Relative of Col. Roosevelt Dies: Police Puzzled

Found Wandering on New York Streets in Dazed Condition-May Have Been Victim of Thugs.

Omaha Bee Leased Wire. New York, April 1 .- Robert B Roosevelt, ir., a relative of the late President Roosevelt, died at the Knickerbocker hospital from injuries received last night. Police are on the case to learn whether he was the victim of thugs, an auto ac-cident or "joyride." Roosevelt was found in a dazed condition and it was apparent that he had been seriously

Patrolman Frank Curran found Roosevelt, who had severe cuts on the head and both legs and could tell nothing about himself. On the police blotter was the name of one witness-James Murray, whose ad-dress was given as the Yale club. The police have no indication of how Roosevelt received his injuries. Roosevelt was the son of Mr. and

Mrs. Robert B. Roosevelt of Washington. His uncle s John E. Roosevelt of this city, and he is the second cousin of Col. Theodore Roosevelt, assistant secretary of the navy. W. Emlin Roosevelt of New York is a cousin of Mr. P. cousin of Mr. Roosevelt's father, who was also first cousin to President Roosevelt. The victim's father was formerly United States minister to

Young Roosevelt was married in October, 1920, to Virginia Lee Minor, daughter of Mrs. Tucker K. Sands of Washington and Richmond.

Will Plant Many Trees in Nebraska Sand Hills

Continued From Page One.) fuel and timbers for various purposes. The sand hills are almost barren of trees. The need of cheapor fuel than coal and cheaper material for building fences is quite acute. A supply of lumber for the future is one object of forest planting in the sand hills.

Will Reclaim Land. The following information is given

by the forest service:
"While it cannot be said that forests are needed in the hand hill region to conserve water, the planting of forests in these hills will check the wind locally and generally it will prevent the further encroachment of the cast and will ameliorate the dryness of humanity he has never seen. of the atmosphere, so that agricultural and may receive a greater if he is willing to accept me," said flight from Minneapolis to the west amount of precipitation. Of these Mrs. Lambert. influences, the local effects of groves of trees acting as wind-breaks will be felt first, and for this reason the planting of trees by local residents, after the government has thoroughly experimented with species and meth ods, should be strongly encouraged. Are Potential Forest Lands.

"From the forestry standpoint, the Nebraska sand hills present wonderful possibilities. The sand dunes are potential forest lands. In the fall of pleteness of the suspension were not United States District Attorney J. The Bradys' petition with the report of United States District Attorney J. as the headquarters of the Nebraska National forest, and a small nursery was laid out for the growing of jack and western yellow pine. Since the spring of 1904, when the first seed-lings became large enough for planting, this nursery has been increasing steadily in size and efficiency, so solicitation, it was stated, had left that now the output is 1,500,000 the government with nothing more young trees a year. To date 1,300,000 trees have been supplied free of
charge to the residents of the "Kinkaid" district. As a result of this
free distribution small groves of
trees are appearing throughout the
ington to "lay the miners' case be-

"Since 1902 the forest reserve has open shop basis.
In some fields, railroads serving Potato and Cabbage Growers planted 6,000 acres on the Bessey division of the Nebraska National the mines laid off large forces. forest. A young forest exists on these acres. It is a green patch on the desolate looking country and is like an oasis in a great desert. Trees 28 feet high are not uncommon. This remarkable growth was attained in 19 years. On the forest there are nearly 200,000 acres to be planted. This will take many years and the development. capacity of stock i underway, so take some united action at a conter-ence in Chicago Sunday that would that the planting may be accomplished as soon as possible. The success be followed by immediate results of in afforesting of these sand hills nation wide scope in connection with the miners' strike. He will leave to night for Chicago. sey division. Many people of Netyaska little realize that there is a Hospital Buys Unfinished real national forest in their start.

Made Game Preserves. "The two divisions of the Nebraska National forest have been set aside by the state as game preserves. By purchase for \$40,000 of the unfinished six-story structure begun by the now defunct North American Hotel coman act of the state legislature it is unlawful to bunt or pursue with dogs. any animals on any national forest pany and which represented for that company an investment of \$169,000 Purchase of the building has added new stimulus to the drive for \$150,000 for the hospital, which has gone well over the \$100,000 mark in western Nebraska. The building is ideally designed, according to hospital architects for hospital architects for hospital architects for hospital architects. in the state, or to carry firearms on or across said forests, unless they are

Frigidaire the Electrical Home Refrigerator

Frigidaire is a complete, self-contained, electrical refrigerator for the home.

Simply attach it to the electric circuit, and, day after day, without any thought or attention on your part, it will maintain an extremely cold, dry atmosphere in the food compartment. There is no drip pan, no dirt, no inconvenience, no uncertainty. Food does not spoil.

Frigidaire freezes ice cubes for table use. It chills and freezes many dainty creams, ices and deserts.

Frigidaire is a product of General Motors Corporation and will probably cost you less to operate than you now pay for ice. Visit our store and see Frigidaire demon-

strated, or write for our booklet which gives the details. Chas. E. Wagner, Inc. 2211 Farnam St. OMAHA Phone Doug. 4722
