

Ship Men Favor Merchant Marine Plan of Harding

Admiral Benson Tells of Existing Evils at Annual Convention of National Association.

Washington, March 3.—Support of President Harding's plan for an American merchant marine was voiced by leaders in the shipping world, Chairman Lasker and Rear Admiral William Benson, retired, former chairman of the shipping board, at the opening session of the annual convention of the National Merchant Marine Association. At a dinner tonight Senator Wesley L. Jones of Washington, chairman of the senate commerce committee, and H. H. Raymond, president of the Clyde-Mallory lines and president of the American Steamship Owners' association, discussed the general shipping situation.

Admiral Benson told the several hundred delegates evils were preventing the proper development of the shipping industry and that the fact must be faced that a certain portion of our shipping is tainted with foreign interests. He added that allowance should be made, however, for foreign interest in American shipping because these foreign interests came to the support of American shipping "when support was actually and badly needed." Mr. Lasker declared that without a well balanced and adequate merchant marine the country could not be properly developed.

Endorse Views of Lasker.
P. A. S. Franklin of the International Merchant Marine corporation, and W. A. Harriman of the American Ship and Commerce corporation, endorsed Mr. Lasker's view as to the importance of a merchant marine. The proposed shipping bill, Mr. Franklin said, was the best that has been before congress in the 30 years he has been identified with shipping interests, and he added: "It has a splendid chance to pass and deserves the support of everybody who has the interest of the nation at heart."

Mr. Harriman, after discussing the growth of overseas trade, offered to the shipping board suggestions as to the disposition of its fleet and what he said was his own opinion that American owners probably would not invest heavily in shipping board tonnage unless advised as to the disposition proposed of vessels not purchased by the important American companies.

Attacks England.
Edgar P. Young, publisher of the Marine Journal of New York, created a stir at the afternoon session by an attack on England and the press of the country, referring to the latter as being "opposed to honest merchant marine policies." He declared that "Great Britain has swept up the seas and now is striving to destroy our coastwise shipping." Senator Joseph E. Ransdell of Louisiana, president of the association; Representative Frank D. Scott of Michigan; Stevenson Taylor, president of the American Bureau of Shipping, and Malcolm Stewart, chairman of the Middle West Merchant Marine committee, discussed waterway problems and their relation to the shipping industry. An open forum developed divergent views at the afternoon meeting, most of the speakers, however, endorsed the administration's stand for a strong merchant marine.

Detroit Asks for Data on Auto Accidents in Omaha
Detroit has 180,000 motor vehicle drivers, 20,000 of whom are women, according to information received yesterday by Police Commissioner H. W. Dunn from the Detroit police department.

The officials of the Michigan city wish to know the number of automobile accidents in Omaha, showing separately the number of men and women drivers involved.

McMahon Pleads Not Guilty in Waiving First Hearing
William E. McMahon pleaded not guilty to embezzling \$2,918.75 of disabled veterans' funds and \$553 worth of personal property in police court yesterday. He waived preliminary hearing and was bound over to district court under a \$2,500 bond. According to McMahon's counsel, relatives will pay the embezzled sum.

Common Sense

By J. J. MUNDY.
Do You Have a Real Interest in Your Work?

Every time the boss asks you a question about something concerning the business and you cannot give an intelligent answer, you have dropped a notch in your standing with him.

Your boss wants men in his employ who are really interested in the business and he has a right to expect you to study and become familiar with everything in your department at least.

You may think you are sliding through easily with expenditure of little brain power, and you may continue to do so for a time, but there is bound to occur a choice in favor of the better informed man.

You have an opportunity in holding your job which should bring out a feeling of real interest on your part.

If you are not a success in the position you hold you are a greater loser than the man who employs you, although you may think that your lack of interest is the other fellow's loss.

The state of mind in which you mold yourself in your indifference to what is good for your firm is bound to react on your own ability to do.

Besides your employer can discharge you, and all you will have to sell when you apply for another job is what you know and what you can do.

Two automobiles were among the numerous gifts presented to Marshal Foch during his recent visit in this country.

