed to report any unusual occurrence.

In California, the lighthouse at Cape Mendocino, 30 miles from Eureka, felt the shocks to a greater extent than any other report. The lighthouse keepers feared that the lenses would be broken by the vibrations.

#### Fault Causes Severity.

The severity of the earthquake at Cape Mendocino was attributed by laymen here as due to the fact that the chief geological fault in California has its end in that immediate neighborhood. This master fault of the coast range extends from Cape Mendocino to the Gulf of California, a distance of 700 miles, and closely follows the coast line until it reaches a point below Monterey bay, when it swerved inland a score or more miles.

California has several well-defined geological faults, the most conspicuous being on the peninsula south of San Francisco county. They are known as the San Bruno, San Andreas and Pilarcitos faults. The tremor that shook San Francisco in April, 1906, had its origin in the master fault and its effect was felt along its entire length, but the physical damage was confined to a comparatively small area in the west central section of the state.

#### Valeda Bank Robbed.

Coffeyville, Kan., Jan. 31.—The Valeda State bank at Valeda, Kan., eight miles east of Coffeyville, was robbed today by three men who escaped in an automobile, taking \$1,000.

### New Hospitals for War Victims Are Approved

#### Naval Institutions to Be Established at Newport, New York and Pacific Coast Stations.

Washington, Jan. 31.—Extension of hospitalization facilities to world war veterans by the purchase or erection of at least three additional hospitals was urged upon President Harding today by Col. C. R. Forbes, director of the United States Veterans' bureau.

The plan, which Col. Forbes said received the hearty approval of the president, includes the taking over by the veterans' bureau of the Cozier Island naval hospital at Newport, R. I.; purchase or erection of a large hospital for tubercular patients in the metropolitan district of New York and of another large mental hospital on the Pacific coast.

There are at least 2,400 former service men suffering from mental disorders in California, Col. Forbes said, and the number of such patients is increasing. The director proposes that for their treatment a hospital be acquired either in San Francisco, where a shipping board housing project may be available, or at Los Angeles. Such a hospital would be

separate from the tubercular institution at Palo Alto.

Col. Forbes said that President Harding backed in its entirety the veteran plan, and approved also the vocational training universities plan. He agreed with Col. Forbes, it was said, that before additional soldier universities are founded in wartime

campa that the soldier university at Camp Sherman, Chillicothe, O., be given a fair trial.

Col. Forbes said the hospital extension plan would be carried out as soon as funds are available.

Fitted with electric connections, a new metal cup heats water in glasses set in it.

#### New Irish Government in First Official Ceremony

Dublin, Jan. 31.—The first ceremony officially attended by the new Irish government occurred today, when a solemn requiem mass for Pope Benedict XV was celebrated in the pro-cathedral by Archbishop

Byrne. Lord Fitzalan, viceroy of Ireland; Arthur Griffith, president of the Dail Eireann, all the members of the dail cabinet and of the provisional government were present.

David Abbott Says "Assured" Miss Dennis Possessed of Unknown Power.

#### FINDS VETERAN'S PAPERS

"Her work is simply miraculous and what he has shown me is sufficient for investigation by any psychologist, and that she has a known power or ability."

"That was the day when Mrs. A. Abbott, 3216 C. street, was serving two year-old girl, it is about a dreamy, mysterious, after the girl."

Probably the most uncanny thing to be called, occurred when Mrs. L. Hayes, 412 South Eighteenth street consulted her.

"You are worried about some thing," said the girl when Mrs. Hayes entered the séance room.

"Yes," replied the woman. "And it is about a dreamy, mysterious, after the girl."

Miss Dennis told several startling things to two of the persons who were granted interviews with her. This uncanny to even Mr. Abbott, skeptic from the standpoint of a Physical Research.

"That the girl is bright beyond her years when she 'looks' into the future, assuming the appearance of being in a trance, many of the things who were granted of this morning were."

But the Abbott home was crowded with eager women who had spent the week where their wonder girl told them where their husbands were and where they were to go.

Miss Dennis acknowledged she had more than the "lost" girl.