Dog Hill Paragrafs

Yan Sims had all eyes turned on him at Bounding Billows Saturday afternoon, and bids fair to yet be some sort of a public man. He had gathered up close to hear the brass band play, and while he was not noticing, he stood too close and was accidentally hit by the bass drummer, who was making a fine run on his instrument. Yan immediately apologized to him, and no hard feelings were engendered.

It is now freely predicted that Little Fidelity Flinders will some day make his mark in the world, as he was the only one in the school Friday afternoon that could tell who is the vice president of the United States.

Atlas Peck has been wondering all day what has gone with all of the pug dogs. He reckons, however, that they must of passed out with whiskers and free silver.

Delco Light Firm Is Fifth in Sales
Business in Nebraska Considered Indication of Returning Prosperity.

Another indication of the business boom which is rapidly gaining momentum in Nebraska is a telegram received by Charles E. Wagner, Inc., from the Delco Light company of Dayton, O.

Mr. Wagner is Nebraska agent for Delco light, which includes farm lighting equipment, washing machines and other electrical equipment for farm use. His chief customer is the farmer, and the prices of his equipment range from \$500 to \$1,600.

"The washing machine business is keeping pace with the return of prosperity to the Nebraska farmer," said Mr. Wagner, who was notified by the Delco telegram from Dayton that he has attained fifth place in the long list of agents throughout the country for February sales. "And the prospects for March look even better than February."

Rev. Proper, Ex-Omahan, Called by Death in N. Y.
Rev. D. D. Proper, who lived at 2224 Farnam street until last fall, when he was called to New York city, died in New York yesterday. Word was received here by Rev. A. A. DeLarme, pastor of the First Baptist church, of which Dr. Proper was an officer.

Dr. Proper was secretary of the American Baptist home missions and went to New York for work at the headquarters office of the Northern Baptist convention. He was 77 and lived in Omaha a number of years.

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substance that gently acts on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics do without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 25c.

Prosperity Is in Evidence at Leigh

City Treasury Has Cash to Enlarge Electric Plant--Plan Fair Grounds.

Leigh, Neb., March 3.—(Special.)—Much evidence is already at hand which indicates that Leigh will have an era of prosperity during the present year. Already plans are underway for considerable building activity and several new business buildings and many improvements are being planned.

R. H. Goodge will erect a modern brick business building as soon as the weather permits. When the new building is completed Mr. Goodge will branch out in business by putting in a new stock of furniture in connection with his undertaking business.

Another improvement planned is the installation of an additional large crude oil engine, and another unit at the municipal electric light plant. The village board now has the matter under consideration and it is expected that the additional equipment will be installed in the early summer. The installation of another engine and dynamo will necessitate building an addition to the power plant. The village treasury has sufficient money to pay the entire expense of this undertaking without a bond issue.

Another undertaking that will be launched this year is establishing the grounds and buildings for the Colfax County Fair association. This organization was perfected as a permanent institution at the close of last year. Grounds have been secured adjoining Leigh and some of the buildings will be erected during the coming summer, so as to be in readiness for the fall festival. The Colfax county commissioners have made the levy to help finance the proposition and the fair will be made a permanent institution. The first annual fair was held last fall.

Radiophone Installed to "Tune In" on Air Concerts
Nebraska City, Neb., March 3.—(Special.)—Karl Nelson and Arthur Sweet have installed a radiophone on the top of the Press building in the hope of "tuning in" on the concerts of the Kansas City Star. They declare the receiving apparatus will have a radius of about 300 miles.

Files for Supervisor.
Beatrice, Neb., March 3.—(Special.)—A. W. Koch of Odell filed as a democratic candidate for supervisor from the Seventh district. Al Mosher of Wynora has filed as a democratic candidate for sheriff.

There is Strength in Every Tablet

One dose often helps commence to enrich your blood and revitalize your worn-out exhausted nerves—Nuxated Iron is organic iron, like the iron in your blood and like the iron in spinach. It is so prepared that it will not injure the teeth nor disturb the stomach. It is ready for almost immediate absorption and assimilation by the blood while some physicians claim metallic iron which people usually take is not absorbed at all. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron—three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Your money will be refunded by the manufacturer if you do not obtain perfectly satisfactory results. At all druggists.

NUXATED IRON
Enriches the Blood—Strengthens the Nerves
